shocks of varying intensity having  
been felt at various points. At Bon-  
nar Sunday night a shock of about  
two seconds duration, the vibrations  
being quick and short, put one of the  
large dynamos of the electric light  
plant there out of commission, mov-  
ing it out of its adjustment, while  
at Clinton the shock was quite se-  
vere, several old buildings collaps-  
ing.

the second much more severe. Nei-  
ther did damage to amount to any-

## AFTER BEEF TRUST.

Retail Dealers in Meat to Consider  
Ways and Means.

Washington, D. C., Aug. 5.—The  
retail butchers and meat dealers of  
the country do not regard the war on  
the alleged beef trust as by any  
means ended. Their national con-  
vention, which opened here today  
with an attendance of several hun-  
dred members, will complete plans  
for a continuation of the fight on the  
big butchers' and packers' combina-  
tion.

The retailers have confidence in  
Attorney General Knox, who before  
the filing of the bill in equity in Chi-  
cago received a delegation composed  
of the national officers and prominent  
members, and he was supplied by  
them with much evidence, of which  
he made use in proceedings in the  
United States Courts.

While the court proceedings are  
pending the retailers purpose to go  
ahead collecting all available evi-  
dence and placing it at the disposal  
of the Department of Justice.

SIXTEEN TENNESSEE CON-  
VICTS MAKE A GET-AWAY.

Headed by a Notorious Train Robber,  
the Prisoners Blew Opening in  
Prison Wall, Stood Off Guard and  
Escaped.

Nashville, Tenn., Aug. 5.—Gus Hy-  
att, a train robber and desperado,  
last night led a desperate band of 16  
convicts to liberty from the Tennes-  
see penitentiary.

Ed Carney, a safe blower, was kill-  
ed and Joseph Loss and James  
Work were captured, but the rest of  
the prisoners escaped.

The prisoners were evidently fur-  
nished dynamite from the outside,  
and blew out an opening in the main  
wing of the prison. Hyatt stood off  
the inside guard with a brace of re-  
volvers which had also been furnish-  
ed him from the outside, while the  
men preceded him to liberty.

## THE ENGLISH LANGUAGE.

Proposition to Make its Use Obliga-  
tory in German Schools.

Berlin, Aug. 5.—The question as to  
whether English shall be made obliga-  
tory in the curriculum of the Ger-  
man gymnasiums is now being discus-  
sed by the school administrative  
authorities with much interest.

In the new plan it is proposed to  
arrange for three hours weekly, obli-  
gatory lessons in English for the  
three upper classes of the gymnasium  
and to leave the two hours (weekly  
instruction) in French to be attend-  
ed at discretion.

In the western and northern Ger-  
man industrial centers, with the ex-  
tensive trade with the United States  
and England, it is considered espe-  
cially necessary that the English lan-  
guage should be properly taught.

The advocates of English also ad-  
vocate the fact that all new mathe-  
matical physical literature, as well  
as that bearing on medicine and sur-  
gery, is of English origin.

## LEGALIZED MARRIAGES.

tory Law to Be Invalid.

married in Nevada or elsewhere be-  
fore the expiration of the statutory  
year, holding the prohibitory statute  
invalid.

## FOR LOWER RATES.

The Wheat Tariff May Be Reduced  
by Railways.

Colfax, Wash., Aug. 5.—Another  
meeting was held today between  
Railroad Presidents Hill, Mellen and  
Mohler, and the farmers. The  
speeches were along the same lines  
as those of yesterday.

A reduction of freight rates on  
wheat is practically assured.

## FAKE COINS AFLOAT.

Secret Service Operators Looking for  
Counterfeiters in This Section.

United States secret service offi-  
cials are now engaged in looking up  
the suprious counterfeit situation in  
the states comprising the Pacific  
Northwest. For several months the  
larger cities, especially in the state  
of Washington, have been complain-  
ing of more or less counterfeit money  
being placed in circulation through  
their business houses and the gov-  
ernment is now looking into the mat-  
ter.

So far the best work of the police  
departments of the cities affected  
have failed to locate the offenders  
or trace the circulation of the coin  
to its fountain head. They have been  
notified by the government to be par-  
ticularly vigilant as it is admitted  
to be nearly certain that the illicit  
coins are being manufactured some-  
where in the state of Washington.

The spurious coins vary in denomi-  
nation in various portions of the  
state so it is possible that more than  
one coinage bureau is in operation.  
On the east side of the mountains  
the bad coins are generally 50 cent  
pieces and dollars, but on the west  
side the fake coins evidently aim  
higher as the principal "phony"  
money is put out in the shape of \$5  
gold pieces.

These latter are very hard to de-  
tect, are said to have a clear ring  
and to weigh nearly as much as the  
genuine coins. The silver pieces are  
not so near perfection and are more  
easily proven imitation.

## WHEAT HAS FALLEN SOME

PRICE IS TWO CENTS LOWER  
THAN OPENING RATE.

Export Wheat Is Down in Price—  
Milling Demands Gave a Fictitious  
Value on Opening Market.

As predicted several days ago by  
local dealers, wheat has fallen a  
notch. It opened at 52 cents strong  
and some sold for more than that for  
export, but today it is only quoted  
at 50 cents with a slightly weaker  
tendency.

One week ago most of the local  
dealers were seen and asked to  
give an opinion on what they thought  
wheat would open at. This ranged  
from 50 to 55 cents. Most of them  
thought it would open from 52 to 53  
cents. Several said it would open  
at 52 or 53 cents, but would not re-  
main so very long. The reason ad-  
vanced for this theory was that the  
milling demands would start the  
market off at a higher figure than it  
would remain. This theory has proven  
true and wheat is now 2 cents  
lower for export than it opened a few  
days ago.

## But Little Contracted.

Only a few crops have been con-  
tracted and those who were lucky  
enough to sell on the first market  
are perhaps ahead of the deal, al-  
though there is no telling whether  
wheat will again go up or will remain  
at 50 cents, or fall in price. The  
farmers now prefer to hold. At 52  
cents several indicated a desire to  
let loose, but their crops were not  
ready for market and many refrained  
from contracting it on this ac-  
count. Now they will hold with the  
idea that there is a possibility of it  
going up again.
