 Universal Cook Stoves and Steel Ranges.

The Thompson Hardware Co.

Save the half of the coal you have been throwing away

One-half the carbon in soft coal is GAS. The cut shows how Col's Original Hot Blast Stove burns this gas half of the coal, which is allowed to pass up the chimney with all other stoves. This wonderful stove makes soft coal at \$2 a ton equal to hard coal at \$9 a ton. Same cleanliness and even heat day and night. Fire is never out. Come in and see them.

AT FRAZER'S.

Large Attractions to Follow Consecutively.

Haverly's Mastodon Minstrels Tomorrow Night.

Haverly's Minstrels this season put forward as their star vocalist, Geo. Morgan, a male alto, whom they will expect to create something of a sensation here. Mr. Morgan is an Englishman who has been the featured soloist of Moore & Burgess' minstrels of London, England. It is claimed that no male singer ever lived who could produce notes of the altitude of this phenomenal vocalist. He strikes a B flat above the coveted high C of tenors, and it is neither falsetto or "sneak," but a clear, ringing tone. His heretofore unheard-of range of voice, is calculated to puzzle all students of vocalism. Other prominent singers with the company are Frank Coombs, lyric tenor, John S. Roland, basso profundo, late of "The Bostonians," and Charles Richards, baritone. Prices, first 13 rows, \$1; last three 75c; gallery 50c. Box seats \$1.50. Big concert on day of performance.

Royal Italian Band.

The voicing of the Royal Italian band, which comes to the Frazer playhouse next Monday for a concert, is as different from that of the average military concert band as day is from night. To begin, there is a preponderance of reeds in this band, which is of itself a great advantage. Then the leads of the Italian band are all played by trumpets, and not cornets, which are used in the ordinary bands. The trumpet is a much more difficult instrument to master than the cornet, and has a decidedly purer and sweeter tone and greater carrying power. Nor is the trumpet the only instrument found in the Italian band that is a stranger to our organization. Oboes, French horns, bombardinos and flugelhorns are rarely heard outside of Italian organizations, and when they are used in other bands they are invariably played by either an Italian or German, generally an Italian.

Those instruments, with their pure, beautiful tones, are what have made it possible for this band to attain the perfection it has in rendering the great Italian operas and masterpieces.

"The Convict's Daughter."

One of the most novel, interesting and mirth-producing plays which it has been Pendleton's good fortune to witness, will be the popular and successful melodrama, "The Convict's Daughter," the great mechanical, electrical and scenic masterpiece, endowed this year with many new and surprising features which will be the attraction at Frazer's Thursday, October 30. The plot is too well known to call for detailed description, and at this time it is sufficient to say that the startling realistic scenes, the introduction of side-splitting comedy, and the beautiful stage settings are all that the modern theater-goer could reasonably ask for.

The cast is large and composed entirely of competent people, which, taken all in all, makes this production one of the strongest ever seen at the theater. Prices, lower floor, 75c; box seats, \$1; gallery, 50c.

"A Wise Member."

"A Wise Member," James Barror's greatest comedy, will be given an elaborate production at the Frazer on Tuesday, November 4, by C. B. Harvin and an exceptional company. As a comedy organization this company is, taken in its entirety, one of the best now on the road. The play abounds with funny situations and

Prices, first 13 rows, \$1; last three rows, 75c; box seats \$1.50; gallery, 50c.

Ground Slack Smokeless.

Cleveland, O., Oct. 28.—A novel departure in fuel feeding, with a view of obtaining smokeless results, is being tried at a large manufacturing plant in this city. With two huge mill stones slack coal is ground to dust and this is fed into the fire, burns by an automatic feeding gear and air blast. The dust, when blown into the fire burns with the freedom of a spray of oil and produces a surprising heat. One ton of slack is said to do the work of two used in the old way.

Let Us Do Your Hauling

We do trucking and hauling of all description at reasonable prices.

Your horses will be well cared for if taken to the Old Dutch Henry Feed Yard, corner West Alta and Lillith streets. Hay, grain and all kinds of feed bought and sold.

Horses for sale at all times.

NOT A RELIEF BUT A CURE

Helena, Mont., Oct. 4, 1902.
 Dr. C. A. Ferris,
 Helena, Mont.
 I wish to thank you for my relief. I was suffering agonies from piles and was taking morphine to relieve me, when, on the advice of a friend, I procured a bottle of your Ferris Pile Specific and took a tablespoonful at night and another in the morning. At half past 12 noon, my wife gave me another tablespoonful, when my pain all stopped. In two days I was able to attend my regular business entirely relieved. It was simply wonderful.
 Truly yours,
 Julius Meyhoefer, Furrier,
 Helena.
