Uncle Sam, in the person of 10 of
his government officials, has charge of
every department of the Hayner Dis-
tillery. During the entire process of
distillation, after the whiskey is stor-
ed in their warehouses, during the
seven years it remains there, from the
very grain they buy to the whiskey
you get, Uncle Sam is constantly on
the watch to see that everything is all
right. They dare not take a gallon
of their whiskey from their own ware-
house unless he says it's all right.
And when he does say so, that whis-
key goes direct to you, with all its
original richness and flavor, carrying
United States registered distiller's
guarantee of purity and age, and sav-
ing you the dealer's big profits. If you
use whiskey either medicinally or
otherwise, you should read the offer of
The Hayner Distilling Company else-
where in this paper.

WESTON NEWS OF INTEREST.

Brickyard Ships 600,000 Brick for Pen-
dleton Improvements.

F. M. Galley, manager of the Mil-
ton creamery, was in town Saturday,
and gave a practical test with a hand
separator at the dairy farm of Chas.
Scaroni, on Pine Creek. Mr. Galley
says the Hazlewood company intends
to do everything possible to introduce
hand separators in this vicinity, be-
lieving that when once their advan-
tage is once determined farmers will
no longer bother about making butter,
but will ship the cream.

Blackleg has appeared among the
cattle of Couse Creek residents, Na-
than Sams and William Winn having
each lost two head from this disease.
Those familiar with blackleg, who
have seen the afflicted cattle, say there
is no doubt about the correctness of
this diagnosis, as the symptoms are
plain. The flesh of the swollen leg
turns black, and fat cattle are the
first to suffer, while poor stock seems
to be comparatively immune. Angus
McDonald and Frank Winn are vacci-
nating against the contagion, this be-
ing accomplished by drawing a pre-
pared thread beneath the skin.

The Weston brickyard has been ex-
periencing the usual active demand
for its products during the busy
building season. In fact, it is exceed-
ing the business of former years at
this time, and the year 1902 bids fair
to go down in history as the most pros-
perous witnessed by the yard. Ship-
ments for the new Sisters' hospital at
Pendleton have just been finished,
amounting to 400,000 brick. The yard
has shipped 300,000 brick for the new
Baumeister building at Walla Walla,
and will soon fill a 200,000 order for
the new Pendleton Academy building.
There are other large orders in pros-
pect, although the contracts have not
yet been entered into. The brickyard
employs an average of about 40 men,
the force being sometimes greater and
sometimes less than this number.
When the present season closes it will
have made about 4,000,000 brick,
worth \$28,000. By far the greater por-
tion of this amount is expended dur-
ing the year for labor and wood, and
finds its way directly into local cir-
culation. And yet nearly every dollar
of it comes from outside the commu-
nity.

Weston Normal School Notes.

The wooden wing of the old nor-
mal building is to be converted into
a much-needed addition to our plant.
This will accommodate a number of
young men who can be provided with
board at the young ladies' hall.
President Martindale returned on
Monday bringing with him his 8-year-
old son, who has been quite ill since
his arrival. Mrs. Martindale went by
way of Prineville to prove up a
timber claim and arrived Thursday.

Mr. J. N. Conklin, a brother of E. B.
Conklin, principal of Pendleton public
schools, was a visitor on Friday. Mr.
Conklin is a teacher, though not now
teaching. He taught last winter at
Island City, Union county.

President Martindale has outlined a
lecture course for the winter and
already has secured Hon. J. H. Acker-
man, who will be with us in October,
and Judge Lowell, always acceptable
to a Weston audience, who will prob-
ably be listed for February.

Rev. W. E. Potwine of Pendleton,
conducted devotional exercises at the
chapel on Wednesday morning, and
gave to teachers and students a short,
but very profitable talk, emphasizing
the thought that education consists
in developing the physical, mental
and spiritual, and not in "pouring in"
instruction. We hope Mr. Potwine
will visit us often.—Leader.

What is known as the Western
crowd on Wall street has been hit
hard the last three days, losing some-
thing like \$10,000,000.
