Building and Loan Topics Discussed.

Put-in-Bay, O., July 24.—The second and last day's session of the annual convention of the United States League of Local Building and Loan Associations was marked by even a larger attendance than that of yesterday. President Kosmayer warned his associates that a heavy day's work was before them in order that final adjournment might be taken this evening. Jay W. Sutton of Sault Ste. Marie, Mich., led off with a few notes on the practicability of the interchange of funds between state associations and James Clarency of Philadelphia followed with an interesting address on "The Workingman's Opportunity." Joseph F. Walton of New Orleans closed the forenoon session with an elaborate and elegant argument concerning legislation affecting building and loan associations.

The sultan of Bicolor, Minando, who recently sent an insultingly worded communication to the commander of the American expedition to Lake Lanao, in which he threatened to begin offensive operations in August, has now written a friendly letter to the American commander in which he disavows all desire to fight, and says he will confer with the Americans in the future. The general situation is regarded as favorable.

THE LAWN MOWERS' UNION.

A Brand-New Secret Society Formed in Pendleton.

With nearly 40 secret societies in Pendleton, one would naturally think there was not timber for more. Apparently, though, some people believe in "the more the merrier," and the latest organization to be started in Pendleton is the "Lawn Mowers' Union."

This is for the protection of suffering men who are compelled to toil for hours these hot days in order to keep their wives' lawns looking decent. What started the revolt against this cruel and inhuman practice was the fact that one of the most prominent lawyers in Pendleton was seen walking home the other day with a lawn mower on his back and the terrible agony of this gentleman caused his friends to get their heads together to see if something could not be done to ward off the possibility of them having to do such an "outrageous" thing.

In order to become a member of this union it is necessary that the applicant have credentials showing that he has worked at least two hours in his life on his wife's lawn. The intention is to let no man work over 15 minutes on the lawn in one day, and not more than three days out of the week will he be allowed to do even this. In case a man is compelled to work more than this the head of the organization can order a strike, and all will step out. The organization will be made international. E. W. McComas has been elected president.

The homliest man in Pendleton, as well as the handsomest, and others, are invited to call on any druggist and get free a trial bottle of Kemp's Balsam for the throat and lungs, a remedy that is guaranteed to cure and relieve all chronic and acute coughs, asthma, bronchitis and consumption. Price 25c and 50c. For sale by Tallman & Co., sole agents.

Two Hospitals Said Diabetes.

Bright's Disease and Diabetes Are Positively Curable.

People either cured or recovering from the above diseases are in every ward in this city. Mrs. C. C. Mathewson, proprietor of the Clifton Hotel, 500 Powell street, is one of them, and makes this statement:

502 Powell St., San Francisco, Nov. 21, 1901.

For two years I suffered greatly from diabetes. Finally I had to go to one of the hospitals, going to one of this city's very best. Three physicians there confirmed my case as diabetes, and put me under treatment and strict diet. Getting no relief, I went home. I got steadily worse and went to another well-known city hospital. The physicians there also said diabetes, and stated that they could prolong my life, but that I could never be well. I left the hospital after a few months completely broken down, the percentage of sugar being 11 per cent. It was at this juncture I heard of the Fulton Compound and sent for it. The second and third weeks I began to sleep uninteruptedly, and found that the awful thirst I had suffered with for over two years had left me. I am now an entirely different person, though still taking it to insure permanency. I have recommended it to a number all getting favorable results. One was a warm friend and another is a Berkeley attorney who had Bright's Disease and is now perfectly restored. I dislike publicity, but feel that this thing ought to be known.

Mrs. C. C. MATHEWSON.

Medical works agree that Bright's Disease and Diabetes are incurable, but 87 per cent. are positively recovering under the Fulton Compound. (Common forms of kidney complaints and rheumatism offer but short resistance. Price, \$1 for the Bright's Disease and \$1.50 for the Diabetic Compound. John J. Fulton Co., 420 Montgomery street, San Francisco, sole compounders. Free tests made for patients. Descriptive pamphlet mailed free.
