ers in regard to the protection of ers in regard to the protection of
Walla Walla valley

No definite steps were taken toward his end, but it is expected that some-
thing will be done between now and pext spring to keep this stream in its
proper channel and save the valuable
property along the stream At present the O. R. \& N. Rallioad
Company has only a small bride across the river and every few feet
plles are set to hold the bridge. This causes the overfowing of the territo-
ry below the bridge by the high
water. In the spring drift wood rials water. In the spring drift wood rimia
down the river in great quantites.
This catches agalust the plies, form This catches agaiust the plies, form
ing a damn and reverting the watel
from fts pro orities will requent the company to
bulld a 90 or 100 -foot auld a 90 or 100 -foot span bridge
across the stream so that the drift wood will have nothing to lodge
aganinst. This will be the first step
toward curbing the
