MEDICAL MEN'S MEETING

HOT LAKE SESSION WAS A GREAT SUCCESS.

Majority of the Members Were Present and a Number of Interesting Papers Were Read and Discussed.

Drs. Henderson and Cole have returned from their trip to Hot Lake where they attended the semi-annual meeting of the Eastern Oregon Medical Association. Out of a total membership of 63 members, in the original organization, 45 were present. This is the first meeting since the organization of the association in this city last January.

The meeting of the association was called to order and presided over by Dr. W. J. May, president of the assembly. Papers were read by Dr. L. T. Brock, of Sumpter; Dr. W. T. Phy, of Baker City; Dr. J. F. Dixon, of Portland; Dr. Henry W. Coe, of Portland; Dr. A. Blitz, of Boise, Idaho, and Dr. K. A. J. Mackenzie. At the conclusion of each paper the subject-matter was discussed by the physicians present, and at times the discussion became very animated.

Sixteen new members were enrolled at the business meeting. The next session will be held in La Grande early in January, 1903.

The members of the association were the guests of the management of Hot Lake resort, and nothing that could add to their comfort and pleasure was lacking.

MARRIED IN HASTE.

But the Blushing Bride Wouldn't Wait to Repent at Leisure.

After two weeks of married life, Mrs. A. W. Melton tired of her quickly caught husband and left suddenly a few days ago for parts unknown. Readers of the East Oregonian will remember three weeks ago a story of the wedding of A. W. Melton and Jeanette La Peri was recorded. It

AN EXCITING GAME

(Concluded.)

was unusually docile during the game. The batting honors were carried off by Adams and Rhea, each having three hits.

Rol Brown, who was to have played second for the Beet Pullers, was indisposed, and was not in the game. Ralph Black was placed in right field instead of his regular position at third on account of a bad finger.

Mrs. Joseph Parkes and children returned Thursday evening from several days' visit with her parents at Lone. Mrs. Parkes' parents, Mr. and Mrs. A. H. Smith, accompanied them home and will spend several weeks during the heated season in the mountains.

Charles A. Marsh, who spent the past several months in Pendleton looking for a business location, returned this morning from a trip into Idaho towns. He says none of them will compare with Pendleton. He is

anxious to get a room in which to open a gents' furnishing establishment.

George Minger left Thursday for Hot Lake in response to a telegram that his wife was seriously ill at that place. Mrs. Minger was visiting relatives at Cambridge, Idaho, for several weeks and became ill while there. Mr. Minger was called and brought her to the lake, but she has gradually grown worse and the intention now is to take her to Portland for medical aid.

STOCK POISONING.

Wild Parsnips or Carrots May Have Caused Deaths.

Reports were brought in a short time ago of numerous deaths of stock on the ranges in the vicinity of Pendleton and at that time no reason could be assigned for these deaths, it being popularly believed however, that the stock had been poisoned by parties unknown.

The following clipping from the Halley Times may do much to clear up the mystery surrounding the death of this stock as it describes similar deaths and assigns the reason therefor:

"James W. Butch was down Saturday from the east fork of Wood river. He says the reports that were current some time ago that cattle feeding there had been intentionally poisoned and stamped are now acknowledged to be false.

"It is true that many head of cattle have died on the range; that probably 100 head have so died in Slaughterhouse, Quigley, Indian, East Fork and Greenhorn gulches, but all these deaths are now believed to have been due to wild parsnip and wild carrot, that seem to be very bad this year.

"Mr. Ainsworth, his neighbor, who is one of the heaviest losers, thought at first that somebody had poisoned his cattle. But when he rounded them up and drove them elsewhere, some died in their tracks. He then bled those that showed symptoms of poisoning, and they recovered.

"Ex-United States Senator Arthur Brown is one of the big losers, as 12 head of his fine graded cattle died. Mr. Davis who has charge of them, does not blame anyone or anything but the wild parsnips and carrots.

"Mr. Albertsen and others have driven their cattle away from the range on East Fork, so their loss will be small.

"Mr. Butch says that it must be that the range being fed off, the live stock there eats anything they can find. The mortality among sheep seems as large as among cattle. It is not unusual to come across 10 or 12 head of sheep close together, dead of parsnip or carrot roots.

"Mr. Butch has taken considerable interest in this matter because his is the last ranch at the head of the East Fork, and it would be natural for people to suppose that he had something to do with the death of the stock. This is why he spoke to the stock owners about the matter."

Fourteen Drowned.

Portsmouth, N. H., July 18.—A whale boat containing 20 waiters and waitresses employed at Oceanic House, Island of Shoales, who had gone out in the bay yesterday afternoon on a pleasure trip, capsized during a sudden squall and 14 of the occupants were drowned. The other three were rescued by fishermen.

WORK TO BEGIN AT ONCE

CONTRACT FOR ELECTRIC LINE HAS BEEN LET.

Work on Power House Will Be First Commenced and Same Company Will Build Road and Lay Track.

H. Mellman, one of the promoters of the railway from Pendleton to Dayton, declares that work will be commenced at once on the power house to be erected on the Walla Walla River at Milton. He states that while in Portland the contract for the erection of the power house was let to the Northwest Power Company, who will install machinery, furnish and lay the pipe and intake for the water from the river to the power house. This company will also furnish and lay the track, and in fact build the road except surveying and grading.

Consulting Engineer Hesse is now busy with a force of draftsmen making the plans and specifications which will be complete within three weeks.

Mr. Mellman said: "We have been assured by Engineer Hesse that all the power needed for the time being can be generated at the river power house, although myself and Engineer Clarke will leave in a few days for Tukannon to survey and locate a site for a power house on that stream. We have already secured a location. This site will be kept in reserve for future use. The company will build a road from Dayton to Pomeroy in the next few years and we want to secure power sites in advance so we will have all that can possibly be needed."
