The men were offering to sell stamps at a discount and when arrested had over 30,000 in their possession.

At the Frazer.

A glance at the program to be rendered here by Ellery's Royal Italian band, which comes to the Frazer for one concert next Monday evening, November 3rd, is enough to insure that they will please everyone. The program is carefully arranged so as not to soar too high into the classical, and at the same time they do not sink to the level of a rag-time entertainment.

Among the lighter selections to be rendered will be several of Rivalda's own marches, which have become quite popular in other cities where the band has played. The prices are: First three rows, \$1.00; last three rows, 75 cents; gallery 50 cents; box seats, \$1.50.

"A Wise Member" is Great.

While there is an interesting story, cleverly told, in the comedy "A Wise Member" that comes to Pendleton theatergoers next Wednesday evening, November 4th, the entertainment does not depend on the plot of the play alone to carry it to success. There is an abundance of good songs, of impersonations, and bits of character acting that give variety as well as comicality to the performance. The piece is clean in construction and situation, and sparkles with spontaneous humor. A strong feature is the finale of the first act, a medley of song and dance with effective choruses that never fails to arouse the enthusiasm of the audience. The great success of this company last season is being more than duplicated during this, their second season. Prices 75c, 50c and 25c.

HALF BILLION DOLLAR COMBINE.

Merger of All Stockyards in the Country is Contemplated by Big Guns in the Meat Packing Trust.

Chicago, Ill., Nov. 1.—Consolidation of all the stockyards in the country under one management is contemplated by leading interests in those properties, and plans will probably be carried out after completion of the deal to merge the beef packing industries. There are widely different reports as to the amount of stock the combination will have, figures on the total running from \$300,000,000 to \$500,000,000. It is understood that preferred stock will represent the book value of properties and common stock the good will and other tangible assets.

The consolidation will include the Armour, Swift and Morris and other properties in Chicago, and, of course, The Hammond and Anglo-American, Omaha and other packing properties they have purchased to put into the deal, and the Cudahy and Schwartzchild & Sulzberger companies.

While no announcement of officers has been made, it is probable that Gustavus F. Swift will be president and J. Ogden Armour probably chairman of the board of directors.

Consolidation of the various stockyard companies could be effected with comparative ease after consolidation of the beef packing interests. The different yards that will probably be included in the deal, aside from Chicago yards, are those at Kansas City, East St. Louis, St. Joseph, Mo., Fort Worth Texas, South Omaha and Sioux City.

WALLOWA'S LAKE.

A Natural Mirror Where Feathered Game Lives.

Henry T. Booth who returned this week after an absence of several days in the Wallowa country, is in ecstasies over the territory traversed and expresses regrets that some of the advantages there are not in close proximity to Baker City.

"There is a lake about a mile from the hamlet of Joseph, measuring about four miles in length and a mile and a half wide, that is one of the grandest bodies of fresh water I have ever seen," declared the hustling "policy" man when approached by a Herald reporter yesterday. "The lake while not so large, is clear as a crystal and its waters icy cold. The source of the Wallowa river is there, the stream being formed by the overflow from the lake. Fish, ducks and other game abound and it is one of the most picturesque places I have visited. Such a lake close to Baker City would easily be worth a half million to the town.

"Two gasoline launches and innumerable row boats are seen gliding upon its surface, with neat little homes and a modern hostelry comfortably tucked about its shores. The country is generally prosperous and the only drawback to this paradise is the difficulty of securing transportation. From here you go to La Grande, then to Elgin and by a roundabout way to Joseph.

"But talk about hogs—not pigs, but old-fashioned hogs, why, that neighborhood is the limit. I saw 700 being driven along the road in one band and it seems every resident there has his pen and swine."—Baker City Herald.

Eastern Oregon Gold Fields.

The gold fields of Oregon are each year growing in wealth and extent. Oregon has never received its proper place from a statistical standpoint—although it is the fault of the mine-owners and companies, and not that of the government. Every effort is made by the United States geological survey to get the correct figures, but we are informed that even the figures sent out annually by the government have been added to in many instances, because of a certainty that those sent in were considerably short of the real output. No one is to blame but the mine-owners for this state of affairs, and it is no doubt greatly mitigating against the real mining interests of Oregon.—Western Mining World.
