**Violins, Guitars, Banjos, Mandolins, Accordians, Concertinas, Zithers, and Autoharps**

We handle none but the best makes, and our prices are the lowest

**Brock & McComas Company**  
DRUGGISTS

THURSDAY, OCTOBER 30, 1902.

What about Japan building gunboats for this country? Is it because labor is cheaper over there, or because they have better skilled mechanics than we?

Governor Geer may be the only avowed candidate for United States senator, but he is by no means the only one in the race. Besides those generally spoken of there are a whole lot of self-sacrificing fellows who hear the faint buzzing of the bee way up in the wrinkles of the crown of their bonnets.

The teachers' institute is doing good work. The instruction being given at all of the sessions is valuable and interesting to everybody. Such an opportunity will not be afforded the people of Pendleton to improve themselves mentally again for a long time, and every one who can, should attend these sessions.

Minstrel shows are passing and in a few more years they will be regarded as among the antiquated things that were, but still one cannot resist a hearty laugh at some of the jokes yet, even if they are a little stale. The black cork artist of today is as much a departure from the minstrel of old as day is from night.

The people of different nationalities are coming closer together every day in this country. In business, education, labor and politics they mingle together without thought of nationality. Only the technical points or religion now separate them. They agree upon everything else but these. Every legitimate cause is a common one, except they will not worship together.

A war is to be waged against those who attempt to celebrate Halloween tomorrow night. Still the boys will have their fun. But they should bear in mind the fact that if they do damage to others they should and will be punished, if caught. Carrying the matter too far only causes more vigilant watch over them next time. Innocent fun is always in order, but permitting revenge or personal spite to enter into a matter always spoils the best of fun.

And now to think of it! Wheat 60 cents and a-climbing! Who says it isn't coming the farmers' way? With the miners winners in the strike, big corn crops in the East and big wheat crops and fat stock in the West, it looks as if the man who makes his living by manual labor is coming to the front all along the line. The republican party is great. The politicians back in New York are telling how they did it. The republicans made the good crops, they created the demand in other countries for our products, are opposed to trusts and combines and are the best fellows in the world just now in every way. By the time the presidential election comes around they will all have wings.

The idea that Pendleton, Umatilla county, or any of the citizens are jealous or afraid of outsiders or competition is a mistake. This town and county has as good citizens, as good business men, as intelligent and shrewd men as there are to be found anywhere. They are not afraid of any class of men, or any class of business enterprises. Those who think so are doubtless shaky themselves. Let people come here who may, so they are respectable and good citizens. They are welcome. There is plenty of

room, but there is no necessity of booming Pendleton and Umatilla county and begging for immigration. It may be reiterated time and again that the resources and opportunities of this county do not have to be heralded to the skies. We do not have to clamor for suckers or immigration, and while we extend the welcome hand to good people, we do not desire the riff-raff that are often brought to places by flaming advertising which tells all the good and conceals the bad. The boomer is a fakir, a green goods man, and only such places as are in that business engage in that sort of advertising.

The following from a local paper, is uncalled for: "But it is almost useless to undertake to stir up an agitation among the laboring class in Pendleton. They always receive what they ask for, and furthermore, are gentlemen in the asking and there is no cause for demagogues or agitators in our midst." It is true that the laboring men of Pendleton are all gentlemen, but it is not true that all of them receive what they ask. Some of them work long hours, not because they like it, but because they would rather do it than raise trouble with their employers. They would rather wait until the town grows larger and the people are better educated along the lines of labor unions, before they demand the rights usually accorded union men where they are stronger. The intimation that Mr. Harry, the speaker Tuesday night at the local laboring men's meeting, is a demagogue or agitator, was uncalled for. He is an earnest, reasonable advocate of the laboring man's rights and said nothing beyond the legitimate discussion of the laboring man's cause. It is the same old story of the republican paper, however. They never see anything but danger or demagoguery in a meeting of the toilers to discuss their right and try to improve their conditions.

### WHERE OIL IS FOUND IN CALIFORNIA.

The United States Geological Survey Traces the Oil-Bearing Strata. During the present season G. H. Eldridge, of the United States geological survey, has been engaged in a careful examination of the petroleum fields of California with a view to discovering the source of oil. These fields lie in the Coast Range and alongside the great Central Valley of the state, but thus far their chief development has been south of the parallel of San Francisco. In order to locate their source it has been necessary to study the general geologic features of the Coast Range and Central Valley, and especially the oil-bearing formations themselves and

## Don't Try to Master

the subject of life insurance or you will probably give up in despair. There are over 350 different forms of policies written.

Security is the first thing and resources guarantee security.

The Assets of The Mutual Life Insurance Company of New York exceed those of any other life insurance company in existence. They are over

**\$352,000,000**

It has paid Policy-holders over

**\$569,000,000**

which is more than any other life insurance company in the world has disbursed.

Write for "Where Shall I Insure?"

**THE MUTUAL LIFE INSURANCE COMPANY OF NEW YORK**

**SHERWOOD GILLESPIE, Manager,**  
Seattle, Wash.

the structural conditions in the areas in which they are found.

Although the work is yet incomplete, several important results have been established, one of which is the presence of petroleum of from 11 to 42 degrees Baume in a series of strata at least 25,000 feet thick. A second result of the investigation is the separation of this series, on lithologic or paleontologic grounds, into nearly a dozen distinctly recognizable formations, chiefly of Tertiary age. It is important to note that petroleum was found under many structural conditions, yet nearly all seemingly in harmony with the anticlinal theory. The technical and economic uses of the California petroleum, particularly in its application as fuel, will also be considered in the course of the work as planned.

**IN OLD AGE** the question of health becomes mainly a question of nutrition. If the stomach and other organs of digestion and nutrition are kept in a healthful condition there will be a well-nourished body, and little liability to disorders of the liver, bowels or such other disorders as may result from in-nutrition and lack of exercise.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition, and also diseases of other organs which are caused by the diseased condition of the stomach. By enabling the perfect nutrition of the body it increases the vital power and promotes a vigorous old age.

"I was a sufferer from chronic diarrhea for five years," writes Mrs. Mary A. Aaron, of Rolla, Phelps Co., Mo. "I tried different remedies, which would give me relief for a short time only. My trouble would return as bad as ever. I consulted you in July, 1900, and by your advice commenced using Dr. Pierce's medicines. I took two bottles of the 'Golden Medical Discovery,' three vials of the 'Pellets,' and some of the 'Extract of Smart-Weed,' as you advised. I have not had any return of my trouble since using your medicines. Am now seventy-one years old and I never had anything to relieve me so quick. I think Dr. Pierce's medicines the greatest on earth. Should I ever have any return of my trouble shall use your medicine. My thanks to you for your advice and thanks to Almighty God for restoring me to health through your hands."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs.

Dr. Pierce's Pleasant Pellets, the best laxative for old people. They cure constipation and biliousness.

## Opening of A. Klein & Co's Liquor Store and Sample Rooms

Saturday, Nov. 1st at 619 Main St.
