MR. LACKEY'S RETIREMENT...

Many Years Representative of
Dublin University—Wrote "His-
tory of European Morals."

London, Sept. 4.—There is general
interest in political circles over the an-
nouncement that William Edward
Lackey is about to retire
from parliament. For many years
Lackey has been a familiar figure
in the house of commons as the rep-
resentative of the Dublin University.

Mr. Lackey is regarded as one of
the brightest scholars that scholarly
England has produced. Although a
nationalist, he is in thorough sympathy
with his race and his country, and
his works, especially his "History of
England," have done much for the
advancement of the Irish cause.
Mr. Lackey wrote that famous book,
"History of European Morals," from
Augustus to Charlemagne," and pub-
lished it in 1889. It became a classic
upon its publication, and no histori-
cal work ranks above it. Alkin to
his grand performance of the pen is
his "History of the Rise and Influence
of the Spirit of Rationalism in
Europe," a book that is considered
by some to be of more importance
than his popular masterpiece. He
has written a little library on the
history of Ireland, chiefly valuable to
statesmen and statisticians, and he has
also written a "History of England
in the Eighteenth Century"—a work
which has taken high rank and
which has been translated into Ger-
man. Many of his other works have
also been done into various languag-
es. Mr. Lackey is now nearing his
65th year.

Reading, Pa. Sept. 4.—The democ-

gun of their campaign here today and
made the welkin ring with denunciations
of Quay and Quayism and with
enthusiastic predictions of democratic
success at the polls in November.
The occasion of the demonstration
was the formal notification of the
candidates named at the recent
state convention at Erie. All three
of the candidates—Pattison for gov-
ernor, Guthrie for lieutenant-governor,
and Nolan for secretary of internal
affairs—were present, together with
other prominent party leaders from

Reconstruction is progressing

quicker and easier in the Orange
River Colony of South Africa, than in
the Transvaal. The difficulties of
amalgamating the Dutch and English
elements have been nearly overcome
and everybody is apparently deter-
mined to settle down and obliterate as
far as possible, the recent bitterness.

COURT PROCEEDINGS.

Little Business on Hand—Nothing
Done in Regard to Meeting the
Commissioners of Walla Walla
County.

Today is the second day of the
county court. This is to be a short
term. Little business is to be trans-
acted except the viewing and allowing
of bills and the term will end this
week unless some unforeseen thing
happens to detain the court.

Some discussion has been indulged
in by the court in regard to meeting
with the Walla Walla county com-
missioners some time in the future to
investigate and see what can be done
to protect the interests of the people
owning lands lying along the Walla
Walla River in the vicinity of the
state line. For several years it has
been apparent that much valuable
land would be washed away along
the river in the vicinity of Milton un-
less something was done to prevent
it. It will cost the two counties sev-
eral thousand dollars to do the work
and this is holding back an effort on
the part of the Umatilla county offi-
cials toward doing the work. Walla
Walla county is more deeply inter-
ested than Umatilla county. The
commissioners of that county have
been trying to get a conference, but
no date has yet been set and it is not
definitely decided whether or not any-
thing will be done by the Umatilla
officials.

Unsuccessful Attempt to Hold Up

reached here of a daring attempt by
three American bandits to hold up the
International Express on the Sonora
railroad three miles from Hermosillo

covered the engine crew while two
robbers went to the express car and
demanded admittance. The messen-
ger replied with a volley of shots
through the door, the bandits return-
ing the fire. The highwayman gave
up the attempt, disappearing into
the orange groves.

SECRETARY CORTELYOU
WAS BADLY INJURED.

Although Stiff and Sore From Severe
Bruises, President Announces From
Oyster Bay That He Will Carry Out
Original Plan of Itinerary.

Oyster Bay, Sept. 4.—President
Roosevelt arose at 10 o'clock this
morning and, contrary to his usual
custom, underwent an examination by
Dr. Lung, who announced that his
condition was good. The president is
stiff and sore from severe bruises.

Secretary Cortelyou, it is now con-
sidered, was the worst injured of any
of the living members of the presi-
dential party with the exception of
Driver Pratt. He went to his home
at Hempstead, L. I., last night and
this morning is confined to his bed
with a severe nervous shock and nu-
merous painful cuts and bruises, the
worst being a split nose. His phy-

FOR DELICATE OPERATION.

Warden and Prison Doctor in the
Toils of the Law.

Boise, Sept. 4.—A tremendous sen-
sation was sprung here last evening
when it became known that warrants
had been issued for the arrest of
Charles E. Arney, warden of the peni-
tentiary, and Dr. J. K. Dubois, prison
physician. The charge against the
men is that of committing a delicate
operation upon Josie Kenner, a life
prisoner in the penitentiary.

The warrants were issued upon a
complaint sworn to by H. W. Dun-
ton, attorney for the woman. Mr. Ar-
ney is in Pocatello. Dr. Dubois is
understood to be in town, but it was
not known up to a late hour whether
he had been arrested.

It is alleged that the crime was
committed on July 23. It appears the
matter was brought before the board
of pardons in July by Attorney Gen-
eral Martin, who had been placed in
possession of the facts by Mr. Dun-
ton. Mr. Martin wished to have the
statement verified and some action
was taken. Other members of the
board thought some other course
could be pursued.

The matter was left in that state
at the time Mr. Martin went north.
When he returned he found an abor-
tion had been committed. It is un-
derstood the woman has made an af-
fidavit implicating the warden and
physician and that other evidence
concerning the matter has been se-
cured.
