Lee Teutsch

SUCCESSOR TO

Cleaver Bros. Dry Goods Company.

Good lunches at Phillip's restaurant, opposite Tallman's drug store.

Campers in the vicinity of Meacham report huckleberries very plentiful this season.

The W. & C. R. railroad will ship nine cars of cattle to Tacoma this evening. They are being loaded today. J. C. Lonergan is the buyer for the Pacific Meat Co.

J. N. Smith, arrested here a few days ago for selling liquor to Indians, will accompany United States Deputy Marshal Roberts to Portland this evening, where he will come before Judge Bellinger for sentence. He was bound over by United States Marshal Halley.

BAKER IS BUSY.

Times Are Prosperous in That Section and Merchants Happy.

Mr. Leonard Hale, of the Queen city of Baker County, is spending a few days in Pendleton, on a visit to friends. When interviewed today by a representative of the East Oregonian, said:

"Our part of Eastern Oregon is having a most prosperous season. Crops are good everywhere, the mines are working a larger number of men than ever before and the results are more satisfactory. Many properties have changed hands and an immense amount of new machinery has been put into the district or is now on the way to be installed.

"We have all been greatly enthused over the visit to Baker City of the immigration agents of the Harriman lines under the chaperonage of Mr. J. O'Neil, the travelling passenger agent of the O. R. & N., assisted by publicity agent, R. M. Hall of the same line, and these gentlemen have made a number of excursions throughout Baker county, covering Powder, Eagle and Pine valleys, as guests of the Baker City Chamber of Commerce. They were delighted with everything they saw and have gone back east filled to the brim with the good things of Oregon, about which they can talk to their heart's content with eastern home-seekers.

"There has been considerable railroad talk in Baker City recently, and at Sumpter, but from the best information at hand, there is nothing even in the proposed railroad to Seven Devils, to build which a company has recently been incorporated, called the Oregon & Eastern Idaho R. R. Co., or the loss of the sale of the Sumpter Valley R. R. to eastern people, through intervention of the late order of the Department of Washington making forest reservations in the Blue mountains. Most of our people are from Missouri and you have to show them the eagles."

DOING SOME DAMAGE.

Grasshoppers Appear in Great Numbers in Some Localities.

Grasshoppers are doing some damage on Butter Creek and Willow and Hinton creeks, says the Heppner Gazette. They have appeared in several different localities in great numbers, however, the area covered by them is small. They are very destructive to alfalfa and gardens. When they attack a field they do a good job in cleaning it up. The only way to save the crop is to cut it which is a race between the hoppers and the farmer. The damage will not be great, as the first crop of alfalfa has been cut.

The presence of the grasshoppers the porkers loose on them, much to destructive insects infested certain portions of this country. In 1871 they were much worse than they are this year and hay fields were destroyed. The next year following came the big black crickets, but they did not do much damage, as they kept around the foothills of the Blue Mountains and did not get down to many hay fields. Many stories are yet remembered about the "cricket year" of '72. A story is told of one man who drove around over the field with a big roller and smashed the crickets. Another story is that Dewitt Howard drove a band of hogs around, and when he could find a thick patch of crickets, he turned the porkers loose on them, much to the amusement of all concerned with the exception of the crickets. Along with the hard times of 1894 the grasshoppers appeared and harvested a few crops.

The loss from the grasshoppers this year will amount to but very little. They are now taking wing, and whither they go no man knoweth.

At Kine's Grove.

Owing to the fact that many Pendleton people are in the mountains, not a very large crowd attended the dance at Kine's grove Sunday. Those present had an enjoyable time, however, and were well pleased with the entertainment. A larger crowd is expected next Sunday afternoon and evening as many will have returned from summer resorts.

The homeliest man in Pendleton, as well as the handsomest, and others, are invited to call on any druggist and get free a trial bottle of Kemp's Balsam for the throat and lungs, a remedy that is guaranteed to cure and relieve all chronic and acute coughs, asthma, bronchitis and consumption. Price 25c and 50c. For sale by Tallman & Co., sole agents.

IRRIGATION WORK.

Announcement of Great Importance to the Inland Empire.

Of great interest to Walla Walla and the Inland Empire is the announcement made recently in Seattle to the effect that the department at Washington would at once take up the work of irrigating the waste lands of Eastern Washington, says the Union.

George H. Maxwell executive chairman of the National Irrigation association, in an interview gave out the information, speaking particularly of the Spokane and the Columbia rivers. It is a well known fact that within the last few months there have been surveying parties in the sand belt country along the Columbia. These surveyors have not been on the Walla Walla county side of the river, but they have worked through Franklin county and it was rumored in Pasco some time ago that a ditch was being planned from the Columbia and Snake, the water being taken out of the rivers sufficiently high up the course of the streams to permit of their being brought on comparatively high lands. The sand lands along the Columbia above Wallula will not be irrigated, it is claimed, because they are subject to overflow and a few days' rise in the river might destroy work that cost thousands of dollars.

Portland has issued an edict to the effect that professional beggars must leave that city.
