

You always get GOOD GOODS at Alexander's.

Cheap Goods

We have them. Not poor goods cheap, but "good goods" at moderate prices. This fall we have a larger, better selected, lower priced stock of dry goods than ever before.

ADIES' GOLF VESTS—In a large variety of bright colors. Pure wool trimmed with flat brass buttons. A new fad, these, but very practical. Priced at \$2.48, \$2.25, 98c.

SIERY FOR WOMEN AND CHILDREN—This is the season that you should be looking towards us for warm foot covering. We have an abundance to choose from, some all wool, some part wool, some ribbed, some plain. All are soft, firm but elastic. Per pair, 48c, 35c, 25c, 19c.

EADED CHATELAINE BAGS—An elegant, big, grey leather bag with oxidized silver mountings, heavily covered and fringed with bright cut steel beads. The usual \$5, \$3 and \$1.75 kind, this week for \$2.48, \$1.98 and \$1.00.

THE MILTON TROUBLE.

District Court to Pass Upon Legality of Social and Commercial Club.

The case of William Prentice, charged with selling liquor without a license, has been taken into the district court.

Prentice is the manager of the Milton Social and Commercial Club, organized in that city for the purpose of affording the members a place of amusement, where they could play cards and secure refreshments. Considerable trouble has grown out of the alleged sale of liquors by Prentice without a license. This suit grew out of the arrest of Prentice several days ago at the instigation of S. A. Miller, charging him with selling a glass of beer to James Harris in July. Prentice was taken before Recorder Ingle and fined in the sum of \$200 and in default of payment of the fine was to be put to work on the streets of Milton one day for each \$2 of the fine.

The petition filed in the circuit court Monday afternoon asks that the recorder of Milton be required to leave defendant alone until the matter is settled in court and that the recorder be compelled to turn over all of the books and records of the trial and case, together with the evidence and that a stay of proceedings be granted until the circuit court passes upon it. The order for the stay of proceedings was granted and Prentice ordered to give bond of \$250 for his appearance at the October term of court.

The city ordinance of Milton is attacked in the petition of Prentice. It alleges that the case filed against him fails to show evidence sufficient to constitute a crime and that no part of the city ordinance covering the case has been violated and that the said city ordinance alleged to have been violated, is in violation of the city charter of Milton and the act of the legislature creating said charter, therefore making the ordinance void.

It is also alleged that the city recorder of Milton overstepped his authority in the case in refusing to allow defendant to introduce any evidence in his own behalf.

Bulleray & McCort are attorneys for Prentice and the title of the petition for the writ to stay proceedings is entitled William Prentice vs. Milton city and G. W. Ingle.

THE VILLAGE BLACKSMITH.

D. B. Richardson Wants to Foreclose Mortgage on Shop in Helix.

A case which occupied the attention of Judge Ellis in the equity court yesterday was that of D. B. Richardson vs. McEachern and McCorkell. The principals in the suit are from Helix and the complaint was filed against defendants to foreclose a mortgage on a blacksmith shop and its contents, together with a newly-patented weed cutter, for an alleged debt of \$2800.

McCorkell makes no defense but McEachern answered the complaint by asking for damages in the sum of \$5000 for being turned out of the shop. The defense in the latter charge is that McEachern quit work on his own accord and was not stopped or turned out by plaintiff in the suit to foreclose mortgage.

The suit is still hanging fire. R. J. Slater and J. T. Hinkle are attorneys for plaintiff and T. G. Halley appears for the defense.

Franklin vs. Franklin.

Through her attorney, Peter West, Sabina W. Franklin has filed suit against her husband, Benjamin Franklin, for divorce. Desertion is the charge. Mr. and Mrs. Franklin were married at Dayton, Wash., in December, 1900, and in July, 1901, defendant deserted plaintiff, who asks that she be given back her former name of Sabina Leech.

Forster vs. Kidder.

Robert Forster has filed suit against George W. Kidder for judgment in the sum of \$94.95, with interest thereon from the 23d day of October, 1902. Carter & Raley are plaintiff's attorneys.

Killen—Do you think we shall ever civilize those bloody Moros? Byrne—Sure—in a couple of hundred years. Look at our success with the Indians.—Chicago Tribune.

Mothers and Children

Rejoice in the cleansing, purifying, and beautifying properties of CUTICURA SOAP and CUTICURA Ointment, purest and sweetest of emollient skin cures. BIG BUSY BOSTON STORE

BEEF FOR SOUND CITIES.

Five Hundred and Twenty-five Head of Fine Cattle Shipped Over the W. & C. R.

Exactly 525 head of cattle were shipped from the W. & C. R. stock yards over the "high line" last night. They were bled to Frye, Bruhn & Co., of Seattle and were choice beef cattle from the interior. This is the first shipment of the large amount of cattle, spoken of in the East Oregonian several days ago, which were being driven to Pendleton for shipment to Sound cities. These are for local consumption and shipment into the Klondike.

Another shipment will be made in a few days much larger than the one last night, and 24 cars have been ordered to handle it. These 24 cars will contain 840 head of cattle and will also go to the Sound. The bulk of the shipment of cattle so far is to the Sound cities and it will not be many days at the present rate until most of the range beef will be gone from the John Day country. These cattle are all choice animals and show what the interior is capable of producing for the outside world.

REGARDING IRRIGATION.

Information Desired at Washington, D. C., in Order to Begin Work.

The growing demand for water for irrigation purposes emphasizes the need of more detailed information concerning the results and methods of irrigation from artesian and surface waters. The census of 1899 showed that the area irrigated from wells is greatly increasing, and that the results in most sections of the country are eminently satisfactory. Approximately, 186,000 acres were irrigated in that year from wells, the value of the irrigated crops ranging from \$50 to \$1000 per acre.

In the humid states well irrigation is utilized to supplement the insufficient rainfall during early spring and summer. In the west the water pumped from wells insures the home garden and the orchard against total failure through a rainless season.

In California, Colorado, Louisiana, Florida and several other states the waters of flowing artesian wells are

successfully applied to large areas, or are used to augment the shortage in the streams during the irrigating season. In order to obtain the important facts relating to irrigation from these resources, the census office will soon send out inquiries to irrigators from wells, whose names were reported by the enumerators. As this list is not complete, the director asks that irrigators who do not receive these inquiries will send their names to Mr. L. G. Powers, chief statistician, census office, Washington, D. C., and blanks will be mailed to them at once.

It is requested that all who receive these inquiries answer the same as fully and accurately as possible, and promptly return to the census office.

COMPLETE NORTHWEST ROAD.

Preparations to That End Begun at Huntington, Or.

The prospects of the completion of the Northwest railway into Huntington, look brighter now than at any time since Ormann & Crook quit work on the grade three years ago, and it is probable that work will be resumed before snow flies this year.

C. M. Conrad and F. E. Curtze, of Erie, Pa., accompanied by F. E. Pearce, manager of the Iron Dyke mine, arrived in Huntington last Saturday afternoon from Baker City. These eastern gentlemen had just returned from an inspection of the Iron Dyke mine, on Snake River, in which they are heavily interested. They are also largely interested in the Northwest railway, and came here for the purpose of looking over that part of the road which has already been graded, with the intention of completing the work.

Settled the Claim.

Baker City, Sept. 30.—Major Hall, claim agent of the O. R. & N., has affected a settlement with the relatives of S. B. Early, the switchman who was killed in the Huntington yards last July by having his foot caught in a frog. By the terms of the agreement, Mr. Early's relatives will receive \$1250. F. P. Bodinson, of Baker City, has been appointed administrator of the estate.

No Man

is more interested in securing his family against want than the wage earner. You can buy your life insurance at lower rates now than you can a year hence, when you are older.

Why not buy it in the company that has larger assets and has paid more to policy-holders than any other life insurance company in the world?

Assets, over

\$352,000,000

Amount paid to Policy holders, over

\$569,000,000
