BEGINS INVESTIGATION.

Governor Geer Looks Into the Matter of the Chinese Trouble in Malheur County.

Salem, Sept. 11.—Following is a statement from Governor Geer, replying to a Washington dispatch in this morning's paper stating that the government authorities had received no answer from him: "I received notice from the state department at Washington on the 29th of August, that no steps had been taken to apprehend the parties who attacked the Chinese at Baker City on the 8th inst., and stating that complaint had been made by the Chinese authorities. The department requested that measures be taken with a view to the prompt apprehension and punishment of the guilty parties, etc. The same day I wrote to District Attorney Sam White, of Baker City, of the complaint, and directed him to proceed at once with the necessary measures which would lead to a thorough investigation.

"This fact was printed in the papers, and, meeting the eye of District Miller, of Malheur county, he at once took the necessary steps in the matter without hearing from me, being cognizant of the fact that the outrage was committed in Mormon Basin, which is in his county.

"I have on file in this office a letter from Mr. White acknowledging the receipt of my letter of August 29, in which he says that complaint was made to him at the time, but that since the affair was in Malheur county, he at once notified the sheriff of that county and requested him to investigate it. The sheriff informed him that he was unable to find anything other than that four or five white men had started a fire in Chinatown, held up some of the Chinese and looted the stores, that the men were masked and could not be identified.

Attorney Miller is vigorously looking into the affair, and will no doubt discover the guilty parties and bring them to trial. There has been no delay whatever since the notification was received at this office. I notified the department at Washington by mail the same day the request was received, but since the letter must have been delayed or miscarried, I today sent another notification by wire."

STEALS "BLACK CHRIST."

American Officers Loot Filipino Church and Carry Off Their God.

San Francisco, Sept. 11.—Officers of the Eight United States Infantry, who arrived from the Philippines on the transport Buford, are at loggerheads with the local customs officials over the admission duty free of trophies from the far east. All the articles were intended as a gift to the museum of the United States Military Academy at West Point, but they may never reach their destination if the treasury department tries to exact duty from the officers of the Eighth. Assistant Surveyor of the Port St. John says he cannot pass the articles without consulting higher authority, and there the matter rests.

Principal among the articles contained in the trunk are two religious images and robes in which they were draped. One of these is an ebony figure of the Savior, known in southern Luzon as the "Black Christ."

These images were seized by the Eighth infantry at the headquarters of a native religious sect in the town of Pagsagan, Province of Laguna, while the regiment was operating in that vicinity. The religious sect was known as the Calorin, and the images are said to have been used by the insurgent leaders to exact war revenues from people by imposing upon their credulity. A Filipino ventriloquist, it is said, would apparently cause the image to speak and order the natives to give their money so the Americans might be driven from the island. The carvings appear to have been made within the last two or three years.
