

HERE WE ARE AGAIN

Not to tell you about the purity of our drugs or the accuracy of our compounding, for every man, woman and child knows that in this we EXCEL all others in our line. It is to tell you of all the new goods we are receiving daily and of interest to you.

Nothing is nicer and more valuable than a fine collection of "STEINS" and we have them in all sizes and prices. It is the craze of the present age, so fall in line.

THE MODERN DRUGGISTS - PENDLETON

MONDAY, AUGUST 25, 1902.

A paid fire department is now a subject of discussion in Pendleton.

The sultan of Turkey is not such a bad man after all—when he has to be good.

Chicago is the most noted city in the world for "ways that are dark and tricks that are vain," and the Bartholin-Mitchell murder case adds to her reputation one of the most mysterious crimes in modern times.

While the fire service question is under discussion, it is claimed that it would be a good idea to look into the sewer problem. It is claimed that the sewer system is in such a bad condition that the health of the city is threatened.

Wheat is still holding its own and why should it not continue to do so? It is claimed by wheat raisers that conditions throughout the country are favorable to good prices this year and that instead of falling prices may go very much higher.

It is a peculiar state of affairs that Pendleton merchants buy a class of products from California and sell them on the market here, while our local farmers raise the same products and ship them East. It is either because our products are superior or that the Californians do not get much for what they raise.

When one comes to consider the fact that men who belong to a volunteer fire department are working more for the good of the community than for the meagre compensation in it, good work by them should always be commended the more. Some of the boys ruined \$20 suits of clothes while they were earning a few cents.

Governor Gage is getting the worst of the fight with the San Francisco Call. But when a man enters into a fight with a great newspaper he should expect nothing but defeat. A paper cannot afford to enter a fight unless it is in the right. It should be the champion of the people and the right and these should always win.

Last Saturday's fire demonstrated the fact that the men of Pendleton are made of the stern stuff that men ought to be made of. They not only faced and fought the fiery flames even to a hand to hand grapple, but they dared to enter a building filled with oils and gasoline and tore this destructive element, sizzling and smoking from the tongues of the flames. Not one man shrank his duty. All honor to the fire boys.

The automobile is getting to be a regular death-dealing machine. The victims are usually people of wealth, unless it is a case of where the poor get in the path of the 20th century juggernaut. The flimsy people of wealth seem to have an ambition to show the greatest spirit of recklessness when once seated on one of these machines, and every day brings reports of the results. Not until the auto gets to be an old thing will the record possibly be changed.

It is now given out that the great coal strike is nearing the end. It is stated that the miners have to surrender because J. Pierpont Morgan would not come to their rescue. Pierpont has not been in the habit of coming to the rescue of the people on that side. But then, neither have the miners been in the habit of win-

and west sections, causes equally great modifications in the climate of the eastern portion of the state.

Land is reasonable in price in most any portion of the state. The land laws here are the same as in other states. Agriculture in all its various branches is a profitable business and it only requires intelligent methods to produce and market a good crop each year.—Ontario Argus.

WOULDN'T IT JAR YOU.

Can a saw buck?—St. Joseph News.

You bet! Can a horse fiddle?—Keokuk Gate City.

Sure. Can a chimney swallow?—Chicago Tribune.

Certainly. Ever hear a ginger snap?—Topeka Capital.

Yep. Ever see a bed spring?—Kansas City Journal.

Of course. Can a rail fence?—New York World.

Yes, and wouldn't a fence rail at such stuff?—Portland Journal.

To be sure. And wouldn't a railroad tie? How would a crash suit?—Baltimore American.

First rate. But isn't the weather vane?—Philadelphia Telegram.

Rather. Was it a banana peel that made the night fall?—Chicago Record-Herald.

And what was it that made the water fall?—Oregon Daily Journal.

The dew dropped. But why did the tree leave?—Athens Press.

Because the dog barked it, the monkey wrenched it, and the boy spun its top. But why should a cat nip?—Weston Leader.

For the same reason it should make a cat call. Ever see a cow slip and strain its milk?

Dull Market.

So far as heard from, no sales of consequence of new grain have been made, and the market price is not yet established.—La Grande Chronicle.

A Physician's Tests.

Bright's Disease and Diabetes Are Positively Curable.

Judge Henry S. Foote, a former member of our State Supreme Court Commission, and one of the best known jurists on the Coast, makes the following certificate:

"I am asked to certify the following facts. A well-known physician in active practice put two cases of Bright's Disease and one of Diabetes on the Fulton Compound. He is willing the results should be known, but for professional reasons without his name. As the results are so squarely opposed by all medical works, I was asked to investigate and report the facts, which I did, and I find and certify as follows:

"An old-school physician of unquestioned standing and ability has just tested the Fulton Compound in three cases with the following results: Case No. 1.—Mrs. T., chronic Bright's Disease; usual albumenuria drops; etc.; limbs swollen almost to bursting. Usual treatment without result. Under the Compound the drops disappeared in thirty days, and last of the albumen in 90. Cured.

Case No. 2.—Mr. H., chronic Bright's Disease of 5 years' standing; albumen large, dropsy, etc. In 2 weeks albumen reduced a half, and a few weeks later albumen was a trace and dropsy entirely gone. Patient insisted he was well and left for an extended trip. (Too early, it is believed, for permanent cure.)

Case No. 3.—Mrs. F., Chronic diabetes; physician states "typical case, worst I ever saw." First ten days pain disappeared and sugar decreasing. Second report: "Sugar reduced half; improvement wonderful; sugar getting less every test."

"Asked what percentage are curable by these Comounds, the physician replied: "I don't know, but it must be large—nearly a hundred, if my own cases are any criterion."

"Attest: Henry S. Foote. Asked what he individually thought of it, Judge Foote replied: "I am satisfied the cure has been found."

Medical works agree that Bright's Disease and Diabetes are incurable, but 87 per cent. are positively recovering under the Fulton Comounds. (Common forms of kidney complaint and rheumatism offer but short resistance.) Price, \$1 for the Bright's Disease and \$1.50 for the Diabetic Compound. John J. Fulton Co., 120 Montgomery St., San Francisco, sole compounders. Free tests made for patients. Descriptive pamphlet mailed free.

F. W. Schmidt & Co., Sole Agents.

HARPER WHISKY

Scientifically Distilled,
Naturally Aged,
Absolutely Pure,
Best and Safest for all uses.

For Sale by
JOHN SCHMIDT

Farmers Custom Mill
