

Get the Children Ready for School

The vacation draws to a close and Monday the girls and boys will return to their books, so see that they are properly fitted with good, substantial, neat appearing shoes. Don't let the children be pained by ill-fitting shoes, for it incapacitates them for diligent study.

We have made a special study and have secured the right things for the girls and boys.

ORIENTAL BOOTLEGGERS.

Jim Fang Arrested for Selling Liquor to Indians, Bound Over to the Federal Court.

Jim Fang, arrested Wednesday afternoon charged with selling liquor to Indians, was bound over to Portland by United States Deputy Proebstel to await the action of the federal court. Fang's method of operation was very clever. He runs a noodle joint on Garden street, and hearing of the money which could be made out of selling liquor to the Redskins, he concluded to try his hand. He would go to the saloon and buy the whisky, lure the Indians into his place of business and sell the bottle to them at two or three times what it cost. The Indians found out where they could get the firewater and it had become a regular thing to see them going in and out of his place.

This has been going on for several months and Fang became pretty bold in his operations. He was doing a land office business and the saloons where he bought his "booze" say some days he would purchase as many as a dozen bottles. Of course the saloon man did not know what the Chinaman was doing with it. Fang's principal customers were

THUNDER MOUNTAIN.

Rich Man's Region, That Will Require Time to Develop.

J. T. Jones, of Boise City, who recently visited the place, says of it:

"It is difficult to consider the Thunder Mountain district carefully and calmly and uninflected by both the favorable and unfavorable criticisms it has received in the past. You have doubtless had the experience of listening time after time to the virtues and inherent greatness of a noted man. Your imagination, based upon what you have heard of him, is to give you an exalted idea, and you imagine that when you meet the individual you will meet one possessed of great intellectual qualities, and possibly a magnificent physique. When you meet him you are disappointed to find he is 'just a man' like yourself. The same thing is true of the Thunder Mountain district.

"So much was said last winter, so many fabulous stories told, so many extravagant estimates as to its possibilities, made that even the most experienced miner may be excused for over-estimating. It is easy to see how, from the stories that were told, the average layman may have pictured to himself a spot where the surface rock was studded with jewels and the creek beds replete with golden nuggets. When they arrived at Thunder Mountain it was to find 'just a mining camp,' with the usual difficulties to be encountered in the development of the same.

"We must confess that it requires a strong exercise of the will to rid ourselves of great dreams of easy acquired wealth, and to cheerfully come down to the plane of a pure, cold, business proposition. But all things work together for good, and it is probable that this extravagant nonsense, published early last fall, has had a salutary effect. It has at least attracted the attention of the world to a locality which offers to the conservative element an opportunity for acquiring very valuable property. It is unfortunate if there are those who have already made disastrous speculations, but they must blame themselves and debit their loss to their unthinking impulse."

ANGORA GOATS.

Clatsop County Said to be the Very Place to Raise them.

The farmers of Clatsop county should take up the question of stocking their hill farms with Angora goats.

Dr. Wittcombe, in his letter to Judge Bowlby says Clatsop's hills are ideal for the Angora goat industry. The moisture of the climate is no drawback. They are invaluable in aid of clearing off our hillsides of brush. They are worth more to the farmer in clearing his land than the cheapest labor on earth.

The wool products and the kids will make a fabulous return on the investment.

Let our leading farmers take up the matter. Judges Taylor and Bowlby are getting up the facts and it is to be hoped that concerted action will be taken to give Clatsop county the benefit of this important industry that will create an export product and clear the way for great fruit orchards.—Astoria News.

A Powerful Search-Light.

The latest invention is that of a signal light, which is claimed will penetrate the heaviest fog for a distance of half a mile. If it is a success many accidents on both land and sea can be averted. Much interest is being manifested in the discovery, the same as in any other invention that is intended to save life. This is the reason so many people have been interested in Hostetter's Stomach Bitters during the past 50 years. It is recognized as the best health maker and blood purifier in existence, and with good health and pure blood, disease cannot find a foothold. It is therefore especially adapted for persons in ill health and who suffer from heartburn, indigestion, dyspepsia, constipation, or malaria, fever and ague. T. y. ft.
