

SUMMER SHOES FOR SUMMER COMFORT

The hot season will pass pleasantly if you use caution in selecting the right footwear.

Low Shoes, Canvas Shoes, Canvas Oxfords

Are the correct things if you would enjoy the real comforts of summer life.

HARVESTING A BIG CROP

ALL OVER THE STATE BIG YIELDS REPORTED.

Every County Outside Umatilla Will Get Bumper Grain Crop, and the Yield Here is Good—Other Crops Show Well.

A great harvest is in process of garnering in this state at this time. Grain everywhere is reported up to the usual average, and in many localities far in advance of last season, reports the Oregon Daily Journal.

In Wasco and Sherman counties, for example, the Columbia Southern people report the wheat yield equal to the most productive of any year in the history of that section. In 1900 Sherman county produced one-sixth of the wheat crop of the state, the yield averaging 35 to 40 bushels to the acre. The crop now being harvested is fully equal to that of that prolific season. And the acreage is much larger than ever before. Ever since the completion of the railroad to Shaniko new land is constantly being broken up; hence, the aggregate yield of Sherman county is steadily increasing.

Hon. D. M. C. Gault, of Hillsboro, Washington county, says the wheat yield of the west side valley will be about the average, except in spots where the Hessian fly has done some damage. The oat and hay crops eclipse anything grown for several years. The hay crop is especially large.

The same report comes from the Willamette valley as far south as Ashland.

According to the Pendleton East Oregonian the wheat crop of Umatilla county will be a "bumper." W. E. McComas, representing the Northwestern Warehouse Company, informs that paper that Umatilla will produce between 3,750,000 and 4,400,000 bushels of wheat, which will be better than the average annual yield. Other grains show up equally well.

TAKE HIM BACK.

Jackson Will Be Taken to Huntington This Evening.

Constable John P. Hannon is in town from Huntington, and will return this evening with J. J. Jackson, colored, who is wanted at Huntington for robbery. Jackson is the fellow picked up on the streets here more than a week ago by Deputy Sheriff Davis and Policeman Fee.

When arrested, Jackson had a bundle of new goods under his arm, consisting of several pairs of shoes and ladies' hose galore. Having these things in his possession caused the officers to think he had stolen them, but it was several days before any clue could be had to implicate him. He was held, however, without any definite charge and now will go back to Huntington and face the charge of breaking into a freight car loaded with dry goods.

FROM FAR NORTH.

Wesley Matlock Writes of His Life in That Region.

Mrs. W. F. Matlock received a letter this morning from her son, Wesley Matlock, who is mining on Casson Creek, 30 miles from Nome, which indicates that he is making some money mining. He says they just finished the ditch for sluicing and began to work the prospect on the 5th of July with five men.

On the 8th they put on a full crew of 12 men and up to the time the letter was written had taken out \$35,000 worth of gold dust. He says they fully anticipate taking out \$250,000 before the season closed. It has been raining and is quite cool there this spring.

Another St. Paul Excursion.

On account of the Trans-Mississippi Commercial Congress, to be held at St. Paul August 19, the O. R. & N. Co. will sell on August 14 and 15 tickets to St. Paul and return at \$52, good 30 days. At the same time tickets will be sold to Missouri River terminals and return (Kansas City to Sioux City inclusive) at the same rate, and to Chicago and return at \$72 via any route desired. Call at O. R. & N. ticket office for particulars.

Cattle for Washington.

The O. R. & N. stockyards were a busy place this morning, when over 200 head of range cattle from the North Fork of the John Day, were being loaded for shipment to the prairie near Sprague, Wash., where they will be run in future. Mr. Babcock, a well-known stockman of that section, has purchased this bunch for the increase of his herd, and will probably take other lots of cattle from this section to the same locality.

TEMPERATURE HAS BEEN RATHER STENUOUS IN OREGON

All Over the State the Thermometer Has Been Dancing Around the Century Mark.

The man who hands out the weather for the state of Oregon has certainly been liberal with his heat supply during the past few days in all parts of the state.

From every direction come complaints of excessive heat which is making life hardly worth living for people who cannot stand heat. Albany reports the hottest wave of the year with the thermometer standing at 96; Corvallis complains of 102 degrees, the hottest it has been there in the memory of the oldest inhabitant; Salem rejoices in 104 above as a few days of this kind of weather will kill lice on hops and insure the future of that crop; Portland has 96 degrees and complains; while here at Pendleton the people are having a warm time with the mercury hovering around 100. For the past four days the heat mark has gone above 100, reaching 103 on Wednesday and several points higher on Thursday and Friday.

Newspaper Published at Sea.

The new system of wireless telegraphy renders possible the realization of the prediction that newspapers would be published on ocean liners. They could not, however, be as much up-to-date or effective as those published on land. In this respect they would differ widely from the famous Hostetter's Stomach Bitters, because it has been proven to be just as effective on sea as on land. We would therefore urge everyone contemplating an ocean trip to take a supply with them. It is invaluable as a tonic and preventive of sea-sickness. Those who remain on land should always keep a bottle of it in the house to cure heartburn, indigestion, dyspepsia, constipation and malaria. Don't fail to try it.
