A Big Show for a Little Money.

TICKETS . . . 25c and 50c

# HOME COUNTY NEWS

## ALL THE ATHENA NEWS.

### What is Happening and Expected to Happen at That Place.

Athena, July 16.—Charlie Kimsey, the last descendant of Deane Swift's Lilliputians, passed through town Monday. He is 28 years old, has a heavy mustache, fully developed head physically. He is 3½ feet tall, wears a No. 7 hat, and 9 shoe, and weighs 78 pounds. He appears very strong and says he wants a job in some harvest field, where he will make a serviceable hand and accumulate some money, that he wants to get married this fall. So, look out for him, girls, for he is certainly cute, and will fill the bill of those wanting a "cute little man," with a cute little mustache, and who is just simply cute. We are of the opinion, however, that if the word "cute" had a meaning everywhere that it has in some localities, the ladies would not all want a cute fellow, for in Southern California, in common parlance, "cute" means bow-legged, and few girls want a bow-legged fellow.

Dr. Stone and Miss Edna Rider returned from Walla Walla Monday, where they had been visiting for a few days. The doctor will soon locate at Adams, and we predict success for him in his practice. It speaks well of him that he got an excellent literary training, and spent four years in the medical college, and is now only 24 years old.

Sheriff T. D. Taylor passed through town yesterday with two escaped soldiers whom he had arrested, for Walla Walla.

Professor Marvel Watts, who has second place in our faculty here, is harvesting now. He says he wants his muscles in good shape for this year's work in the school room; that he may have to use the rod a little, and that it takes a hard muscle to use it well. He is a fine teacher and the directors made no mistake in employing him.

Cashier E. L. Barnett returned from Portland Monday.

Mrs. G. W. Bradley is visiting in town for a while. She likes our little burg very well.

Mrs. J. D. Plamondon and Mrs. Charlie Barrett returned from Elgin Saturday, where they have been visiting for a few days. They report a good time.

Miss Rozenweig, a member of the school faculty here, returned, from Spokane last week, where she has been taking special work in the summer normal school.

Bob McKee has opened his saloon again after an absence of four months waiting for the new brick building.

The Athena Mercantile Company is having a fine trade in machinery, mowers, binders and other farming implements of late; in fact, all our merchants are doing a lively trade now.

Dr. Sponagle will have his dental office open on Main street this week.

He is having some nice repairs made and will be in fine shape for his work soon.

We have had quite a slege of work among fire insurance men of late. It seems that all the other traveling men have fled the country and given things over to them. It is no small thing to find 20 registered at the hotels in one day. But they are all quite a congenial set of fellows, and the more the merrier.

Will M. Peterson was in Walla Walla on legal business Monday.

Editor Craig, of the Adams Advance, was in town Monday. He says Adams is on the boom, that they have one of the best schools in the county this year, that several new buildings will go up, that other enterprises are receiving new stimulation.

Miss Stella Willoughby is visiting friends this week.

## HELIX HAPPENINGS.

Social and General News, as Caught by a Correspondent.

Helix, July 15.—It is feared by the farmers that the heavy wind on Monday evening has damaged the wheat considerably.

G. W. Knight, who was kicked by a colt last week, is able to be out again.

On Sunday evening Lewis Huson received a telephone message from Pilot Rock to come immediately, on account of the serious illness of his brother-in-law, Emil Hahn.

Mrs. Alex Montgomery was called to the bedside of her sister, Miss Arlie Curtis, of College Place, who has been very sick.

Mr. and Mrs. T. G. Montgomery, of Pendleton, spent Sunday with the former's mother at this place.

Mrs. Fitzgerald, of Pendleton, who is the guest of the Misses Myrtle and Iva Hill, called at the Smith home Saturday evening.

C. M. Alspach and B. B. Richards drove to Athena Sunday.

Roy and Nellie Penland came out from Pendleton Sunday to the Penland ranch, near Helix.

Mrs. Kenneth McKee, who has been at the Walla Walla hospital, returned home Saturday, greatly improved in health.

Frank Stanton has the foundation laid for a fine new livery barn, which will be a great improvement to Helix.

Mrs. Zeiss, of St. Louis, and Mrs. Hicks, of Canyon City, are here on a visit to their sister, Mrs. Ben Leonard. Mrs. Zeiss on her return home will tour through Colorado, Utah and other points of interest.

Little Freddie Pierce, son of L. W. Pierce, who has been very sick with inflammatory rheumatism, is reported slightly improving by Dr. Griswold.

Miss Annie Brannon, who has been stopping in Helix for the past year, will leave tomorrow morning for her home in Milton.

## GOLCONDA SHOOT AT DEPTH

ORE IS NOW LOCATED AT THE 300-FOOT LEVEL.

So Says Superintendent Meikle—Mill is Now Running Very Satisfactorily and Will Continue to Operate.

At the Golconda two important developments during the week give additional interest to work in progress at that remarkable property, says the Sumpter Blue Mountain American. A crosscut from the north drift on the 300 has opened the rich shoot on that level, giving the first positive evidence that the shoot continues into the depths of the mine. Superintendent Meikle calculated that this drift must be about the shoot, and was led to crosscut by the nature of the ledge in the drift, which indicated the proximity of a good ore body. The crosscut passed through the upper portion of the shoot, the pitch of which on that level conforms to that demonstrated between the 200 and tunnel levels.

In order that he might open up the rich ore between the 200 and 300, Superintendent Meikle strated a permanent winze and upraise. He began sinking 40 feet north of the shaft, where he thought it would cross the shoot about midway between the 200 and 300. The winze had progressed but about 10 feet when it entered bonanza ore that is about as rich as the yellow stuff is taken from the winze sunk south of the shaft, which amazed the whole district. These two winzes prove that the rich shoot, between the 200 and 300, has a width of from 70 to 90 feet.

Manager Robbins was seen this week regarding the starting of the mill, and asked especially as to its bearing upon immediate results. He was asked for a statement of the policy of the management in this respect that the public might have accurate information, and not be led to criticisms should results in the immediate future fail to meet expectations based on wrong impressions. "We have opened the mill as announced," said he, "and it is the pur-

pose to keep the plant in continuous operation. However, for the present we will not treat the rich ore indicated between the 200 and the tunnel levels. We will treat the ore that has been removed in the progress of development, and not make any effort to stop till development has proceeded further. As the ore to be milled now has been taken out as an incident of the development, big results should not be expected from it. Our good returns will commence when development enables us to reach in proper manner the shoot from which the former owners reaped a golden harvest on the 200 level. For the first two or three months we will be satisfied if the mill pays its own operating expenses of the mine. You will understand that stoping must be from below, and the richest ore we have found so far was by means of a winze sunk from the 200. We will have to upraise from the 300 to reach this properly, which may be done now with greater certainty since Superintendent Meikle has located the shoot on the latter level."

### Saves a Woman's Life.

To give up would have meant death for Mrs. Lois Cragg, of Dorchester, Mass. For years she had endured untold misery from severe lung trouble and obstinate cough. "Often," she writes, "I could scarcely breathe and sometimes could not speak. All doctors and remedies failed till I used Dr. King's New Discovery for Consumption and was completely cured." Sufferers from Coughs, Colds, Throat and Lung Trouble need this grand remedy, for it never disappoints. Cure is guaranteed by Tallman Co. Price 50c and \$1.00. Trial bottles free.

### Excursions to Bingham Warm Springs.

Sixty-day round trip tickets, including stage fare between Bingham station and the springs, \$1.75; two-day tickets, including, in addition to the above, three meals at the hotel and a bath in the warm springs, \$2.75. O. R. & N. ticket office.
