GENERAL NEWS.

Two thousand delegates are in attendance at the fifth session of the International Mining Congress at Butte, Mont.

Returns from the election in Arkansas indicate that the success of the democratic ticket, headed by Jefferson for governor, is complete. An extremely light vote was polled.

William Trotman, of Park City, Utah, became demented Monday and after trying to beat the brains out of his wife and two daughters, shot himself through the heart with a Winchester.

Plans for the new Philippine currency are about completed. It has been determined that the new coins of distinctly Philippine type shall be poured into Manila at the rate of \$2,250,000 a month.

Three aeronauts and a newspaper man started out to make a trans-continental voyage in a balloon from Denver Sunday. A storm struck the balloon and carried it over Pike's peak wrecking it 27 miles north of Florence.

The defendants in the merger suit brought by the state of Minnesota, have filed their answers in the United States circuit court wherein they deny that any combination of parallel lines was made for the purpose of preventing competition.

Gen. Eli Torrence, commander-in-chief of the G. A. R., has issued an appeal to the Grand Army veterans asking that they contribute funds to aid in the erection of the home for Confederate veterans now being built at Mission Creek, Ala.

Of the Monroe doctrine, President Roosevelt said in his speech at Proctor: "It is a doctrine of peace, a doctrine of defense, a doctrine to secure the chance on this continent for the states here to develop peaceably along their own lines. Now we have formulated that doctrine. If our formulation consists simply of statements on the stump or on paper, they are not worth the breath that utters them or the paper on which they are written. Remember, that the Monroe doctrine will be respected as long as we have a first-class efficient navy and not much longer."

PACIFIC NORTHWEST NEWS.

The secretary of the interior has affirmed the decision of the general land office rejecting the application of C. W. Clarke to select a tract in the Spokane land district, Washington, in lieu of land relinquished in the Stanislaus forest reserve, California. Rejection is made because the title to the land assigned was invalid.

Satisfactory progress is being made by the New York capitalists who are drilling for coal on the Blair Forward farm in the Waldo Hills, near Salem. The shaft has been sunk to a depth of 820 feet, and while coal has not been discovered, the formations are so favorable that the drilling will be continued on the site until a depth of 1000 feet has been reached.

The prospect for a large attendance at the University of Oregon is growing brighter every day. Already the registrar has received an exceptionally large number of inquiries from prospective students in all parts of the state. Since his appointment President Campbell has been working tirelessly for a large following for his first year as chief executive of the leading state school.

Nearly all arrangements have been completed for the street fair and carnival which will open at Baker City on September 15. The people have subscribed liberally for the fair, and the state appropriation of \$1500 will be used in connection with the agricultural and stock show, which will be a part of the carnival, so that ample means will be available to insure the success of the venture.

The federal postal department has granted the petition for a free rural delivery route out of Watsburg through the Whiskey Creek and Wilson Hollow districts, taking in a good deal of North Walla Walla and a little of Columbia county. About 100 families will be accommodated. The date of establishment is not known. The route was obtained through the efforts of Postmaster Dickinson.

A Boy's Wild Ride for Life.

With family around expecting him to die, and a son riding for life, 18 miles, to get Dr King's New Discovery for Consumption, Coughs and Colds, W. H. Brown, of Leesville, Ind., endured death's agonies from asthma, but this wonderful medicine gave instant relief and soon cured him. He writes: "I now sleep soundly every night." Like marvelous cures of Consumption, Pneumonia, Bronchitis, Coughs, Colds and Grip prove its matchless merit for all Throat troubles. Guaranteed bottles 50c and \$1.00. Trial bottles free at Tallman & Co.'s drug store.

MEN'S RESORT.

An Effort Will be Made to Keep the Institution Open.

The Ministerial Association of Pendleton held another meeting in the rooms of the Men's Resort and outlined plans for making a preliminary organization looking toward the permanent organization to look after keeping the Men's Resort going.

A committee was appointed consisting of Revs. Johnson, Potwine and King to look into the matter and ascertain what can be done. This committee will meet again tomorrow when its report will be prepared and handed in at the meeting called for next Monday.

It is the intention of the Ministerial Association to lend every aid possible toward furthering the interests of the resort and helping to make it a place where any one can go and enjoy his spare time. They do not intend to make it a Young Men's Christian Association, but the resort will be run as near to the plans of this organization as practicable to admit all classes to its rooms.

Willamette Grain Fire.

As the Harris Short threshing outfit was passing along the highway about four miles northeast of Shaw, yesterday afternoon, a spark from the traction engine ignited the grass along side the road. The fire traveled for one-half mile across the stubble field and attacked a pile of newly threshed oats in sacks, of which there was about 3000 bushels, and, although the fire was vigorously fought by the residents of the neighborhood, about 1000 bushels of the grain was consumed, the balance being saved from the flames. The grain belonged to E. B. Patton.—Salem Statesman.

Settlers' Rates Now in Effect.

The settlers' rate of \$22.50 from Missouri river points to Pendleton are now in effect. Corresponding low rates from all points east to the coast. Call at the O. R. & N. ticket office for full particulars.

"Blessed is that man who does not rubber."

MUCH ATTENTION

BEING TURNED TOWARD

A NEW HARVESTER.

Was Built Last Winter at Spare Moments by W. T. Rigby and J. Clove and is Proving a Great Success.

The Rigby-Clove combined harvester is attracting attention from far and wide. Hardly a day passes that there are not from one to a half dozen men who make special trips out to the harvest field of W. T. Rigby, on the Tutuilla, to witness the work being done by this machine. These visitors are not all Umatilla county men either. They come from other states and from miles around in Eastern Oregon.

Last night two men arrived on the O. R. & N. train from Watsburg, 65 miles from Pendleton, and today they were driven out to take a look at the machine. These men were J. D. Laidlaw, vice-president of the Farmer's bank, of Watsburg, and G. W. Loundagin, a pioneer of Eastern Washington. They are both very extensive land owners and came down to look at the new machine which has gained a wide reputation through the article describing it which was published in the East Oregonian a few weeks ago.

Perfect Satisfaction.

The new machine is giving perfect satisfaction. It has now been in the field for three weeks and since its advent has been running almost steadily. The machine is operated by 12 horses and two men. It has a cut of only 12 feet, but is doing good, clean work. The machine was built last winter by Messrs. Rigby and Clove and the first time it was taken into the field it proved that it was going to be a success.

The machine is built after the pattern of the combined harvesters seen in the field every day, but is much more simple and much lighter. The machine is small and not so very complicated, making it the very thing for the small farmer as well as the larger one. It can be operated so cheaply, too, that any man can afford to buy one who farms only a few hundred acres annually. Its work is perfect in every way. It cleans the grain as good as any machine, saves it all and has all of the advantages of the best built, costly machine in existence.

The Builders Elated.

The inventors and builders of the machine are highly elated over the attention their machine is receiving. All who see the machine pronounce it one of the successes of the 20th century and predict it will revolutionize the harvesting business of this country.

May be Manufactured Here.

While no definite arrangements have been made toward the manufacture of the new machines it is now the intention of the inventors to arrange to have a number built for the next harvest. A patent has been applied for and it is likely that arrangements will be made to make the machines in Pendleton. In case this is done it will be the means of causing a large machine manufacturing establishment to spring up here that will be a big thing for Pendleton as well as the surrounding country. Several offers have been made to the inventors by manufacturing companies to make and turn out the machines, but none have been accepted.

\$100 Reward, \$120

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for each case that it fails to cure. Send for list of testimonials.

Mark Twain's Letter.

Denver, Aug. 28.—Mark Twain has written a letter to a local paper in response to a telegram telling him of the agitation to exclude "Huckleberry Finn" from the juvenile shelves of the public library on the grounds of immorality. He says: "You see, there are two or three pointers:

"First—Huck Finn was turned out

Correct Stationery

It is worth something to buy your Stationery where the styles are correct.

We buy direct from the maker. No middleman to work off his dead stock on us as "the latest thing."

We keep abreast of the times. We know what's right. Our prices are right and our styles.

Prices all the way from 10 cents to \$1 a box.

Paper and envelopes in bulk, and fancy tablets with envelopes to match. We have a few boxes left which we are closing out at cost.

of a New England Library 17 years ago, ostensibly on account of morals; really to curry favor with a personage. There has been no further instance until now.

"Second—A few months ago I published an article which threw mud at that pinchbeck hero Funston and his extraordinary morals.

"Third—Huck's morals have stood the strain in Denver and in every English, German and French speaking community in the world save one, for 17 years, until now.

"Fourth—The strain breaks the connection now.

"Fifth—In Denver alone.

"Sixth—Funston commands there.

"Seventh—And has dependants and influence.

"When one puts these things together the cat that is in the meal is disclosed—and quite unmistakably. Said cat, consists of a few persons who wish to curry favor with Funston, and whom God has not dealt kindly with in the matter of wisdom.

"Everybody in Denver knows this, even the dead people in the cemeteries. It may be that Funston has wit enough to know that these good idiots are adding another howling absurdity to his funny history; it may be that God has charitably spared him that degree of penetration, slight as it is. In any case he is, as usual, a proper object of compassion, and the bowels of my sympathy are moved toward him.

"There is nobody for me to attack in this matter even with soft and gentle ridicule—and I shouldn't ever think of using a grown-up weapon in this kind of a nursery. Above all, I could not venture to attack the clergyman whom you mention, for I have their habits and live in the same glass house which they are occupying. I am always reading immoral books on the sly, and then selfishly trying to prevent other people from having the same wicked good time.

"No, if Satan's morals and Funston's are preferable to Huck's, let Huck take a back seat; they can stand any ordinary competition, but not a combination like that. And I'm not going to defend them anyway."

Not Doomed For Life.

"I was treated for three years by good doctors," writes W. A. Greer, McConville, O., "for Piles and Fistula, but when all failed, Bucklen's Arnica Salve cured me in two weeks." Cures Burns, Cuts, Corns, Sores, Eruptions, Salt Rheum, Piles or no Piles. 25c at Tallman & Co.'s drug store.

David B. Hill boasts that he has never kissed a woman. Why doesn't he try it and look pleasant for awhile.

ECZEMA

is due to the retention in the system of Uric Acid or other inflammatory poisons which find their way into the blood, and are forced by the circulation through the glands and pores of the skin, causing it to burn like fire, and the intense itching allows no rest night or day. Eczema appears in a great many different forms, beginning frequently as a mere redness of the skin, followed by little blisters or pimples, from which a clear or straw colored matter oozes, forming into sores, scales, commonly called Salt Rheum. These acid poisons sometimes dry up the natural oils and the skin becomes hard and dry, often cracking and bleeding and causing intense pain and fearful itching. This form of Eczema is known as Tetter, and often attacks the hands and feet. Unsightly eruptions in the shape of pimples and blackheads break out upon the face, neck and shoulders as a result of polluted blood, and this humiliating disease is called Acne. Local remedies afford but scant relief. The blood and system being saturated with the poison, the disease cannot be reached with washes, salves, powders or other local applications. S. S. S. restores the deteriorated blood to its normal condition, stimulates the sluggish organs, and all the waste matter is eliminated through the proper channels. S. S. S. makes the blood rich and strong, and under its tonic and invigorating effects the general health improves, and the skin becomes soft and smooth again.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

Mrs. Laura S. Webb,

Vice-President of Women's Democratic Clubs of Northern Ohio.

THERE ARE MANY sickly women between the ages of 45 and 55, but there are very few invalids over 55 and 60 years of age. The change of life coming to a woman near her forty-fourth year, either makes her an invalid or gives her a new lease on life. Those who meet this change in ill health seldom live ten years afterward, while a woman who lays aside the active duties of womanhood in health seldom fails to live on in happiness, years after she has passed 60. This is truly a critical time.

the change of life which was fast approaching. While visiting with a friend I noticed that she was taking your Wine of Cardui, and she was so enthusiastic about it that I decided to try a bottle. I experienced some relief the first month, so I kept on taking it for three months and now I menstruate with no pain and I shall take it off and on now until I have passed the climax. I do not dread it now, as I am sure that your Wine of Cardui will be of great benefit at this time.

Wine of Cardui is the remedy to re-inforce a woman against the shock that comes with the change of life. It re-establishes healthy function after years of suffering. In doing this it has saved thousands of sufferers just in time. Do not wait until suffering is upon you. Thorough preparations should be made in advance. Begin the Wine of Cardui treatment today.

Mrs. Laura S. Webb, of Toledo, Ohio, recognizes the change of life as a dangerous period and she also has faith in Wine of Cardui. She writes: "As I had always been troubled more or less at the menstrual period, I decided
