## GAMES BROKE EVEN

INDIANS WON SATURDAY;  
BEET PULLERS SUNDAY.

Both Games Were Good and the Indians Found Their Match—Baker City Won From Walla in a Loose Game Saturday, But Walla Walla Turned the Tables on Them Sunday.

Standing of the Clubs.			
	Won.	Lost.	P. C.
Pendleton	25	11	.694
Walla Walla	17	19	.472
La Grande	15	20	.428
Baker City	14	21	.400

**Saturday's Game.**  
Pendleton, 4; La Grande, 2.  
Baker City, 22; Walla Walla, 8.

**Sunday's Game.**  
Pendleton, 3; La Grande, 4.  
Walla Walla, 6; Baker City, 4.

The last series of games in La Grande between the Beet Pullers and the Indians broke even. The Indians won Friday's and Saturday's games and La Grande won Tuesday's and Sunday's games. This is the first time the La Grande team has been able to hold the Indians down to anything like an even break. Most of the games of the series just closed were good especially the two last.

Saturday's game was witnessed by about 300 people and the enthusiasm was as high as could be expected considering the home team was getting the small end of the game from the start. The Indians started off in the lead by sending two men across the home plate in the first inning. This did not take any of the ardor out of the Beet Pullers, however, and they put up an excellent fight to the finish. Nothing was made by either team after the first until the fifth when one man on each side made a tally, making the score stand 3 to 1. Then in the seventh La Grande made 1 and Pendleton made her last run in the ninth. White and Adams were the battery for Pendleton and Bolin and Shea did the heavy work for the La Grande team. The Indians got 4 hits from Bolin's delivery and made 7 errors while La Grande got 7 hits off White and made 5 errors.

**Sunday's Game.**  
The Sunday game at La Grande was good. A telephone message from the team after the game was over said that it was as fine an exhibition of the national game as was ever witnessed on the La Grande diamond. Taylor and Adams were the battery and they put up a fine game, while McGucken and Shea, for the Pullers, did not lower their reputation in the league. The field work was excellent on both sides and few errors were made.

**The Outlook.**  
Pendleton is far in the lead for the honors at the end of the league series. She now holds a percentage of .694 while Walla Walla, the next highest team is only .472. This leaves the Indians a margin of .222 to play on and they will have to lose more than their share of the games from now on and Walla Walla will have to win almost all of her games to place Pendleton behind. This is not expected by the team and faithful fans and it is now conceded that the pennant hangs safely over the heads of the Indians. The only fight now is between the three low teams for second place and this honor now seems to rest between Walla Walla and La Grande. There is only a difference of .44 now between these two teams. While Baker City holds the little end of the per cent column having .400.

**Other Games.**  
The next series of games are to be played in this city and Walla Walla. Baker City will come to Pendleton next Thursday and play the first game of the series of four for the week and La Grande will go to Walla Walla. Eight games now remain to

be played between Baker City and Pendleton teams, and eight between the Walla Walla and Pendleton teams. These games will end the league work for this season.

**The Next Attraction.**  
The next attraction along the sporting line in the field will be foot ball. School will open soon and the school boys will, of course, begin to think of something for pastime. Foot ball is the ruling field sport of the winter season and the pig skin will be next in evidence.

**Baker City's Soliloquy.**  
While the team holds out to play, Let us hope!  
We may win out one day, Let us hope!  
Though the cellar door's in sight, Near enough to give a fright, We shan't enter 'till a fight— Let us hope!  
If we do Pendleton brown, Let us hope!  
We may wear the victor's crown, Let us hope!  
Let us disappointment hide, Do our knocking on the side, Root and help 'em off the slide— Let us hope!

**Wonders Won.**  
In a game of baseball which was classed as a good game by those who witnessed it, the Wonders, Roy Alexander's invincibles, beat the All-Pendleton team on the local diamond Sunday afternoon, by a score of 7 to 5. A great many good plays were made by both sides. Robert Cronin, pitcher for the Wonders, and Lee Drake, pitcher for the All-Pendletons, put up a good game in the box, as well as did all the team. The crowd was with the Wonders from start to finish and were well pleased when they pulled out on top at the end of the game.

## OLD PEOPLE

Do not always receive the sympathy and attention which they deserve. Their ailments are regarded as purely imaginary, or natural and unavoidable at their time of life. Disease and infirmity should not always be associated with old age. The eye of the gray haired grandsire may be as bright and the complexion as fair as any of his younger and more vigorous companions.

**Good Blood is the secret of healthy old age,** for it and controls every part of the body, strengthens the nerves, muscles elastic and supple, the bones strong and the flesh firm, this life fluid is polluted or poisoned and loses its nutritive, health giving elements, then there is a rapid decline of the vital powers in premature old age and disease. Any derangement of the blood shows itself in an ulcer, sore, wart, tumor or some other growth upon the body, and rheumatic and neuralgic pains become constant, accompanied with poor digestion and cold extremities.

**SSS** S. S. S. being purely vegetable, is the best blood purifier for old people. It does not hurt the system like the strong mineral but gently and thoroughly cleanses the stimulates the debilitated organs, when ailments disappear. S. S. ### A BUILDING ASSOCIATION.

Being Talked of by the Citizens of Weston—Houses are Scarce.

W. H. Beathe, who was in town Saturday from Weston, says the citizens of that town are talking of organizing a building association for the purpose of building cottages and flats to rent.

The establishment of the Eastern Oregon State Normal in that town has made a great demand for houses during the school term and this is spurring the people to the responsibility of having all the houses needed by the people wishing to move to town to school their children.

The fact has been recognized for several years that the rentable houses in that town were inadequate for the demand, but this is getting to be more and more the case and now something must be done. Mr. Beathe says the town now has the state normal and the people recognize that they should do all in their power to help it along.

The plan talked of is to form an association, incorporate and sell stocks, build several small cottages and lease them to people wanting homes during the school season. In this way the demand for houses will be supplied and it is thought that the association will make a good profit from the investment.

"A small cottage can be built for \$400 or \$500," said Mr. Beathe, "and it will rent for at least eight or nine months out of the year at \$8 a month. This will be a good interest on the money. The proposition is meeting with the approval of many and there is little doubt but it will be a go."
