Man wants but little here below.
This statement causes mirth;
It may have been so long ago,
But now he wants the earth.

I have some very desirable pieces of Earth for sale, located in and about Pendleton.

Choice city property, ranches and farms at bargains.

EARNHEART,
THE REAL ESTATE MAN

MORE LITIGATION.

Another Suit Filed Involving the Subject Matter of the Athena Flouring Mill Company.

A suit was filed in the circuit court this morning by the Northwestern Warehouse Company against the First National Bank of Athena, for judgment in the sum of \$765.25.

This suit is the culmination of the many suits filed last winter against the Athena Flouring Mill Company. The allegations are that plaintiff purchased warehouse receipts from defendant for 1000 sacks of wheat stored in the Athena Flouring Mill Company's warehouses and the wheat was delivered to plaintiff and shipped away.

Later J. M. Walker sued the plaintiff in this suit for the recovery of the price of 570 sacks of the wheat and secured judgment against it, claiming that this much of the wheat belonged to him. When this action was brought the Northwestern Warehouse Company notified the First National Bank of Athena, to appear and answer the suit. This was not done.

Plaintiff alleges further that the defendant in this action well knew it did not own the 1000 sacks of wheat sold to plaintiff and that only 430 sacks, called for by the receipts, belonged to them. Complaint says: "The statement made by defendant, the First National Bank of Athena, was false and fraudulent and was done for the purpose of defrauding defendant out of 570 sacks of the said wheat."

Since the court rendered judgment for Walker against the Northwestern Warehouse Company it is alleged the First National Bank of Athena has been requested to pay the judgment and reimburse the plaintiff in the damages received. Balleray & McCourt are plaintiff's attorneys.

EDWARD KLINE DEAD.

Has Been an Invalid Since Last January—Died in Portland.

Edward Kline, 13-year-old son of Mr. and Mrs. A. Kline, of this city, died in Portland last night.

This young man had been an invalid since the 6th of last January. A few weeks prior to his becoming sick he and some comrades were playing with a baseball and he was struck in the groin with the ball. This was thought to have caused his first sickness which became serious and the young man was taken to Portland a few weeks later where he was operated upon. This relieved him slightly, but he never got over the effects of the injury and word was received here this morning of his death last night after intense suffering.

Mrs. Kline has been in Portland several weeks with her son and Mr. Kline left this morning for that place.

LARGE WHEAT STORAGE.

Three Million Bushels of Wheat in W. & C. R. Warehouses.

General Passenger and Freight Agent Calderhead, of the Washington & Columbia River railroad, who is in town today looking after the business of the road, had the following to say about the shipping of grain and the amount stored along the "high line."

"More than 3,000,000 bushels of wheat has been warehoused along the line and 60 days' work moving it is in sight at the present time. This includes the length of the line in Umatilla, Walla Walla and Columbia counties. It is estimated that 4,500,000 yet to be hauled. This incoming rush, for nearly everyone wants to haul now is what is causing the crush at the warehouses where cars can be secured.

"It will take from 50 to 60 cars a day for two months to move the grain along the W. & C. R."

NEW ACADEMY CORNER STONE.

Foundation Completed and the Corner Stone Will Be Laid Monday.

Arrangements are being made by President Forbes and others in the lead of the building of the new Pendleton Academy, north of the river, to have the corner stone laying services next Monday. The full arrangements and exact time of day has not yet been set.

The corner stone is of handsome gray granite and the letters, "Pendleton Academy, 1902," are being carved in the side which will front toward the street.

Work is being pushed on the new building by the contractors and it is the intention to have it completed and ready for occupancy by the first of the year.

SEATS NOW ON SALE.

A Great Rush is Being Made for Seats to See Warde and James.

The big theatrical event of the year will be the appearance of Louis James and Frederick Warde at the opera house on Thursday night in Wagenhals and Kemper's stupendous spectacular production of "The Tempest," with Mr. James as Calliban and Mr. Warde as Prospero.

No theatrical offering in many seasons has aroused such a widespread interest as the joint appearance of these distinguished players, and their engagement will undoubtedly attract

a crush. "The Tempest" has not been seen in this country since its memorable production by the late Augustin Daly. Managers Wagenhals and Kemper spent the whole of last summer in superintending the work of the scenic artists, the costumers, the property makers, the electricians and that of others engaged in the preparation of their splendid production. Nothing of equal beauty and magnitude has been shown on our local stage. The several scenes of the play are laid on an enchanted island, the first being that of the great storm and shipwreck, in which the howling of the hurricane, the roar of the waves, the frightened shrieks of beast and bird, and the impending destruction of the ship on the rocks is vividly represented. By the aid of gauze effects and electrical device the whole scene gradually changes to the yellow sands, showing the peaceful forest sunshine. Other notable scenes are Calliban's Cave, Prospero's Cell, the Magic Banquet, the Dance of the Demons and the transformation scene representing the departure of the ship for Naples.

The organization which includes a ballet and chorus numbers 47 players. The music was composed by the eminent musician, Mr. Maxime De Grosse. As the great scene of the storm and shipwreck opens the play the audience is requested to be seated before the rise of the curtain.

New box seats are now in place and a number of box parties are expected.

Fossil Flora of the John Day Basin.

In bulletin No. 204 of the United States geological survey, now in press, Mr. Frank Hall Knowlton discusses the fossil flora of the John Day basin, situated in the north central part of Oregon, chiefly in Grant county, and covering an area of about 10,000 square miles. The history of exploration in the John Day basin and of the geological investigation in the region is given, and then follows the discussion of the flora. The fossil riches of the John Day basin were first brought to scientific attention between 1860 and 1870. The known fossil flora of the basin are all of Tertiary age. The bulletin is illustrated by 17 plates, containing many figures.

Oil-Burning Furnaces Next.

Washington, D. C., Oct. 2.—The inventors of the country seem to believe that a revolution is about due in the present method of heating houses, hotels and large buildings. Certain it is, that there is a phenomenal rush for patents on all sorts of devices for converting furnaces and stoves into consumers of gas and liquids. This undoubtedly has been caused by the high prices of coal and the discovery of oil in California, Texas, Louisiana and other southwestern states.

Death of General Hughes.

Denver, Oct. 2.—General Bela Hughes died here today of pneumonia. Deceased was 86 years of age. He was at one time president of the Overland Stage Express Company, and first president of the Denver & Pacific Railway.

"Your hair seems to be falling out" remarked the barber, briskly wielding the shears. "I think I can save it."

"All right," said the customer. "Save it if you want to. I've got no use for it."—Chicago Tribune.

FOOTBALL AT BAKER CITY.

High School Team Preparing for a Contest With Pendleton.

Pigskin kickers of the high school are trying hard for places upon the season's eleven which is about to be organized. The boys are practicing each afternoon at the ball park and the material offered for the team is probably the best yet to be picked from.

The first game will be played here with Pendleton Thanksgiving day. Pendleton has promised to send a coterie of representatives that will surprise the Gold Diggers, but the local ballists opine that they will be upon the side of fortune as was the case last year when the bested all comers. It has not been determined as yet which men will be picked for the positions, but it is thought most of last season's eleven will be brought into the new team.—Herald.

A Horse Stolen.

A horse and saddle belonging to I. Harris, was stolen from the hitching rack at the Methodist church Wednesday. The horse had been ridden by one of Mr. Harris' boys, who is attending school. At least the horse has mysteriously disappeared and the theft of the animal is the only theory which Mr. Harris has in regard to the affair. The horse was a bay and was branded I. H. and J. D.—La Grande Chronicle.

Going to Build?

Before deciding on any plan or designs for your home or business house, you will save much time, money and annoyance if you will consult C. E. Troutman, architect and superintendent, room 15 Association building. Sketches and reliable estimates furnished free on application.
