

Danger!

Is the greater during the Summer and Fall months of your children being troubled with Summer Complaint in all its forms, and no home should pass through this part of the year without a good remedy for this trouble at hand. "Atwood's Colic, Cholera and Diarrhea Remedy" is the best known preparation on the market today for the above named complaint. Get a bottle at once, as it might be the means of saving a LIFE.

Brock & McComas Company
THE MODERN DRUGGISTS . . . PENDLETON

SATURDAY, AUGUST 30, 1902.

President Roosevelt would now imitate King Edward. Edward stalked stag and Teddy would take a shot at a boar. The chief executives and monarchs are having a great outing this summer.

So Mr. Morgan is going to merge the Southern railroads, too. Mr. Morgan has not the time to assist in settling the main troubles, but he has plenty of time to devote to the formation of schemes that cause all of the labor troubles.

If those Portland Elks do not believe that Frank Frazier will be in the race for the Journal loving cup to the finish and will either be winner or right along with the top-notch fellows, all they will have to do is to watch the results.

The negroes of South Carolina have decided to vote the democratic ticket this election. The negroes of South Carolina have been voting the democratic ticket ever since reconstruction days, but it is well now that they are doing it willingly.

The army and navy are taking as much interest in the mimic war as if it were a real war. The question has been asked repeatedly whether or not the enormous cost of this maneuver is justified. It is stated that all of the cost of former target practice and drilling in the history of the army and navy was paid at Santiago and Manila bays.

It has been decided that Chinese may be admitted into this country for the purpose of being reshipped, having been wrecked at sea and taken on board a vessel bound for American ports. There are many admitted into this country who do not come this way and who are not reshipped either. They come in on a rake-off paid to political appointees of government offices.

The down-trodden negro of the South has received another basket. A negro planter there, who is supposed to be up to the line where some of the Northern philanthropists would receive him upon social equality, not barring him because he is black, is now under arrest for compelling 12 women of his own race to remain in abject servitude to him, at the muzzle of a shotgun, at the same time half-starving and half-clothing them.

And Turkey has shut off all discussion on the subject of refunding the Miss Stone ransom money. Uncle Sam has not said anything yet. It would please the Christian world and the world at large, if Uncle Sam would teach those bloomer-wearing Turks a lesson. China is being brought to her senses and into civilization, and Turkey, the blackest spot on the world's atlas, ought to be hauled up and placed in the procession of the new era.

Secretary of State Dunbar has refused to pay the Merrill reward to Mrs. Waggoner for finding the body of the dead outlaw. The press has been giving some wholesome advice along the subject of the Tracy-Merrill rewards, and most all of the papers favored paying Mrs. Waggoner. It was conceded by the legal fraternity from the start that it was a close case and nothing but a decision by a high court would settle the matter satisfactorily. Mrs. Waggoner and her friends now have an opportunity

to test the matter, and it would be good for the jurisprudence of the country if they would do so. The secretary of state cannot afford to pay the reward through sentiment.

Assistant General Hutson, of Virginia, refused to place his troops at the disposal of the mine operators when he reached the scene of the mining trouble in that state. He simply performed his duty, restoring quiet wherever possible, showing no partiality to either side. When the operators and the strikers find that they are not to receive the sanction of the law when in the wrong, it will throw a damper on the wrong doings of each. An operator is no better than the commonest shoveller, and he should be shoved aside just the same as the interfering striker should be done at the point of the bayonet, if necessary.

Little Nicaragua must now explain or fight. Colombia has information which leads her to believe that Nicaragua has been assisting the Colombian revolutionists and she is called upon to explain under direful threats. It looked for a while that Colombia had all of the trouble she needed at home, but now that she is temporarily in the saddle, she would branch out into a broader field. If those Central American republics are not in trouble they will soon find it.

\$2,000,000,000 IN CEREAL CROPS.

It is estimated that the farmers of the United States will receive two billion dollars for the cereal crops of the season. It is believed that the crops of wheat, corn, oats and rye will be the heaviest in the history of the farming states. A few districts have been thrown out of the markets for the year by the heavy rains and destructive floods, but in most of the state the conditions are favorable to the heaviest yield on record.

This is not the estimate of speculators or of the farmers themselves, but of the statisticians and of the railroad managers who are preparing to move the crops. Last year the partial failure of the corn crop was a serious matter to the railroads. This year the managers of all the railway lines traversing the wheat and corn districts are making preparations to meet the unusual demand for transportation to Chicago and the seaboard.

As usual, prosperous conditions for the farmers mean prosperous conditions for the people at large. A few years ago the question of money to move the crops was always a serious one, but now the money is ready on demand and will go into the hands of the farmers when they are ready to sell.

In this particular there has been a great change in the last few years. Hundreds of farmers are prepared to hold their crops now where one was 25 years ago. Then the producer was compelled by his own necessities or by circumstances to sell whether the price suited him or not. Now the knowledge that the farmer is not a victim of circumstance, is not compelled to sell, but is an alert observer, with his eye upon the markets, is always to be reckoned with, and the fact that the situation as to the farmers' condition has changed for the better exercises a wholesome influence through all the ramifications of the grain trade.

The money that is in New York or Chicago banks to move the crops has been placed there without embarrassment to other business interests. Its distribution to so many points will contribute greatly to permanent business activity.

The process which involves the transfer of great sums of money from the financial centers to the pockets of the millions of farmers, that involves special preparations by railroads and steamship lines for the transfer of wheat, corn, rye and oats from millions of farm elevators, store-

houses and mills, and individual purchasers is one of the most interesting in our business system.

The effect of large or small crops is seen in every department of trade. The larger the crops the wider the distribution of money, and when, as in this year, the farmers receive for what their farms have produced an amount of money equal to our national debt, there is no room in the land for the prophets of calamity.—Inter-Ocean.

HANNA'S NEW ROLE.

Mark Hanna attempts to pose as the special champion of the working classes in meeting with the contempt that it deserves at the hands of the public press. The Chicago Chronicle of a recent date, has this to say concerning Hanna's latest opera bouffe play:

"If anybody had intimated five years ago that Mr. Hanna could have assumed the role of a friend of labor without setting the whole republic into a guffaw he would have been deemed the victim of a violent form of insanity. Yet we find the Ohio senator taking that part every week nowadays and exciting no particular surprise on the part of anybody.

"For 20 years the republican party has had no motive save the enrichment of the few at the expense of the many. It has stood for nothing but injustice, privilege and selfishness. At its head, making platforms, nominating its candidates and reaping the rewards of its iniquities has stood Mark Hanna, the personification of greed and inequality.

"Since the party itself has managed while enriching the few to secure popular approval almost beyond precedent why should not the most offensive of its leaders set up as a friend of the workingman? If the republican organization, which has been wholly subverted to the interests of the few, can maintain the pretense that it seeks the welfare of all, why should not its chief corruptionist play with success the role of philanthropist?

"The Cleveland workingmen who applaud Hanna as a friend of labor are a disgrace to American citizenship."—Helena Independent.

Gloomy thoughts become habitual to the dyspeptic. He looks on the dark side of things and every mole hill becomes a mountain. His condition affects his business judgment and mars his home relations.

Dr. Pierce's Golden Medical Discovery cures dyspepsia and other diseases of the organs of digestion and nutrition. It gives buoyancy of mind as well as health of body because it removes the physical cause of mental depression. It enables the perfect digestion and assimilation of food, and the body is strengthened by nutrition which is the only source of physical strength.

"I was afflicted with what the doctors called nervous indigestion. Took medicine from my family physician to no avail," writes Mr. Thos. G. Lever, of Lever, Richmond Co., S. C. "At night would have cold or hot feet and hands, alternately. I was getting very nervous and suffered a great deal mentally, thinking that death would soon claim me. Always expected something unusual to take place, was irritable and impatient, and greatly reduced in flesh. I could scarcely eat any thing that would not produce a bad feeling in my stomach. After some hesitation, I decided to try a few bottles of Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' After taking several bottles of each, found I was improving. I continued for six months or more, off and on. I have to be careful yet, at times, of what I eat, in order that I may feel good and strong. I fully believe if any one suffering with indigestion or torpid liver or chronic cold would take Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets' and observe a few simple hygienic rules, they would soon be greatly benefited, and with a little perseverance would be entirely cured."

Biliousness is cured by the use of Dr. Pierce's Pleasant Pellets.

NERVES GAVE WAY— PE-RU-NA CURED.

Miss Aseneth Brady, Cor. Sec. Illinois Woman's Alliance, had Headache, Backache and Serious Indigestion.

Miss A. Brady, Corresponding Secretary Illinois Woman's Alliance, writes from 2725 Indiana avenue, Chicago, Ill.:

"Last year from continued strain in literary work I became very much exhausted, my nerves seemed to give way, and I had backache, headache and serious indigestion.

"One of my friends suggested that I try Peruna. It certainly acted like magic on my system.

"Within ten days I felt new life and health given me; and by taking an occasional dose off and on when I feel extra tired, I keep my system in perfect order."—MISS A. BRADY.

Mrs. Fanny Klavatscher, of Summitsville, N. Y., writes as follows:

"For three months I suffered with pain in the back and in the region of the kidneys, and a dull pressing sensation in the abdomen, and other symptoms of pelvic catarrh.

"But after taking two bottles of Peruna I am entirely well, better than I ever was."—Mrs. Fanny Klavatscher.
