Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Application for space in the palaces of Agriculture and Horticulture at the Louisiana Purchase Exposition have been received in great numbers by the chief of these departments and notwithstanding the palace of Agriculture will be the largest exhibit building at the fair, it is now certain that there will have to be great economy in awards of space to satisfy the prospective exhibitors.
