### BALL AT BAKER.

Beet Pullers Found a Crop in Gold Diggers' Diamond.

Baker City's new aggregation, the Gold Diggers, went down to defeat before the La Grande Beet Pullers on Friday and Saturday by score which made the Baker fans wonder whether it was appendicitis or only an ordinary pain which had attacked them.

On Friday the Grande Ronde boys swatted "Dicky" Glendon all over the diamond for eight runs to Baker's six, five errors at bad points assisting in running up the score.

On Saturday the agony was even worse, a double up proposition being worked by the Beet Pullers, who allowed the Gold Diggers but four tallies while they sent eight men across the scoring plate. In this latter game La Grande used but one pitcher while Baker operated three, but in vain; it was an off day and there was nothing to it.

### Don't Use Too Many Words.

Multiplication of words increases the expense and decreases the effectiveness of advertising. Say what you have to say in as few words as it can be said—then stop. By so doing you can get what you want to say in larger type, so that it will command the attention of more readers than would a wordy discourse set in small type.

### MORROW COUNTY PROSPERS.

Judge Lowell Talks of the Outlook in That Section.

Judge Stephen A. Lowell has returned from Lexington, where he delivered the Fourth of July oration. He reports a successful celebration, notwithstanding the cold temperature and high winds which seemed to have characterized the day throughout the Northwest.

The judge found Morrow county notably prosperous, that section receiving a goodly share of the best class of emigration from the east. Much of the vacant land has been taken during the past two years, and the wheat area greatly extended. The crops are in excellent condition, and harvest ready in many sections.

The high price of wool and its ready sale, has given a new impetus to the sheep industry, while the breeders of fine cattle are finding ready sale for all the animals they can spare.

Some excitement exists about Heppner by reason of a reported coal discovery in that vicinity. Should the reports prove true, it would mean much not only to Heppner and Morrow county, but to this whole region where the fuel question must soon be a serious one.

### Grasshoppers Numerous.

Nick Blanchet, who was in town Saturday from Alkali Flat, says the grasshoppers are so numerous in some places in that country that they are doing much damage. He says stock has done well on the flat this season and with the exception of the grasshoppers destroying considerable garden truck, everything is lovely.

### Lost Watch and Money.

James Harper, a well-known character around town, claims to have been robbed of his watch and \$5 in money while sleeping in the Palace Lodging House a few nights ago. The watch was a silver case, Elgin movement, and Mr. Harper says it cost him \$28.
