LARGEST HARVESTER IN WORLD

Drawn by the Largest Automobile-Cuts 30-Foot Swath.

What is said to be the largest auto mobile in the world, and the largest combined harvester as well, is now at work on a big ranch in central Cali fornia, where it is being used in cutting 40,000 acres of barley.

The big machine consists of a traction engine capable of handling 75 tons, and which takes the place of 60 horses; a header or mowing machine, which cuts a swath 36 feet, and a thrashing machine, all complete. The threshing machine and header are run by a 30-horse power engine, entirely separate from the traction machine, save that they both get steam from the same boiler.

The apparatus moves over ground at different speeds, according to the thickness of the crop, while all the time the header and thresher are going at full speed, whether the grain be thick or thin.

The average speed made is three and one-half miles an hour and 100 acres a day can be threshed by the machine.

The drive wheels of this monster traction engine are eight feet in diameter and have tires 48 inches wide, on which are ridges an inch and a half high. Eight men are employed on the

thresher. Half a minute after the header starts to work threshed grain begins to fall into the sacks at the other side from where it is cut, while the straw falls into a cart behind The heads are carried away from

the header by a draper, or moving belt 48 inches wide. They are carried through a colander, which breaks the beard from the barley and shells it at the same time, then by a narrow belt through two cleaners, and Coffee-Mocha and Java, best, 40c finally to a bin, from which it is sack-

they are allowed to slide off the cart on which they are stacked to the Sugar-Cane granulated, best, \$5.25 ground. Likewise when the straw cart is full it is dumped.

This giant automobile is 66 feet long and half as wide, weighing over a 100 tons. It uses oil as fuel, necessitating the use of four horses to haul oil and the water for the boiler as it travels

Three Mistaken Monopolists.

As Attorney-General Knox tells the sound, 60 pounds and over, 8@9c; story of his assault at Atlantic City 50 to 60 pounds, 74@8c; under 50 to the World, he was set upon by a pounds and cows, 7c; stags and bulls, steel trust magnate, an armor-plate sound, 5@5½c; kip, sound, 15 to 20 trust director and a Philadelphia cappounds, 7c; veal, sound, 10 to 14 italist. The first inference was that pounds, 7c; calf, sound, under 10 he was assailed as an enemy of the pounds, 8c; green, (unsalted), 1c per trusts, but Mr. Knox is inclined to pound less; culls, ic per pound less; pooh-pooh this idea, and very natur-

> What has he ever done to deserve appointed by McKinley he was the Carnegie Steel Company's trusted

with head and claws perfect, each, merry monopolists who insulted him perfect, each, \$3.50@5; wolf, prairie, We expect so too. They must have (coyote), without head, each, 30@35c; been badly under the influence of hot wolverine, each, \$4@7; beaver, per skin, large, \$5@6; do medium, \$3@4; do small, \$1@1.50; do kits, 50@75c.
