WEDNESDAY, AUGUST 27, 1902.

### PERSONAL MENTION.

J. W. Peringer is in town from Adams.  
Representative-elect H. C. Adams is in town from Weston.  
Anton Vey will leave this evening for his ranch, near Echo.  
H. A. and D. B. Richardson are registered at Hotel St. George from Helix.  
Mrs. J. L. Wood and family are at the Golden Rule hotel from Walla Walla.  
Mrs. Anton Sorensen, of Roseland, B. C., is the guest of her mother, Mrs. Kolb.

Miss Winnie Struve is the guest of Mrs. Ed Besthorn, from her home south of town.

Benjamin F. Marlin, the hotel man of Meacham, was in town yesterday on his way to Seattle on pleasure bent.

Mrs. William Fitz Gerald has returned from the mountains, where she spent several weeks enjoying the fresh breezes.

Word was received from Eldred Waffle yesterday saying he was in Tacoma and was having a good time. He will be home the last of the week.

A. E. Lynn, formerly with R. Alexander and Lee Teutsch in their merchandise stores, passed through town last evening on his way to La Grande on business. Mr. Lynn is now located at North Yakima.

La Grande Chronicle: Hon. J. H. Raley, who is among the most brilliant legal lights of Pendleton, passed up the road this morning on his way to Baker City, on business connected with his possession.

Harry A. Medernach, son of Peter Medernach, is in town on his way back from Chicago, where he has been attending the Bennett Medical College. He has been spending his vacation with an aunt in Portland. He will remain here about two weeks.

Mr. and Mrs. Luther Hasbrouck, of Michigan, and Mr. and Mrs. F. I. Hasbrouck, of Idaho, parents and brother of H. L. Hasbrouck, of this city, who have been visiting here the past several weeks, left this morning for their respective homes.

John Endicott is in town from Lehman Springs. Mr. Endicott says everything is still lovely at the springs, but a great many people are leaving now on account of the cool evenings. He says that hunting is good in the neighborhood of the springs, but few have been out so far. Several parties are contemplating going within a few days.

## SKIPPED WITH BABY

**FRANK DONALLY TAKES HIS BABY AND LEAVES HIS WIFE.**

Family Trouble Alleged as the Cause But This is Denied by Mrs. Donally—Was Heard From in Umatilla Last Night.

Mrs. Frank Donally is mourning the disappearance of her husband and 8-months-old baby.

Mr. Donally has been in Pendleton for the past two years. He has been employed most of the time and has borne a good reputation. For the past few weeks he has been apparently worried about something and those with whom he came in contact have noticed a quieter demeanor about him than before. Nothing of an alarming nature was noticed, however, and he went about his work performing it in the same painstaking way as ever. Yesterday morning he went to his home at the corner of Webb and Cottonwood streets, and told his wife that he guessed he would take their baby out for a walk. The baby was placed in the buggy and Mr. Donally left the house with it. This was the last Mrs. Donally saw of him or the child. He went to the O. R. & N. depot and boarded the belated No. 1 passenger train for Spokane, via Umatilla, taking child and carriage with him.

There is no cause for his disappearance in a business way and the only excuse given is that of domestic troubles. Apparently he and his wife did not get along well together and Mr. Donally concluded to leave without ceremony.

Mrs. Donally was seen this morning and denied that she and her husband had ever had any trouble. Mrs. Donally broke completely down when approached on the subject and it was several minutes before she could compose herself well enough to tell her story. She said:

"I have no idea why he went. We have had no trouble. He was always kind and good and I am so broken up by his going and taking my baby," were Mrs. Donally's first words.

"Frank came to the house about 10 o'clock yesterday and said he guessed he would take the baby for a walk," she continued. "I asked him why he was not working and he did not answer me. He left with the baby and that was the last I saw of him. He had been acting a little peculiar for two days before he left, but I did not think there was anything seriously wrong, let alone thinking he was contemplating leaving me and taking my baby."

Mrs. Donally is prostrated over the disappearance of her husband, but there is nothing to be done. He may return as he hinted to a friend something to that effect by long distance phone from Umatilla yesterday evening, and he may not.

### TEAM FELL A HUNDRED FEET.

Miraculous Escape From Injury at Coeur d'Alene.

Coeur d'Alene, Idaho, Aug. 27.—A. L. Best and A. H. Best, who are engaged on a contract of putting in logs for the Idaho Lumber Company, of Post Falls, about three miles down the Spokane River from this place, are congratulating themselves over the miraculous escape of their team. They were hauling logs Monday, to the bank of the river, which at this point descends almost perpendicularly down a rocky cliff for a distance of 150 feet. As the men unfastened the binder of a load, a log suddenly shifted to the lower side, upsetting the load, which, together with the wagon, went over the embankment, carrying the team with it.

There was a terrific crash. The boys hurried down, expecting to find their team ground to pieces on the rocks. But to their astonishment, they found the wagon had caught by a spur of the bank and the team was suspended heads downward. Upon examination the horses were found to have escaped without any injury whatever, while the only damage to the wagon was a broken tongue. The fall, Mr. Best says, nearly had covered a distance of nearly 100 feet.

### ALASKAN MINES.

Experts Report Greater Finds Than Ever.

Seattle, Wash., Aug. 27.—The first press message to the outside world by wire from Valdes was received by the Times last night, the telegraph line just having been completed. The dispatch reports that Robert Blei, the expert sent into the Nazina River district by Captain DeLamar, has just reached Valdes and reports that the Nazina district has the greatest mines in Alaska, and that the copper property there is the greatest in the world. The richness of the country, Captain Blei says, insures the building of a railroad at the earliest possible season. Mountains of tin have been found near Mount Wrangle 150 miles distant. This is the greatest season of discoveries Alaska has ever known.

### ITALIANS EXCITED.

Prevented From Lynching New York Motorman by Police.

New York, Aug. 27.—Because one of a party of 15 Italians was run over at Jerome avenue and Potter place by a trolley car, the men in the party attacked the motorman, John O'Neil, pulled him off the car and beat him and attempted to drag him to a tree with the intention of hanging him. Then passengers of the crowded car interfered and fighting ensued, but police reserves appeared, drove the

crowd of 2000 away, which took nearly an hour, and rescued O'Neil.

The injured man, Rosano Christano, was leading two children. He made them run on ahead as he saw the car coming. Christano was knocked down by the car and both legs were cut off.

### WILL WORK JAPS.

Washington Railroad Will Do Construction Work With the Little Men.

Tacoma, Wash., Aug. 27.—It is announced that between 1000 and 2000 laborers will be wanted this fall to fill out the construction gangs on the Valdes-Eagle railroad, work on which will be started at once. Plans are under consideration for sending north several hundred Japanese in order to hurry the work on the first 35-mile section, which it is intended to have in operation next summer. Most of the Japanese will be taken from the Northwest, where they have been employed by railroads as section hands.

### Some Ideas About Women.

Pericles thought "a woman's chief glory was to be known neither for good nor evil." Socrates thanked the gods daily that he was "a man, not a brute." Erasmus prayed that all people might come to read the Bible, "even women and Turks."

Yet we are becoming civilized, though slowly. Even now in some parts of this republic women enjoy full voting privileges with men, yet it was only a century ago that France guillotined a woman for daring to assert woman's right to the ballot. It was only twenty-five years ago that we in America began to think woman worth educating.

As a student in the theological seminary I remember the professor saying of woman's place in the church, "Women may sing in prayer meeting and play on the piano or organ, and if the meeting is not too public they may offer up prayer." He forgot to say that they might also contribute to the preacher's salary.

Robert Browning asserted that of the two it was his wife who had a creative genius, yet to him and not to her England accorded the honor of a burial in Westminster.—Pilgrim.

### Rev. Perie R. Burdick.

One of the interesting and charming characters of south Jersey is Rev. Perie Randolph Burdick, a woman who has devoted her life to the work of uplifting others. Mrs. Burdick is a talented woman, full of fire and energy, yet gentle and winning, so that she commands attention wherever she appears.

Born in Virginia, Mrs. Burdick was educated at Alfred university, at Alfred, N. Y., and was ordained to the ministry of the Seventh Day Baptist church in 1885. She has done effective evangelistic work in New York, Pennsylvania, West Virginia, Iowa and New Jersey. During her career she has tied the knots which bound forty-five loving couples in the bonds of matrimony and delivered comforting messages to the relatives and friends of eighty-nine persons who have died. She has, too, preached a thousand sermons and conducted meetings innumerable.

### For Scalds and Burns.

The following is a simple remedy for scalds and burns: Dissolve in boiling water as much epsom salts as the water will take up. Let it get cool and bottle up and keep in readiness whenever accidents of this kind are likely to occur. Let it be labeled, "Solution for scalds and burns." Keep cloths well wetted with this solution on the scald or burn, being careful not to remove the cloths, but supply fresh solution, so that they may be always wet. Keep on for a few hours, and if the injury be not very severe a cure will by that time be effected. No time should be lost after the accident in applying the solution.

## DEATH OF MRS. BLACKMAN

(Concluded.)

freight, accompanied by the brother of the stricken woman, Frank Patison.

### A Later Report.

Mrs. H. A. Blackman died yesterday afternoon at 4:30 from the effects of a gunshot wound inflicted accidentally while a revolver was being handled at her home in this city. Mrs. Blackman was a handsome young woman of 19 years and had been married but a short time. Monday night she was moving a revolver, when it was discharged, the bullet striking below the left breast and taking a course downward. After the accident neighbors quickly gathered and physicians were summoned, but the case seemed hopeless. She lingered for 20 hours but nothing could be done to prevent death.

No one was with Mrs. Blackman when the accident occurred, and none of the particulars can be had further than the facts gathered by neighbors who entered the house upon the report of the pistol. The woman was found crouched down on the floor, and to the first woman who entered the house she muttered: "I did not know it was loaded." Just how the accident occurred will never be known.

### Most Effective Advertising.

That advertising is the most effective which attracts the eye and appeals to the brain. Strong adjectives may be as much out of taste in an advertisement as in a bit of more aspiring literature. Exaggeration is always to be avoided. People nowadays demand sincerity in all matters of business. It is observable that all the big and successful advertisers are most careful as to their statements of fact. They realize that confidence is the key-stone in the arch of trade. Their success came of their jealous regard for their work.
