## BASE BALL NOTES

PENDLETON VS. LA GRANDE;  
WALLA WALLA VS. BAKER.

is the Way the Inland Empire League Teams Are Pitted Against Each Other Today—Other Diamond News of Interest to the Fans.

The Pendleton baseball team left this morning for La Grande to battle with the Best Pullers on their own grounds. This series of four games beginning today, will wind up the games between these two teams.

Out of all the games played since the league was formed, Pendleton has the honor of winning all but one. This was won here last week when the Pendleton players put up a very poor exhibition of the national game.

Walla Walla to Baker.

The Walla Walla team passed through here Wednesday evening on its way to Baker City to engage the enemy of that town for honors on the diamond. Walla Walla and Baker City have broken about even so far in all of their games and the fight there this week will be for blood on both sides, as the two teams are at the highest pitch of rivalry and the fans of both towns are anxious to see their pets win. Baker's team will have an easy thing today, though, if one can judge from the condition of several of the Walla Walla players as they passed through town last evening. Two or three of the men were so far under the influence of fighting booze that one of them thought he would take his spite out on an inoffensive Chinaman, who happened to be near the train when the boys got off to change cars, and lunged at the Chinaman with such force that the Chinaman would have been put out of business had he received the blow. Others of the players were in a very intoxicated condition. No wonder the Walla Walla papers have said that the local team would have to "cut out" one of two things—drinking or playing ball.

Lost Another Pitcher.

The local team has lost another pitcher. Salisbury left this morning to take a position on the Butte team, which leaves Pendleton with only Taylor, Stovall and White, for pitchers, as "Baby" Hays left a few evenings ago to re-enter college.

Amateur Game Sunday.

The amateur game to be played Sunday between two pick-up teams is attracting lots of attention. The local fans will witness this game in the absence of having a regular league team game on the local diamond. The game will be called at 3 o'clock. The line-up of Alexander's team, or the All-Pendleton Baseball team, is as follows: G. Brown, short stop; Maskrey, second base; Chapier, third base; Cox, center field; Stott, right field; Allen, catcher; G. Hartman, first base; Fletcher, left field; Drake, pitcher; Downey, sub.

RANGE CROWDED.

Shortage in Number Fed in Middle West the Cause.

A great deal has been said recently about the overcrowded conditions of the ranges of Eastern Oregon and the matter has really become a serious problem. Umatilla county stockmen are not so badly worked up over the matter as are the stockmen of Grant and Malheur, but it is also a matter that is worrying the stockmen of his immediate section. Something must be accomplished soon or the ranges will all be so crowded that stockmen will suffer. Cause of Overcrowding.

In speaking of the matter a prominent sheepman, of Pendleton, said yesterday: "The range question is really becoming alarming. There is no getting around the fact that the ranges are overcrowded even in Umatilla county, and it is worse in Malheur and Grant counties. However, I look for a thinning out of the surplus this fall and winter and do not anticipate that there will be so many stock ranged next year. One reason for the overcrowding this season is the fact that fewer cattle and sheep were shipped out last year than usual. Crops around the Middle West feeding centers were short and consequently the large feeders could not buy and feed through the winter at a profit, so more stock was left on the range. They could have been sold last spring, but those having cattle or sheep after having to winter them did not dare to sell, thinking they could profit by keeping them through the summer from the growth and increase.

Stock in Good Shape.

"So far stock are in good shape, but they are beginning to feel the result of the overcrowded condition. Grass is getting very short, especially in places. Stockmen look for an early fall, though, and if it comes with plenty of moisture the early range will be good and notwithstanding the crowding all will fare comparatively well. The past summer has been an ideal one for the stockmen. The spring was late and damp and grass was kept green until late. Had it not

been for this there would have been some bad results from the shortage of range."

O. R. FRANKLIN ARRESTED.

Charged With Selling Liquor to Indians—is an Old Offender.

O. R. Franklin, a well-known character around Pendleton, was arrested last night by Policeman Fee and is charged with selling liquor to Indians.

Franklin is a common laborer. He has lived in and around Pendleton for the past eight or 10 years and his operations in selling liquor has extended over all of this time, but he was so cunning with his plans that it was impossible to get proof of his work. Two weeks ago, however, he was arrested as being drunk and held in jail for several days. He was released and went to the country, but all of the time the officers were winding a chain of evidence around him, that was sure to land him sooner or later. He returned to town yesterday and was landed last night by Policeman Fee.

Franklin is a man about 50 years of age and has a family but he had become such an inveterate drunkard that his family refused to live with him longer. For the past few years he has had many experiences with the police and has been up before the police judge every few weeks for being drunk and disorderly.

The way Franklin would operate was to get the Indian who had money to give him 50 cents or \$1 and he would then go to the saloon and buy 25 cents worth of liquor with the 50 cents and turn it over to Mr. Indian and keep the change. With the dollar he would do the same thing, keeping half of the money.

He will now have a chance to face Judge Bellinger and will cease his operations with Indians and firewater for a while, at least.

The President's Double.

If the president had been seeking a double of himself, he could not have come more closely to the mark in the man selected for Secretary of the Navy, and while the resemblance may be very striking, there is no possibility of his being taken for the Executive than there is of success in palming off a substitute remedy for Hostetter's Stomach Bitters. It has become so well known as a cure for headache, nervousness, indigestion, dyspepsia, constipation and malaria that many unscrupulous dealers will refill the bottles with a bogus article and offer it as the genuine. Beware of such counterfeiters. The genuine Hostetter's Bitters has their private stamp unbroken over the neck of each bottle. Don't fail to try it.

CAMAS PRAIRIE IS O. K.

HAYING OVER AND STOCK IN GOOD CONDITION.

What 18 Years of Industry Did for One Man—From Nothing to "Easy Street."

C. Hale, who was in town today from Camas Prairie, brings good reports from that wealthy section of the county. He says that a successful haying season has just closed; that stock is in fine condition, and that prices, both of hay and stock, are good. Grass hay will average \$4 at on this year and grain hay go as high as \$5 a ton. Camas Prairie is in good condition generally.

Mr. Hale, who is in the stock and dairying business, is a strong illustration of what industry and stick-to-it-iveness will do in this country. He came here 18 years ago and settled in Camas Prairie without a cent. He had confidence in the country and its future and he stayed with it in all of the hardships and vicissitudes attending early pioneer life. Like all of those who pursued this course, he has been rewarded. He now has a good home. Has 800 acres of choice valley land, over 100 head of Short-horn cattle, and all of the things about him that make rural life prosperous and pleasant. He possesses his own farm machinery, and as a friend expressed it, he is one of those Oregon ranchers of whom there are many, that live on "Easy Street."

While Camas Prairie already has a daily mail, both at Alba and Ukiah the people there are looking forward to the time when they will have the rural delivery, and this time is not far distant. Uncle Sam seems determined that his farmer boys shall have all of the conveniences of his city boys, and if he manifests any difference, it is apparent that the country boys will eventually get the advantage.

Stock of all kinds is thriving, and while a little rain would improve the range, it is expected in ample time for fall feeding.
