# FIRST SCHOOL WEEK

INDICATES A SUCCESSFUL TERM THIS YEAR.

The Enrollment is Still Increasing, and Pupils Are Hard at Work—Literary School Paper and Baseball.

One week has passed since the opening of the Pendleton public schools and Academy. While there has been little increase in the enrollment the work is starting off smoothly and a large increase is expected next Monday.

**The Academy.**  
 "For the first week we have had remarkable success in getting started, and everything is running very smoothly," said President Forbes, of the Academy, last evening.

The classes were organized the first day and a full program has been carried on ever since. There has been a small increase in attendance, and more are expected the first of the week. President Forbes said the new teachers were taking hold of the work with an earnestness. Miss Patterson is embodying drawing, and kindergarten work in the primary department, which is a very satisfactory feature. Professor Kloefer, who is teaching German, is also doing excellent work, as are all of the teachers. About 20 students are taking the German and are starting off very nicely. Professor Kloefer gives the regular lessons the student would get in the schools of Germany. Professor Wilson, assistant principal, is also doing good work. He is taking hold of the work with the air of an educator who knows what he is about.

The academy also has a Greek class. This is under the direction of Professor Forbes and has about a dozen students.

**Public Schools.**  
 For the first week's work the Pendleton public schools are making excellent showing. The increase in attendance has been small since the first day, but each day has seen a few added to all the classes. The work is only fairly started, but the teachers are all taking hold of the work with renewed interest and the outlook now warrants the statement that Pendleton will have the best school year in her history. The new teacher to succeed Louis W. Keeler, who was elected but resigned, has not been selected although many applications are in for the vacancy. Miss Edwards is filling the place temporarily.

The high school has already begun to think of branching out into work, literary and otherwise. A meeting will be called within a few days to organize the literary classes. This was one of the features last term, and almost every Friday evening there was a contest for honors among the young people.

The students are also talking of publishing a paper. The school has never attempted to get out any regular publication, but more or less effort has been expended in getting up a paper just to be read at the literary entertainments. These made such hits that it is now contemplated to follow the lead most city high schools have adopted and publish a regular school paper.

It is too early to begin to talk of football much yet, as only a few of the large players are entered, but it is the intention of organizing a team as soon as the boys are all in place and ready for work.

Gymnastics and other muscle-developing sports will be a feature of the school, but not interfere with the other work of the students. Roy Conklin will lead the athletic sports, as he is an enthusiastic worker in these arts.

### \$1,000,000 for Charity.

A fortune of \$1,000,000 was recently left to a charitable institution in one of our Eastern cities, and while much good can be accomplished by the careful expenditure of this sum of money, there is another agency which also deserves mention, because of the good it has done and the sufferings it has relieved during the past 50 years, and that is Hostetter's Stomach Bitters. No other medicine can take its place as a cure for stomach, liver and kidney troubles, such as headache, belching, heartburn, indigestion, dyspepsia, constipation or biliousness. We would therefore urge you to give it a trial. The genuine must have our private stamp over the neck of the bottle. Do not accept a substitute.

I will not be responsible for any debts whatever, contracted by anyone but myself.

### NEW BUILDINGS.

Few Going Up at Present in Pendleton, But Many Being Planned.

"There is a lull in the building of business houses in Pendleton," said Architect Theodore Howard yesterday.

"There has seldom been a time for many months, in fact, years, that I have not had plans on foot for some extensive buildings on Main or Court street that were to be modern and up-to-date business headquarters. Just now I have nothing of the kind on tap. It is true that several houses are being talked of, among them is a large hotel for Main street, and I have just finished plans for Joe Ell's lodging house, to be erected on Garden street.

"There are some handsome dwellings under consideration, among them a \$10,000 home for Mrs. Lina Sturgis, on Water street. There are also many smaller dwellings being built. In fact, the building of cottages and comfortable homes has never slackened for the past several years and this fall will see no exception. While there is no crowding among the local builders and carpenters they are kept busy most of the time, and there is no slack time in sight."

Scarcity of pickers is delaying the harvesting of the hop crop in Lane county.
