THE MODERN DRUGGISTS      PENDLETON

## East Oregonian

TUESDAY, SEPTEMBER 9, 1902.

Congressman-elect Williamson's speech on the coyote bounty law before the Eastern Oregon Woolgrowers' Association, which meets at Pendleton September 16, is looked forward to with interest by the entire public.

Texas republicans held a forlorn convention yesterday. With a standing 100,000 majority always against them, the only hope they have is to remain together and make a mimic fight and divide the federal patronage coming that way.

It is "King Morgan" in England now. There is one glorious thing. A man will never possess enough wealth or wear a sufficient number of symbols of power and greatness in this country for the people to see in him anything greater than a citizen of the country. It is great to live in a country and owe fealty to one that never expects more of one citizen than another; and where one man can rise no higher than another except on merit, and where then he is considered no greater.

President Roosevelt has joined the Locomotive Firemen and taken the obligation and received the password and grips. This opens a wide field for the president. He must now join all of the labor unions in order to show no partiality. He will have to join the longshoremen, hotel waiters, teamsters, hod-carriers and every other union from the highest to the lowest. But still it may result in good for labor. If the president of the United States should join these unions and mingle with the men by attending their meetings, he may learn the real conditions and exert all of the influence within his power for labor, and this means a whole lot.

The strikers turned their guns upon themselves yesterday. Through mistake they fired upon their own men, thinking they were workmen that had taken their places. This was a good lesson to them. It is probably well that they killed their own men. Murder is not justified under any circumstances and when the murderers are brought to a full realization of what they have done, they may not be so quick to shoot again. The provocation of the strikers may seem great to them, but they are simply criminals when they undertake to take the law into their own hands or oppose its administration. The striker is no better than the operator, and vice versa.

Yellow journalism appeals to the morbid. In the cities and many of the towns the morbid are in the majority. But in the farming and stock country there is a certain predominance of honesty and truthfulness, and practical good sense that demands a paper that is reliable and steers clear from sensationalism. The practical, common-sense citizen may glance at the sensational sheet and smile, and may read it, but it is not the kind of a paper that he would take into his family and advise his daughters and growing sons to read. The men of the country have to fill the places of trust and while the morbid fast-livers of the cities are retreating, the country people are all of the time advancing to a higher plane. It is the country that supplies intellect, cool and reliable, to take the place of that burnt-out and destroyed in the cities by fast living and dissipation.

### TIPPING WAITERS.

The habit of tipping waiters is one of the worst in the tipping line. It is the common boast of some waiters that they make more off of tips than their salaries come to. It is also claimed that some hotel and restaurant men have it understood with waiters that they must get the most of their salary in this way. The natural result in such cases is injury to the proprietor's business. The man who does not "put up" is soon spotted by the waiters and he sees the man by his side get more attention than himself and naturally looks for a place where he gets even show for the price charged. The proprietor is not benefited for the reason that the waiter gets the rake-off and the proprietor loses customers by it. A waiter who will receive a tip to slight one patron of a hotel or give another an advantage in service is a grafter, a menial, unreliable and not competent to hold a position anywhere. In the South it would be called "niggerish." It is claimed that for the very reason that negroes have been slaves and accustomed to receiving tips in this capacity, is why they prefer the position of a waiter or servant, and that this is where tipping started in this country. A waiter can make his calling as dignified as any other. He can be a gentleman there as well as elsewhere. But the man who receives a tip, or bribe to perform his duty or show favoritism is not a gentleman in the American sense of the word, but is a mere grafter and belongs to the riff-raff. The proprietor of a hotel or restaurant who reduces the wages of his employes to that extent whereby they are compelled to graft, or expects them to earn their wages in that way, is no better than the waiters who graft, and should not be expected to hold a reliable patronage.

The East Oregonian is in receipt of a neat little envelope containing a white substance which the printed matter on the envelope states is volcanic dust from Mount Pelee. It is sent out by a Chicago man and intended indirectly as an advertisement. It is an illustration of the fact, at least, that it pays to advertise in any way whereby one may reach the public.

### CALIFORNIA DEMOCRATIC PLATFORM.

This must be a government by law, and not according to the will of the officials. We therefore demand the enactment of laws, both State and Federal, prohibiting the issuance of injunctions in labor disputes, infringing upon the rights of free speech, free assemblage, full freedom to organize and to quit work, and trial by jury, to the end that such rights may be maintained in complete integrity.

We unqualifiedly favor the complete exclusion from all American territory of all Chinese, of either whole or mixed blood, according to the terms of the bill presented to congress by the American Federation of Labor and the California Commission, and we denounce the republican majority in congress for its treason to the working people and the Pacific coast in rejecting this bill and passing the present weak and inadequate law.

We favor the eight-hour day for public work, whether done directly or by contract.

We favor the construction of government vessels in the government's navy yards, and we pledge our candidates for congress to use every effort to secure the immediate construction of such vessel at the Mare Island navy yard.

We favor the establishment of a state Free Labor Bureau in connection with the state Bureau of Labor Statistics, to the end that the laborer seeking employment may be furnished

ed with reliable information of sources of employment without cost.

We recommend the amendment of the act relating to the employment of state police for railroad and steam boat corporations to employ special police for the enforcement of order shall not include the right to use armed force under the pay of a private corporation in cases of difficulties which may arise between employers and their employes.

We are opposed to the present practice of purchasing state supplies partly or in whole manufactured in state prisons, reformatories or asylums, and to prevent this practice we demand that such laws shall be enacted that the union label must necessarily be on all goods purchased by the state.

### TRUE MODERN JOURNALISM.

Efficient journalism must necessarily be clean journalism—clean in its business methods—clean in politics.

But it may be clean and yet inefficient by being purposeless. The successful modern newspaper must have a purpose and a program and have the ability and the courage to adhere to its chosen line of duty.

A man who should spend millions in endowing newspapers that were too good to stand alone would not be nearly so great a benefactor as the man who demonstrated that a clean newspaper can be made to pay.

Some of the most successful newspapers do not disfigure their pages with cheap pictures, nor with huge blotches of red ink, nor with headlines in type four inches high. They do not pad three lines of actual news, transmitted by cable, with a half a column of lurid details manufactured in the office, preceded by a lying date line. They have no drag-net out for scandals; they show some respect for rights of privacy. Yet their news service is of the best. They are well written and well edited; they appeal to healthy minds; their circulation is large and increasing.

As a rule the big metropolitan paper has no program. It is a huge barnacle, a polypos, a great blood-sucking parasite living off society, an overgrown world's surplus wealth.

Commercialized journalism has neither individuality nor character. From the smallest want ad., to the most important position on public matters, if it takes any stand, it is a question of money.

Such newspapers do not mould the community for good off which they live. They are an added burden, existing off its vitality.—Salem Journal.

### Would You Think It?

Would you think it possible that you could be disappointed in the face of a woman whose shapely shoulders, and beautiful hair suggest womanly perfection and beauty? Such disappointment comes not seldom when the face turned to you shows disfiguring blotches and blemishes. In general the cause of these eruptions is impure blood.

Dr. Pierce's Golden Medical Discovery purifies the blood, and removes the corrupt accumulation which cause disease. When the blood is cleansed, pimples, tetter, salt-rheum, boils, sores, and other results of impure blood, are perfectly and permanently cured.

"For three years I suffered with that dreaded disease eczema," writes Mrs. J. Koopp, of Herman, Oregon. "I was told to try Dr. Pierce's Golden Medical Discovery, which I did, and after I had taken fourteen bottles I was permanently cured. It has been a year since I stopped taking your medicine and it has never appeared since. I think your medicine a wonderful cure and hope others suffering as I did, will take it and be relieved of their suffering."

Some of the most remarkable cures effected by "Golden Medical Discovery," have been of scrofulous diseases. "I will forever thank you for advising me to take Dr. Pierce's Golden Medical Discovery," writes Mrs. Jas. Murphy, of Ponda, Pocahontas Co., Iowa. "It has cured me of chronic scrofula of twelve years standing. I had doctored for the trouble until I was completely discouraged. I also had chronic diarrhoea for twelve years. I am in good health now—better than I ever was in my life, owing to Dr. Pierce's Golden Medical Discovery. I took several bottles of the 'Discovery' before I stopped."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs.

Dr. Pierce's Pleasant Pellets cure dizziness and sick headache.

THE CLEANSING AND HEALING CURE FOR CATARRH

ELY'S CREAM BALM
