## REGISTER A KICK

### TOO MANY MEN CALLED OUT FOR THE SMALL FIRES.

A Needless Expense to the City and a Useless Procedure to Call Out More Than One Hose Company.

A vigorous kick has been registered by citizens of Pendleton because the general fire alarm was turned in Monday night during the fire which destroyed the residence of Robert Laing, on Bluff street.

The city is divided into wards and each ward is supposed to take care of its own fires unless it is deemed necessary for other wards to help out in case of one not being able to protect the property or cope with the fire. Monday night the fire which destroyed the Laing property was in no danger of spreading to adjoining property other than the outbuildings of Mr. Laing's and the one hose company having the fire under their supervision was all that could do anything, and in fact it was so badly handicapped on account of the fire being so far away from the hydrants and so high above the city that when the water was turned on little force could be secured, and it could do nothing toward saving the building.

The general alarm was turned in after the fire had spent its fury and it is claimed that there was no need of any assistance from any of the other hose companies. It is claimed that some one who had no authority, turned in the general alarm and much speculation has been indulged in as to why it was done.

The city pays each member of the fire department \$1 an hour for the time spent fighting fires and when the whole force is called out it is a big expense to the city.

There are six companies, besides the hook and ladder company and each of these is supposed to contain 12 to 15 members. It is safe to say that it costs the town in the neighborhood of \$100 an hour every time the general alarm is turned in.

Complaint has been made of this character before. The firemen, themselves, have called attention to the extravagance. One case in particular was that of the second call of the Schultz brewery fire. It is claimed that several days after the brewery was destroyed that fire broke out in a pile of sawdust and that the general alarm was turned in, costing the town nearly \$100, when one company with one hose was all that was necessary.

It is claimed that the alarms are turned in by persons unacquainted with signals; that when a fire breaks out, in the excitement any citizen is likely to rush for the bell and does not take time to read the instructions painted in large letters near the bell, but rings the bell for all it is worth. In this way the general alarm is turned in when it should not be.

If the work was left to the firemen such mistakes would not occur. In each fire ward there is a hose house, over which is a bell. This bell should be rung for an alarm of fire in the respective wards. In case of a large fire, or where the chief thinks it necessary to call out the entire department, he does so.

Some arrangement should be made whereby only those familiar with the signals should be permitted to turn in the alarm. The haphazard way of anybody and everybody turning in the alarm and running the city into a heavy cost in case of sawdust fires and other unnecessary occasions should be guarded against in the future.

#### CLOSED WITH GRAND BALL.

Walla Walla Fruit Fair Broke All Records in Attendance.

Walla Walla, Oct. 1.—The Walla Walla fruit fair closed last night with a grand ball, in which hundreds of couples participated, and which thousands enjoyed. The fair remained open two days longer than was at first intended, in order to give all a chance to attend and allow the man-

agement a chance to give the people such a ball as had never been seen in the city. The Walla Walla band furnished music for the occasion, and the dance was conducted in a highly satisfactory manner.

The attendance to the fair was not so large by daily average as it was last year, but on Saturday a monster crowd gathered. A wedding was arranged for Sunday night and a big crowd assembled, and again Monday night a couple took the sacred vows in the presence of a fair-sized audience. The total attendance is considerably over 20,000, the record last year.

#### Campaign Opened.

Walla Walla, Oct. 1.—The republican campaign will be formally opened here tonight, when Congressman Francis W. Cushman and Hon. Samuel Stern, of Spokane, will address the people at the fruit fair pavilion. The Walla Walla band will furnish music, and a large crowd is expected. The fair management has arranged to allow the exhibits and booths to remain intact until after the meeting tonight.

#### Off for the Encampment.

Walla Walla, Oct. 1.—Colonel C. B. Bedell, commander of the Grand Army of the Republic for the division of Alaska and Washington, left this city last night for Washington, D. C., to attend the grand encampment of the society. He was accompanied by Assistant Adjutant E. W. Elliot and Chief Trumpeter Thomas Corn. The party will be absent several weeks.

General Alger has accepted the appointment as senator from Michigan.

## Mercury and Potash

### ONLY SERVE AS A MASK FOR CONTAGIOUS BLOOD POISON

They hide its repulsive form, and this serpent disease, stupefied by these drugs, lies dormant until the effects have worn off or treatment is discontinued, when it breaks down the mask and becomes as full of life and activity as ever. Mercury and Potash may dry up the sores and eruptions, but time they drive the poison back into the blood and system upon the tender tissues, membranes and nerves, finally most disgusting sores and even destroying the flesh and bone.

Mercury and Potash cannot accomplish a radical cure like disease. These drugs produce mercurial Rheumatism, teeth and corrode the membranes of the stomach and bowels, maturation and dyspepsia, nervousness and general derangement.

S. S. S. is a Specific for Contagious Blood Poison, and for the peculiar virus that spreads so quickly through corrupting the blood and infecting every organ and fibre of the body.

S. S. S. destroys the serpent every atom of poison from the system, and a thorough and radical cure of the same time builds up the general system, contains no minerals of any kind, is a vegetable remedy and we offer \$1,000 for proof to the contrary.
