Attention is called to the advertisement of Thomas Gahagan, the mining broker, which appears in this issue. He is selling the stock of the South Pole Mining Company, of which Mayor J. H. Robbins, of Sumpter, and Colonel J. H. Raley, of Pendleton, are the officers. After examining thoroughly the entire mineral section of Oregon, Mr. Gahagan states that the South Pole mine is the richest in the state.

GREAT LIVESTOCK EVENT.

International Exposition Will Convene at Chicago November 29 to December 6.

The third exposition at Chicago gives every promise of being a world record-breaking livestock event as to quality of exhibit. The breeders and feeders who made exhibits at the two former expositions acquired a knowledge of the importance of exhibiting only the best animals that can be produced. As a consequence, there will be a close weeding out of the herds, and high-class animals only will be entered. This will give room to more compactly arrange the animals and admit of ample space for visitors to move about among the exhibits.

The hotel and boarding house committee will have a full list of first-class hotels and boarding houses, enabling all who come to secure first-class accommodations at nominal prices. Stockmen and farmers attending this exposition from all points of the country make it the opportunity of the year for an exchange of ideas between men who make the livestock commerce of the world. The lowest rates of fare granted for any gathering of business interests will be in effect for this event.

TO ENTERTAIN TEACHERS.

More Than Two Hundred Are Expected Here During Institute.

A large number of teachers are expected to be in town during the coming teachers' institute to be held here from October 29 to 31. Teachers will be here from all over the county and many distinguished guests are expected from out of the county. To accommodate these teachers County Superintendent Nowlin will have to get the assistance of many private families, as the hotels will not hold all who will be here and to this end the superintendent has asked that all having rooms and board and can care for one or more of the visitors to let him know either personally or through the mail. Give the number who can be entertained and price.

PLENTY OF RAIN.

Is Worth Many Dollars to Farmers and Stockmen.

Forty-five one-hundredths of an inch of rain has fallen in Pendleton this week. While this is not a record-breaker, it is a record for this time of year.

Tuesday night was the hardest shower since the dry season broke, when .041 inches fell in less than six hours. Wednesday night it rained again, but during the whole night not more than .004 fell.

These rains are just the thing for the country. Farmers and stockmen are jubilant. Farmers have begun to seed and by next week many acres of wheat will have been planted. Stockmen appreciate the rain because it gives the ground moisture and starts the grass to growing.

Effect of Strike on Election.

The election toward which everyone is looking with interest is likely to produce more than one surprise this year. The people who vote can not quickly forget the suffering brought upon this city by the coal strike even in the enthusiasm of an election and no one can tell what the November effect of the strike will be. It will certainly be at least three months before New York will have anything like its normal supply of coal and cold weather and a coal famine together might have an extraordinary influence on voting. It is true that the republican leaders argue that they are in no way responsible for the scarcity of coal and point to the president's efforts in bringing about a strike settlement, but the people may not take that into account when it comes to voting. Considering the matter from a democratic standpoint, on the other hand, it should not be overlooked that the democratic platform proposes a very definite plan for making a coal strike an impossibility in the future. Though this is the most socialistic plank ever put into the platform of a leading party and is not popular with conservative business classes, it appeals powerfully to the imagination and feelings of thousands of voters, and it is an idle attempt to measure the effect of the plank on the coming election. The party in power invariably suffers from a public calamity and no one has hesitated to regard the coal strike as such.—New York Journal.

Spokane will have a baseball team of tetotalers next season, all players addicted to drinking having been ruled out.

MEN'S OUTFITTERS

MARY E. RHODES DEAD.

Passed Away of Heart Failure at Her Home Wednesday.

Mrs. Mary E. Rhodes died in this city Wednesday afternoon of heart failure.

Deceased was a widow 45 years of age, her husband dying about three years ago. She leaves four children, two boys, Earnest and V. Rhodes, and two daughters, Mrs. Henry Kennedy and Myrtle Rhodes. Mrs. Rhodes was born in Illinois, but had spent the last 21 years in Oregon. Last spring she came to Pendleton with her family from the farm on McKay Creek, and has since lived in town. The funeral was held this afternoon at the family residence, and the body was interred in the Olney cemetery. Rev. Robert Warren conducted the services.

Firemen's Dance.

The dance given last night by Rescue Hose Company was well attended by the dancing lovers of Pendleton. The hall was elegantly decorated and those present enjoyed the festivities of the evening hugely. Kirkman's orchestra furnished the music, which was excellent and the affair was a grand success both socially and financially.

A Milton man, under the direction of a clairvoyant, has been searching for the long lost Blue Jacket mine. After a lengthy search he gave up the quest disgusted.
