### Portland Markets.

Portland, Aug. 14.—The wheat market was apathetic yesterday and "buyers and sellers apart" characterized all grains. Exporters were quoting between 60@61 for Walla Walla. A quantity of bluestem was reported sold at 50 1/2c per bushel, Pendleton basis. In freights, no activity was reported. Shipowners have not yet recovered from the coronation and, besides, are unwilling to get down to rates offered. Only two ships are loading at present, and grain will not begin to move from the interior until the new freight rates go into effect. The market for oats and barley has not fairly opened yet. Growers are disposed to be independent, encour-

aged by the good prices of the former crops and by the competition of buyers, who are already entering the market.

Wheat—Nominal; Walla Walla, 60 @61; bluestem, 63c for old crop. Barley—Feed, \$1 per ton. Flour—Best grades, \$3.05@3.60 per barrel; Graham, \$2.95@3.20. Millstuffs—Bran, \$15@16 per ton; middlings, \$21.50; shorts, \$18; chop, \$7.

Oats—No. 1 white, \$1@1.05; gray, \$1 per cental. Hay—Timothy, \$12@15; clover, \$7 @10 per ton.

### San Francisco Markets.

No complaints are heard of any difficulty being experienced by exporters in securing loading stuff and a fair average business was done throughout the week. Grain receipts show a steady increase and sellers sufficiently numerous to make a fair active movement, and the prospects are that the situation abroad is thoroughly understood by California farmers and that the market will be met by both sides. Prices show a small decline in sympathy with the marking down of cargo quotations at London: \$1.12 1/2 @1.13 1/2 is paid for No. 1 shipping, the latter an extreme figure for round parcels, netting \$1.17@1.20 per cental. The barley crop now being harvested, is quite large and quality is excellent. Prices are lower and No. 1 feed is quoted 90@92 1/2c per cental. Brewing and shipping grades, 95@97.

### WEEKLY CROP BULLETIN.

Issued Tuesday by Government Forecaster Beale at Portland.

The past week has been the warmest one of the season; temperatures between 90 degrees and 100 degrees were common in both the eastern and western sections of the state. No rain has fallen since the last of July, and then the amount was too small to do much good. All late crops now need rain. Pasturage is getting benefit of the second crop of clover. The supply of milk being delivered at the creameries is diminishing, and range stock find difficulty in getting sufficient feed. Reports from the upper end of the Willamette Valley, and from Josephine county, are that the grasshoppers are doing great damage to the second crop of hay.

### Grain.

The grain harvest is progressing nicely; the hot weather is ripening spring wheat and oats too rapidly, and fears are entertained that the heads will not fill well. Fall grain yields are disappointing in the Willamette Valley, but thrashing returns are coming slow and it is too early to say just what the shortage will be. In Southern Oregon the yields are satisfactory. In the Umatilla country there is a shortage of about ten bushels to the acre in the wheat already threshed. In Gilliam and Sherman counties the yields are above the average. But little threshing had yet been done in the Grande Ronde Valley, but it is expected the crop there will be an average one. Corn is earing nicely, and hops continue doing well. Late apples are promising in most sections of the state.

### Columbia River Valley.

Smock, Wasco County, E. Damours. —Weather hot, with frequent east winds. Small grain mostly harvested. Weston, Umatilla county, Miss Maud Baker.—Very hot weather. Threshing well under way. An average shortage of ten bushels to the acre reported in fall-sown wheat. Spring grain promising average yield. Hay about cut and baled; good crop. Rain needed for vegetables, though potatoes promise good returns.
