FRIDAY, SEPTEMBER 3, 1902.

GENERAL NEWS.

Ogden Armour, speaking for himself and other Western packers, has conceded practically all the demands of the Meatcutters' and Butchers' Association, granting shorter hours and more pay, and the threatened strike is thus avoided.

A Boxer proclamation has been posted at Canton, inciting the slaughter of foreigners. It is ascribed to the commencement of work on the Canton-Hankow Railroad, and to the collection of funds for the payment of the foreign indemnity.

Giles W. Jackson, a negro, has filed application in the circuit court of the United States, at Birmingham for an injunction against the new state constitution of Alabama. The petition prays that the state registers be enjoined from further refusing to put the names of himself and other qualified negro voters on the registration list. He also asks that the grand father and understanding clauses of the new constitution be declared unconstitutional.

A few weeks ago there was discovered to the east of Fresno in the Sierras of California, the biggest tree in the world. At the time it was said that it measured 150 feet in circumference. John Muir, the great naturalist, has just visited the tree, and says that it measures at the base only 109 feet, and at four feet above the ground it was only 97 feet in circumference. It is, however, larger than General Sherman and General Grant, which heretofore were the recognized monarchs of the forest.

PACIFIC NORTHWEST NEWS.

The Gaston flouring mills are running day and night and farmers are bringing their grain in so rapidly that Main street has been completely "locked up" for the past week. The mill and warehouse are almost filled.

The democratic primaries at Spokane resulted in an overwhelming victory for Senator Turner. Out of 250 delegates elected in the city, the forces of Mayor Byrne had less than a dozen. The mayor, foreseeing defeat, practically withdrew his opposition.

About 9 a. m. Monday, fire destroyed the planing mill of Ed Hurbin, at Prineville. Besides the building and contents, tools belonging to a number of mechanics were destroyed. Firemen were soon on the ground, and saved four other buildings in the neighborhood that had caught fire from the terrific heat.

The admissions at the Portland carnival Wednesday were somewhat over 12,000. Of this crowd a great proportion were visitors brought into the city by the regular and special trains. The Tacoma special, gaily decorated and consisting of 12 coaches, carried 1050 passengers and the Seattle special, which arrived an hour and a half after, at 4:30, had 1200.

There is a general rush to locate timber lands in Baker and adjoining counties since the purpose of the interior department to establish a large timber reserve in Eastern Oregon has become known. Already hints of fraud on the part of timber cruisers and locators are rife. It is said that several timber locations are known to embrace well known mining claims and in some instances mines that have been worked for several years are said to be included in timber locations. The locator is obliged to establish by competent evidence, that the timber land is more valuable for the timber and stone it contains than for mining purposes. The time for final proof will come in October when protests will be made. It is known that several have been prepared already, and there will be more to follow.

WHO WERE THEY?

Umatilla County Young Man Loses His Betrothed While Trying to Get a Marriage License.

The Portland Oregonian says: A well-dressed, good-looking young man from Umatilla county, who called at the county clerk's office yesterday for a marriage license, met with a double misfortune. He was unable to secure the license because he had no witnesses with him to swear the girl was over 18 years of age and that there was no legal impediment to the union. When he came out of the office into the hallway where he had left the girl, he discovered that she was nowhere to be seen. She was gone, and the young man anxiously inquired of the bystanders if they had seen anything of a sweet young woman arrayed in white, and what had become of her. Several had observed such a girl, but were unable to inform the youthful would-be benedict where she had gone.

The young man rushed out and around the block in search of his missing betrothed, and finally disappeared. Whether or not he found her is something the boys at the court house did not ascertain. The affair had the appearance of an elopement. The deputy county clerk who waited on the gentleman, and gave him pointers concerning how to obtain a witness, suggesting that some young men at the hotel where he was staying might know the girl and that she was of legal age, and would therefore be able to help him out of his predicament. But the young man had not returned at the closing hour.

Not Doomed For Life.
"I was treated for three years by good doctors," writes W. A. Greer, McConnelville, O., "for Piles and Fistula, but when all failed, Bucklen's Arnica Salve cured me in two weeks." Cures Burns, Cuts, Corns, Sores, Eruptions, Salt Rheum, Piles or no pay. 25c at Tallman & Co.'s drug store.

The Freewater Times has been sold by H. C. Jones to Mrs. Gertrude McQuary.

PENDLETON LOST

AND SO DID BAKER CITY TO THE FARMERS.

Neither Game Was Very Full of Spice as Will Be Seen by the Scores—Pendleton Is Yet 200 Points Above Walla Walla, Her Closest Competitor for the Pennant.

Standing of the Clubs.

Club	Won.	Lost.	P. C.
Pendleton	23	10	.698
Walla Walla	15	18	.454
La Grande	14	18	.438
Baker City	12	20	.375

Pendleton, 4; La Grande, 9.
Baker City, 3; Walla Walla, 15.

This was the way the score stood at the end of the Baker City-Walla Walla and La Grande-Pendleton baseball games Tuesday.

Pendleton came down a notch in her cent column, but she is still more than 200 points above Walla Walla, which is the highest team in the league. La Grande went up a notch at the expense of Baker City, still taking the Gold Diggers farther down the line. Baker has been behind in the league for several weeks and from present indications will remain behind. Walla Walla claims to have the strongest team they have had since the league season opened and will, it is claimed, win most of the present series. If she does it will put the Gold Diggers so far behind that they will not be able to catch up.

Pendleton is so far ahead that there is little possibility of her losing the pennant. Apparently the only contest is to see who takes second place in the line. Although Pendleton now has the weakest battery she has had since the season opened, the rest of the team is as strong as ever and with the addition of another pitcher we can remain where we are in the percentage column. Taylor, Stovall and White are the pitchers now, and while they all pitch a fast game, are not so good as "Baby" Hays.

Wonders vs. All-Pendletons.
If you do not see the baseball game between the two amateur teams on the Alta street grounds Sunday afternoon, you will miss a treat. Following is the line-up between the two teams:

Wonders—L. Cronin, catcher; Kruger, short stop; Froome, first base; Castle, center field; O'Hara, left field; Alexander, second base; F. Hartman, third base; R. Cronin, pitcher; Mays, right field; Baum, sub.

All-Pendletons—Fletcher, left field; Maskrey, second base; Chapler, third base; Cox, center field; Allen, catcher; Stott, short stop; G. Hartman, first base; Downey, right field; Drake, pitcher.

U. S. SENATORSHIP.

The Dalles Times-mountaineer Speculates on the Subject.

Who a few years ago would ever have thought that John H. Mitchell and Harvey W. Scott would ever have whistled through the same tin horn? Nothing was ever too bad for Harvey to say against John. He denounced the senator as being anything but a saint. The English language contained no word too harsh to apply to John. But time has changed. Harvey imagines now that his old thorn, John, is a pretty good fellow. He is the great luminary who dictates Oregon politics (names United States senators). Harvey must have a little bee buzzing around his headgear.

Who is going to be elected United States senator at the coming sessions of the legislature? So far nobody in the state, except John W. Fulton, of Astoria, has been able to venture a positive prediction, and he says he is the forthcoming statesman who is to represent Oregon in the upper house of congress. But certainties

Correct Stationery

It is worth something to buy your Stationery where the styles are correct.

We buy direct from the maker. No middleman to work off his dead stock on us as "the latest thing."

We keep abreast of the times. We know what's right. Our prices are right and our styles.

Prices all the way from 10 cents to \$1 a box.

Paper and envelopes in bulk, and fancy tablets with envelopes to match. We have a few boxes left which we are closing out at cost.

FRAZIER'S

sometimes fall, and Mr. Fulton's hopes may be blighted.

It is conceded by all that Senator Mitchell will have much to do in the selection of his colleague. He has a strong influence with the majority of the republican legislators, but it is not certain that he has sufficient following to name the one who shall be elected. It is an open secret that in 1901 he made promises to Fulton to repay him for his assistance in the senatorial contest two years ago, and that he was under great obligations to the Astorian at that time, but promises may have been forgotten in two years. There is another to whom Senator Mitchell is under obligations of long standing. For many years past Hon. Solomon Hirsch has been an ardent supporter of the senator. His political success has been largely due to Mr. Hirsch's activity and influence. Mr. Hirsch has ever had a longing to be United States senator. Can Senator Mitchell afford to turn down his benefactors for a new-found friend? If not the promises made Mr. Fulton may be easily forgotten. And there is another, who like Mr. Mitchell, is under obligations to Mr. Hirsch, and that other is Congressman-elect Williamson, who because of having been elected to congress and is a hold-over state senator will have some considerable voice in the selection of a senator. Much of Mr. Williamson's success is due to the influence of Solomon Hirsch and his immediate friends. Can Mr. Williamson afford to forget such favors as the venerable Hirsch has conferred upon him?—The Dalles Times-mountaineer.

Parents' Responsibility Great

It is the right of every child to be well born, and to the parents it must look for health and happiness. How inconceivably great is the parents' responsibility, and how important that no taint of disease is left in the blood to be transmitted to the helpless child, entailing pitiable suffering, and marking its little body with swellings, brittle bones, white swelling and deformity.

How can parents look upon such little sufferers and not themselves for bringing so much misery into the world? If any disease lurking in your system, how can you expect well healthy children? Cleanse your own blood and build up your system, you have not only enlarged your capacity for the enjoyment of life, but have discharged a duty all parents owe to posterity, making them healthier and happier.

There is no remedy that so surely reaches deep-seated, stubborn troubles as S. S. S. It searches out even the most hidden poisons, and removes every taint from the system, and builds up the general health. If you are growing up around you, right the wrong by putting them on a course of S. S. S. at once. It is a purely vegetable medicine, harmless in its effects, and can be used by both old and young without fear of any bad results.

Write us about your case, and let our physicians advise and assist you. This will cost you nothing, and we will also send our book on skin diseases.
