It will pay you to investigate these city property offers.
Some splendid wheat and grazing land close to town. If you have money to invest in real estate, see me.

HOMESTEADERS LOCATED.
W. F. EARNHEART, Association Block.

CARELESS WRITERS

GIVE POSTOFFICE DEPARTMENT LOT OF TROUBLE.

Many Letters Are Delayed in the Mails by Bad Writing—Foreigners Are More Careful.

Little more than 25 per cent of the paper mail coming to the citizens of Pendleton and which goes through the local postoffice is addressed properly, according to the statement of the employes of the office. The reason for this is because those who send for papers or periodicals do not address their letters properly when sending for them, and consequently a great deal of trouble is experienced in getting their mail on time.

Still more difficulty will be experienced when the free delivery is established. Then it will be necessary for all of the mail to have the street and number on it and in this way there will be a double chance to make mistakes in addressing mail. Letters are sent to the publishers of periodicals and publications that half the time the writer unthoughtfully writes so carelessly that the name and address cannot be made out correctly and the matter is delayed until it is stale.

About the addresses of mail, Assistant Postmaster Charley French said: "Foreigners are more careful about addressing their mail correctly than the native American. Postal laws in foreign countries are more strict than in America. The result of laxity falls heavily on the hands of the postoffice employes. When anything is sent wrong the blame is always laid at the door of those whose hands the mail goes through and not at the door of the careless writer. Most of the trouble comes, however, from there being so many men of the same name. Suppose there are several men of the same name in a city and a magazine comes addressed to one of them with the initials torn off or obliterated, as is often the case, with names stamped on the wrapper. What then is to be done? If there is a street and number on the label the man can be found with little trouble, but if this is not the case the postoffice employes keep searching until the right man is found.

"It is not the postoffice employes who suffer most inconvenience from carelessly addressing mail, but those who receive mail suffer. If mail is always properly and plainly addressed there is seldom a mistake and prompt delivery is always the case."

MINES CHANGE HANDS.

Pendleton Men Interested in Big Deal in Mining Stock.

Deeds were filed for record with the county recorder at Baker City yesterday showing the final steps toward the incorporation of the South Pole Consolidated Gold Mines Company. The company secures the balance of the Villard claim, a one-fourth interest, from Peter Hasche and wife, the consideration named in the instrument being 400,000 shares of capital stock.

Andrew Hansen, of Bourne, for the sum of \$150, relinquishes title to the Yankee Jim claim, upon the North Pole vein, to J. H. Robbins and J. H. Raley, and gives them possession of the Hansen placer claim adjoining the Deer Lodge claim upon the north. For \$500 additional he relinquishes right, title and interest in the Oregon Clipper, Deer Lodge and the north half of the Yankee Jim claim. A second instrument shows the transfer of these claims, which are in Cracker Creek district with the other holdings, by Messrs. Robbins and Raley to the company for \$10. Hansen is given 4,599,997 shares of capital stock. As the company was incorporated for 5,000,000 shares, there are but three shares remaining.—Herald.

CLAIMS TO HAVE BEEN ROBBED.

F. Skogland Says the Robber Overlooked a Good Thing.

F. Skogland complained to the police Tuesday morning that he had been robbed. He is rooming at 610 Johnson street and during the night his trousers were taken from the room and have not yet been found. In the pockets of the trousers were a purse containing two certificates of deposit, calling for \$250 each, and about \$50 in cash. Skogland claims that had the burglar looked around he would have found more money. When he retired for the night, he says, he laid 11 \$20 gold pieces and several \$10 gold pieces, amounting to about \$350, on the dresser. This was overlooked and only the trousers taken with their contents. An attempt was made to keep the matter quiet.

MISS ELIZABETH HALE.

Star Actress Calls on East Oregonian and Speaks of Pendleton.

Miss Elizabeth Hale, gave East Oregonian a pleasant call this morning. Miss Hale is a very pleasant conversationalist as well as very intelligent. She likes Pendleton very much. She has played in the largest cities of the country and has received flattering newspaper comment. Speaking of the "roast" in a local paper this morning, she said it was the first she had ever received, and instead of the play be-

ing the kind described it was entirely the opposite. Marie Wainwright starred in the play all last season. The company will put on "Treachorous Sands," a comedy-drama, this evening.

ON THEIR RESPONSIBILITY.

Umatilla Indians Work Out Their Own Salvation.

A dispatch from Washington, D. C., says:

The recent abolition of the old Umatilla Indian reservation in Eastern Oregon, and the discontinuance of the office of Indian agent, is in line with the general policy of Indian Commissioner Jones, who believes at the proper time in throwing the Indian on his own resources. It is not all Indians that can now be so treated, but the Umatillas have their own allotments, the younger generation has been educated and given a start in life, while the older Indians have it fully within their power to sustain themselves without further aid from the government. Under these conditions, Commissioner Jones believes it would retard the progress of the Umatillas to longer keep them under agency restraint.

The former agent, Charles Wilkins, has made a good record since he has been stationed at Umatilla, and for this reason he was retained in charge of the school system as bonded superintendent. This office is a little more than superintendent, however, as Mr. Wilkins will be expected to act as general adviser of the Indians and to render such assistance as they may need from time to time. At the same time he will not exercise his former control over them. The Indians are to be given every liberty and privilege that is enjoyed by their white neighbors.

Under the new condition education will be the paramount aim of those in charge of the Umatilla Indians. The school, already very efficient, will be continued and possibly broadened to a slight degree, but, whereas under the agency much attention was paid to the care of the Indians outside of the schools all efforts will now be concentrated in one direction. Commissioner Jones believes that the only way to make the Indian a self-supporting citizen is to launch him forth in the world, cut loose all government support in the way of annuities, give him his own land and instruct him as to how to use it, and then let him work out his own future. Conditions at Umatilla are such that this can be done, and no doubt is felt as to the outcome. The Umatillas are a comparatively forward tribe, and there is no apparent reason, in the department's eyes, why they cannot succeed, as a number of other tribes have done before them.

This change at Umatilla is the same as was made at Yakima, Wash., several months ago. Those Indians already were found in fit condition to be thrown upon their own resources, and their agency was likewise abolished, the whole being placed in charge of a bonded superintendent.

Objects of Charity.

At this time of year many objects of charity are seen in every town working the sympathetic act on the people for a living, but more of this class have hit Pendleton within the past month than ever before in the same length of time. Not a day passes that men and women are not seen on the streets asking help. Among them are blind, lame and maimed. The latest object to come to town is a blind man accompanied by a woman with but one arm.

STILL ON THE JUMP

PRICE OF WHEAT GOES UP TO 52 CENTS—FARMERS HAPPY

The High-Water Mark Reached Today in the Local Market—One Cent Advance Over Recent Price.

Wheat has taken another jump upward and the farmers are jubilant. Today it is quoted at 52 cents, the high-water mark for the season. Wheat opened at this figure when the 1902 crop quotations first came to Pendleton, but it only remained at this figure for a few days and dropped to 48 cents. It remained at 48 cents for several days and when the new freight rate went into effect it went back to 50 cents. One-third of the wheat in Umatilla county was sold at this figure, where the price remained for many weeks. Many of the conservative farmers held onto their crops and said the price was not what the Eastern markets justified, and declared their faith in a raise, although little encouragement was given out for this stand by the local dealers. Several days ago it again began to fluctuate and first went to 50½. A few days later 51 cents was quoted. This was the prevailing price until yesterday, when it jumped to 52 cents.

Stephens-O'Connell.

Rev. Father Neate returned Tuesday evening from Umatilla, where he united in marriage Alfred B. Stephens and Miss Cathryn B. O'Connell. The wedding ceremony was performed in the Umatilla hotel, of which Miss O'Connell is proprietress and in the presence of many friends of the contracting parties. Friends were there from here, some from Walla Walla and Meacham. The bride is well known and popular in Umatilla, and the groom is a business man of that town. They will make their home there.

ST. JOE STORE

We are now showing the largest and most complete stock of Coats, Capes and Jackets in the city. All the goods from the manufacturers, direct.

We have also just received direct from the manufacturer a full and complete stock of

LADIES' FURS
