RAIN IS NEEDED.

Fall Seeding Being Lelayed by Lack of Moisture,

The wheat growers of Umatilla county would like to see another soaking shower of rain.

Two weeks ago the first hard shower fell and at that time the soil was almost wet enough for seeding, but this was delayed as it was a little early and now that many are wishing to begin seeding they would be pleas-ed to have the elements favor them. The rain has barely been heavy enough so far, to start the weeds on summer fallow and the farmer rareputs his seed into the ground until

The im-plement men were rushed for a few days with orders for drills and seeders and the outlook was good for early fall seeding. Operations along this line have had a setback, however,

CATTLE TO WINTER QUARTERS. Many Head Will Be Fed on Butter Creek This Winter,

Cattlemen in town today from the Butter Creek country tell that many cattle are being rounded up in the hills and brought in to winter range

It is estimated that between 5000 the obnoxious kind which come up with the early showers. After the first hard rain, the farmers, especially those a few miles from the foot-last year was in the neighborhood of last year was in the neighborhood of 4000, but there are indications of at least 1000 more this fall and winter. These cattle are mostly 2 and 3-year-olds and will be marketed during the winter months. They will bring from \$40 to \$50 a head and will bring a line have had a setback, however, nice sum of money into the country and at present all are praying for to be distributed through the trade

channels of Umatilla county. One reason for the number handled this season being larger than usual is in a few places near the foothills and because of the continued good prices in the most backward portions of the for beef. Many stockmen have gone FIRE WHITE LODGING HOUSE, 801

A WORD FOR SHEEP.

After All the Sheep is Abused. It seems that the sheep is an animal with few friends and many ene mies, Over in Idaho the law which provides that no sheep shall be run within two miles of an inhabited dwelling is a crushing blow to the great sheep and wool industry. In Wyoming, Montana, Oregon and all of the Western sheep producing states, there is uncalled for prejudice against the sheep. This all comes from the fact that the sheep and horses and cattle will eat up and horses and cattle will eat up the grass just the same. The time rapidly settled. Every foot of range CORNER MAIN AND WEBB STS. will be utilized and what is the diference what eats the grass. people in Eastern Oregon want the scalp bounty law repealed because it is a benefit to the sheep industry.
