IMMIGRATION.

Railroads of the West Making Great Efforts.

Few people have an idea of the work done by railroads to encourage Western immigration. Fortunes are spent for literature alone.

People are no longer given time to make up their minds. The railroad agent makes up their minds for them.

One of the most liberal users of printed matter is the Rio Grande. It turns out an enormous amount of illustrated literature.

It is difficult to say where all the people go who come West to locate. The West is so vast and so little of it is settled and under development.

They keep coming, however, and every year the people who come West to locate grow in numbers.

This year they expect to break the record. It is expected that thousands of people will take advantage of the colonists' rate which is being offered.

State Veterinarian McLean Orders the Two Horses of Zeit's Killed.

MILD CASE OF GLANDERS.

State Veterinarian McLean was in Pendleton yesterday, where he came to investigate the ailment of the two horses belonging to John Zeitz.

Mr. McLean confirms the statement made by Dr. Christie that the animals had glanders, but says that it is a very mild form and that the animals were not very bad off.

While in a mild form," said Dr. McLean, "the glanders is not very contagious, especially if the animals exposed are in good condition."

He stated further that every precaution had been taken in the matter at Zeitz's place and no fear was entertained of a further spread of the disease.

Dr. McLean returned to Portland this forenoon.

Not Doomed For Life.

"I was treated for three years by good doctors," writes W. A. Greer, McConnellville, O., "for Piles and Fistula, but when all failed, Bucklen's Arnica Salve cured me in two weeks."

THE GOLDEN RULE STORE.

We Were Too Late.

Bright's Disease and Diabetes Are Positively Curable.

Upon hearing that Charles A. Newton, the pharmacist of the Southern Pacific Company at Sacramento, had a certain case of Diabetes, the business man who was investigating the Fulton Compound, wrote him asking him to take it; but they were late, as he had already heard of it, as per his letter in answer as follows:

"Dear Sir: Yours of the 17th received, and I thank you for your information regarding the Diabetes medicine made by J. J. Fulton. I was permanently cured of Diabetes by this medicine, and I now enjoy good health once more. I commenced taking it March 2d, and June 5th was pronounced cured. I now enjoy my old diet in a mild form, but advance more on it as time goes by, not wishing to attempt too much at once. I was very bad with the disease. The gravity was 106, and I was so weak I could scarcely walk. The physician helped me some, but said there was no cure. I then heard of and went to treating with the Fulton Compound, and only took three bottles when I commenced to feel better, and then kept on improving until I was restored to health."

"I know of another case of Diabetes, an engineer on the road who had the disease for four years. He went to Tucson to die. When I was getting better I sent for him to come to Sacramento to go on the same treatment. On his return he believed no medicine would cure him, but I prevailed upon him to try it. This was in May. He is now so much improved that he is on his engine working every day. There are also two cases of Bright's Disease taking it whom I told of. I hope some syndicate will get this medicine and build sanitariums all over the country for the treatment of these dreadful diseases. Trusting I have not said too much, Yours,

"Chas. A. Newton, 'Yardmaster, S. P. Co., Sacto.'"

Medical works agree that Bright's Disease and Diabetes are incurable, but 80 per cent are positively recovering under the Fulton Compound. (Common forms of kidney complaint and rheumatism offer but short resistance.) Price, \$1 for the Bright's Disease and \$1.50 for the Diabetic Compound. John J. Fulton Co., 420 Montgomery St., San Francisco, sole compounders. Free tests made for patients. Descriptive pamphlet mailed free.

F. W. Schmidt & Co., Sole Agents.
