LIBERAL HOP GROWER.

Scattered 2000 Nickels on the Ground for the Children of Dallas, Or.

Dallas, Oct. 27.—In discharging a promise made to friends years ago, that should the price of hops ever reach 20 cents a pound he would throw away \$100, W. C. Brown, a retired Dallas merchant, now a hop-grower of this place, scattered 2000 nickels on the ground for children to scramble for.

Mr. Brown had grown hops for a number of years and sold them for 8 or 10 or 12 cents. In conversation with some friends one day he asserted that he did not believe that the price would ever reach 20 cents again, and offered should it do so, to throw away \$100 in coin. Last week he sold his hop crop for 25 cents, and immediately announced that he was prepared to fulfill his promise.

The nickel-sowing affair came off Saturday with great crowds of children in attendance. The sowing was on the courthouse square. The children were arranged in groups according to size and age as follows: Large boys, small boys, large girls and small girls. The formation was on the sidewalks and the nickels were sown on the sward and the different sections were separated by ropes.

At a signal from Mr. Brown, men employed for the purpose threw \$100 in nickels at once, this being the signal for the scramble, which was immense. Several hundred children plunged into the square clad for the occasion. For a moment the scene was novel and intensely exciting. There seemed to be an indiscriminate mixture of bonnets, hats, boots, shoes and other childish apparel. The affair passed without serious accident, every precaution having been taken beforehand, and was a great source of satisfaction to Mr. Brown.

Chicago Horse Show.

Chicago, Ill., Oct. 27.—The horse show is to be king in Chicago this week, that is, so far as society and admirers of fine horseflesh in general are concerned. With a blare of trumpets and a gorgeous turnout of wealth and fashion the third annual exhibit of the Chicago Horse Show Association opens tonight in the Coliseum. The management declares the show will be the greatest ever held in the West, and there is every indication that their high hopes for the success of the affair are justified. The country at large is taking more interest in the show than heretofore and several noted breeding establishments never before represented have sent prize-winning equines to add to the display. In all, there are 99 classes. More attention has been given to the breeding classes this year than heretofore, and several new classes have been added. French coach horses, which have never before been exhibited in the annual shows in Chicago, will come in for much attention. Aside from the \$20,000 in cash prizes to be distributed, there will be a score of silver cups aggregating about \$6,000 in value.

Goes Like Hot Cakes.

"The fastest selling article I have in my store," writes Druggist C. T. Smith, of Davis, Ky., "is Dr. King's New Discovery for Consumption, Coughs and Colds because it always cures. In my six years of sales it has never failed. I have known it to save sufferers from throat and lung diseases, who could get no help from doctors or any other remedy." Mothers rely on it, best physicians prescribe it, and Tallman & Co. guarantee satisfaction or refund price. Trial bottles free. Regular sizes, 50c and \$1.

"Oh! ain't that sweet?"

"That big one there in the corner is just too lovely for anything."

"Ain't this one with a blue dress just dear?"

"I wish my pa would buy me this one here in front."

"Florodora's" Successor.

New York, Oct. 27.—The chief novelty of the week in dramatic circles is the premier at the Broadway theater tonight of the "Silver Slipper," which is announced the successor of the popular piece "Florodora." The new production is the work of the same authors who wrote "Florodora" and is also under the same management. It comes to this country with the reputation of having already scored a big hit at the Lyric theater, London. In the cast are Cyril Scott, who had a part in the London production, and Edna Wallace Hopper, who was a leading figure in the "Florodora" production.

Eight thousand linotype machines, representing an investment of \$24,000,000, are in use in the United States today. Ten years ago there were none.
