T. C. Taylor this morning broke ground for the new addition to his hardware store. The new addition will extend 20 feet in the rear of his present room and will be built one story high, of brick. Mr. Taylor's largely increasing hardware business necessitates more room and the additional floor space will relieve the crowded condition.

Taylor, the hardware man has just placed a Myers deep well tubular pump on the farm of Virgil Moore, 12 miles north of the city, which works like a charm. The pump works with such smoothness and ease that it is an easy task to draw the water up from a depth of 277 feet. Mr. Moore is highly pleased as it gives him a liberal supply of good water, although he was compelled to have a very deep well put down before he was able to get good water.

### STATE LOSES LANDS.

Oregon Homesteaders Get New Land in Idaho.

Lewiston, July 14.—An important decision was handed down in the general land office recently and has reached the local office. It was in the contest cases of William Glasby vs. John Wrbl and William Glasby and Clyde Elmer vs. Joseph Wrbl, reversing the decision of the local office and awarding the lands to the Wrbls. The lands in question are two valuable quarter sections of farming land on the Nez Perce reservation, in the Beeman neighborhood, which were filed on in November, 1895.

The defendants offered final proof on May 31, 1901, at which time Glasby and Elmer filed protests, among other things alleging that the Wrbls had previously exhausted their homestead rights by completed proofs at the La Grande, Oregon, land office. The lands in Oregon were entered, it was alleged under the names of Zebonzaks. These lands were in the vicinity of Athena, Ore., where the Wrbls were well known under the name of Zebonzaks.

Several persons from the Oregon town testified to these facts. The commissioner holds that the Wrbls were guilty of no fraud in taking out citizenship under this new name, and that homestead entries under that name were valid under the act of June 5, 1900, by reason of having abandoned their former tracts in Oregon.

One Fare to Hot Lake and Return On July 15 the O. R. & N. Company will sell tickets to Hot Lake and return at \$2.45. Tickets will be sold on the above date only at this rate, and will expire July 17. This low rate is made on account of the Eastern Oregon Medical Association, which meets at Hot Lake July 16.

"Now is the Appointed Time." The O. R. & N. Company has just issued a handsomely illustrated pamphlet entitled "Oregon, Washington & Idaho and Their Resources." People in the east are anxious for information about the Pacific Northwest. If you will give the O. R. & N. Company agent a list of names of eastern people who are likely to be interested, the booklet will be mailed free to such persons.

### FRENCH NATIONAL HOLIDAY.

Fall of Bastille Being Celebrated in French Republic.

Paris, July 14.—Today, the 113th anniversary of the fall of the Bastille was celebrated as usual as a national holiday. There were numerous public entertainments and in many instances the proceeds will be donated to the Martinique relief fund. There was a military review at Longchamps which was witnessed by a large number of people. There were also reviews at all military and naval stations, followed by illuminations, fireworks and balls in the evening.

The Parisians participated with their customary zest. Wreaths were placed on the Strasburg monument in the Place de la Concorde. President Loubet, while driving to the Longchamps race course to witness the grand annual review, was cheered all along the route. In the presidential tribune with him were the members of the cabinet and ambassadors.

In accordance with custom free performances were given in the subsidized theaters. As the evening wore on the city presented an animated and brilliant spectacle, open air dancing, pyrotechnic displays, and a general illumination being the principal features. At a late hour all the squares and open places were crowded with dancers and merry-makers, who gave no indication of an intention to give up their sport until dawn.

The birch grows further north than any other tree. Next comes the Siberian larch, and then the fir.
