BECOMING PLENTIFUL

By the Time the Law Expires Pro-Whites," There Will Be Millions of Them in This County.

Wells Saturday evening.

he country where these birds have boxes of soan to be taken to their mothers, sisters and sweethearts. they are to be found on every stream

Mr. Wells said that with the pres ent increase there would be millions of these birds in this county by the time they may be hunted. Then they will be so plentiful that with proper plenty of chance to try their skill for years to come. This was the idea of bringing these birds here. game birds are becoming somewhat extinct and the sportsmen realized that something had to be done or the time was coming that to go out with a gun to shoot birds would only be a waste of time. As this country was thought to be an ideal place for quall on account of the grain fields and the mild winters, the idea of importing them and protecting them for trial was hit upon. The project has undoubtedly proven a success and all true followers of isaac Wal ton are rejoicing at the success of the experiment.

The most stringent methods have been used to protect these birds. Some complaint has been heard about people killing them and one or two arrests and convictions have been made, but it is thought now that few, if any, are disregarding the law and slaying them. Last spring the Japs, employed by the O. R. & N. railroad company, were said to be killing them occasionally and an arrest was made and the guilty fined heavily for killing robbins, but no positive evidence could be produced to convict them for killing quail This, it is said, put a stop to a great extent, to these men carrying guns and going shooting when they were not at work.

Deputy Warden Wells says now that the worst enemy the quail has is the small boy who is just beginning to carry a gun and goes out in the brush hunting. The quall are said. They are curing Bright's Discase to be very tame and these boys are and Disbetes in California. The per-

Some complaint has come from the the reports, east end of the county, along the P. W. SCHMIDT & CO., Pendleton state line, that men and boys are coming over from Walla Walla county and are shooting quall and cross ing back onto Washington soil be fore the Umatilla county officers can get at them to make an arrest. This is the second trip Guye has made to the Orient within the past five years, and this time took with him about 150 bars of fine tollet soap.

It is becoming the custom of the OOMING PLENTIFUL Chinese, when they return to their ALONG STREAMS OF WATER, native heath, to take with them all the toilet soaps they can get through as baggage. This, it is said, is for hibiting the Killing of "Bob the purpose of introducing American products in China, this being one product which is not produced in China with as great perfection as is done "There are thousands of quall here. Every Chinaman goes back thoug the streams in Umatilia countiaden with this soap. If he does not said Deputy Game Warden T. B. want to take all that he can pass as baggage for himself and relatives, Mr. Wells has been over most of his friends here load him down with

This has become such a wide many miles around Pendleton, spread practice within the past few Only a rew years ago these game years that the soap shipment while birds were imported to Umatilla it does not appear at a glance would ounty by local sportsmen and torn-amount to much from this source, and loose to smultiply. The legislature has assumed large proportions. It is passed a law protecting them with a said that San Francisco, containing heavy fine and imprisonment for any, more Chinamen than any other city one killing them and this law will not in the United States, has regular expire until the first of the year, supply depots for supplying China-men with tollet soap to take home. Guyer will return in a few months.
