DRUGGISTS

SATURDAY, NOVEMBER 1, 1902

The Halloween fiend who placed the sign "Men's resort" where the men never think of going, ought to be prosecuted for libel.

Marconi is still branching out. He is now going to have people talking across the ocean just as if it were over the back yard fence.

Halloween night has passed and no one was killed. There were a number of "killing" jokes perpetrated throughout the country, however, and "quite a few" in Pendleton.

The statement that all people like to be humbugged should be more confined. The most ignorant nowadays stand in the front row when a street fakir is plying his trade.

So a millionaire has been convicted in the courts. Young Vanderbilt was too swift with his automobile. A millionaire looking through iron bars for two days will be an anomaly.

The architects and builders and contractors are all busy in Pendleton. More building is going on at present and more buildings are in prospect than ever before at this time of the year.

It was not republicanism that settled the strike trouble. It was the American people. They rose up as one, irrespective of politics, and the president caught the cue and carried out their decree.

Golf and bird-shooting are racing for supremacy in the way of sport in Pendleton. It is well to be able to handle the sphere, but the man who can always - the mark, is often useful in times of war.

Solid institutions do not worry over the success of others. They like to see success all along the line. But the weak-kneed, "one-gallus" gang are jealous of success. It is a stranger to them and they do not like to see others enjoy it.

The strike trouble is not so thoroughly settled yet—in the minds of the operators. They still refuse to take back union leaders, but they will finally see the point and be good. The people have decreed, through the president the rights of the miners and the operators must come to terms.

Pendleton citizens have not often been charged with all being cowards, but still there are those who doubtless think so. The people are not only generally successful, but have usually held their own in most all kinds of encounters, business and otherwise, when it came to the pinch.

"The Webfoot country is not in it with Eastern Oregon," said a Webfoot teacher yesterday. "We have good times down there and there is prosperity generally, but there are dollars here where there are nickles there. It requires a visit to this section to realize the fact that the great Inland Empire is destined to rule this state both financially and politically.

Umatilla makes a good showing in the line of school teachers. As a remarkable coincidence 38 of her teachers are native Oregonians. The fact that so many have lived here all of their lives does not only enable them to inspire their pupils with true Oregon patriotism, but it speaks well for Oregon that so many of her sons and daughters have turned their attention to education.

Kansas, Indiana, and Missouri are

in the lead in furnishing Oregon teachers. While our pedagogues may have come from the "bleeding" state, the hoosier state and the state of outlaws, yet there is not one among them that does not understand his profession. The states that win names abroad usually have strenuous citizens, and whatever they do they do with a vengeance.

The fairs and carnivals have been uniformly successful throughout the state this year. They have demonstrated the fact that Oregon has good things to exhibit and is capable of producing just as fine things in most all lines as any country under the sun. The boomer that said you might build an unsurpassable wall around the state and she would still thrive upon her own resources, did not talk so wildly after all.

Many people not informed, think there is no game or fish in Eastern Oregon. They have formed the idea that it is a barren desert waste, outside of the towns where trees have been planted and water has been put into use through artificial means. This is a grave mistake. There is game galour throughout this country, and there are trout in the streams that would set the dullest fisherman wild with enthusiasm.

While the price of wheat is rising and times are generally so prosperous the people of Umatilla county should not forget the irrigation question. He who waits is likely to get left, while the man of action is succeeding. Umatilla county may not need anything just at this time, but she may need it in the future. It is well to prepare for the rainy day. Laying the plans for irrigation by assisting the government in the work is just like laying up for a rainy day.

WHAT TO SAY.

When you see a man in woe, Walk right up and say, "Hullo!" Say "Hullo!" and "How d'ye do?" How's the word a-usin' you?" Slap the fellow on the back; Bring your hand down with a whack, Walk right up and don't be slow; Grin and shake, and say, "Hullo!"

Is he clothed in rags? Oh, sho; Walk right up and say, "Hullo!" Rags is but a cotton roll, Jest for wrappin' up a soul; An' a soul is worth a true, Hale and hearty "How d'ye do?" Don't wait for the crowd to go, Walk right up and say, "Hullo!"

When big vessels meet, they say They sailot an' sail away; Jest the same are you and me, Lonesome ships upon a sea, Each one sailin' his own log For a port behind a fog; Let your speakin' trumpet blow, Lift your horn and cry, "Hullo!"

Say "Hullo!" and "How d'ye do?" Other folks are good as you, When you leave your house of clay, Wanderin' in the far away; When you travel through the strange Country 'otter side the range, Then the souls you've cheered will know Who you be, and say "Hullo!" —S. W. FOSS.

DRUNKENNESS AND THE LAW.

The Austrian government is preparing to combat drunkenness by law. A bill is being drawn inflicting severe penalties upon dipsomaniacs.

In this country about 30 states have general laws dealing with drunkards. The others leave to local ordinance-makers the business of disposing of the victims of too much drink. As penalties for intoxication there are provided fine stranging from 50 cents, the minimum in some states, to \$100, the maximum in others. Imprisonment is an alternative punishment in most states, but is the only one in Maine and New Hampshire. The terms of the convicted range in various commonwealths from a two day's minimum up to a five years' maxi-

mum. In Alabama the common drunkard gets six months at hard labor. In Minnesota there are progressive penalties for offenses after the first. Several states exact bonds for future sobriety.

It is a fact proved by drink statistics that America is becoming more temperate, but the best authorities do not attribute the improvement to the effects of legal penalties. Hard drinkers are no longer countenanced by desirable society. This is one reformatory force, and a stronger one yet is the increasing demand in many lines of business for men who are always sober and reliable. Most railroad corporations, for instance, insist on temperance in their employees. As they have work for more than a million men, they exert a tremendous influence for abstinence.

Austria's new law will swell her records of offenses. It will not change men's tastes and desires. The best reformatory statutes are those framed by social and business self-interest.—New York World.

DEMOCRATIC LABOR PLANKS

This must be a government by law, and not according to the will of officials. We therefore demand the enactment of laws, both state and federal, prohibiting the issuance of injunctions in labor disputes, infringing upon the rights of free speech, free assemblage, full freedom to organize and to quit work, and trial by jury to the end that such rights may be maintained in complete integrity. We unqualifiedly favor the complete exclusion of all Chinese, of either whole or mixed blood, according to the terms of the bill presented to congress by the American Federation of Labor and the California commission, and we denounce the republican majority in congress for its treason to the working people and the Pacific Coast in rejecting this bill and passing the present weak and inadequate law.

We favor the eight-hour day for public work, whether done directly or by contract.

We favor the construction of government vessels in the government's navy yards and we pledge our candidates for congress to use every effort to secure the immediate construction of such a vessel at the Mare Island navy yard.

We favor the establishment of a state free labor bureau in connection with the state labor bureau of statistics, to the end that the laborer seeking employment may be furnished with reliable information of sources of employment without cost.

We are opposed to the present practice of purchasing state supplies partly or in whole manufactured in state prisons, reformatories or asylums, and to prevent this practice we demand that such laws be enacted that the union label must necessarily be on all goods purchased by the state.

"IMPOSSIBLE," for you to enjoy motherhood," says the doctor. Sometimes he qualifies the statement, and says: "Impossible without an operation." Yet both these "impossibles" have been made possible by the use of Dr. Pierce's Favorite Prescription. Many times the hindrances to motherhood are to be found in womanly diseases or weaknesses, which are perfectly and permanently cured by "Favorite Prescription." This great medicine cures irregularity and dries debilitating drains. It heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

"I wish to add my testimony to hundreds of others as to the value of Dr. Pierce's medicines," writes Mrs. Ida M. Le Fort, of Leona, Hubbard Co., Minn. "I have doctored with a great many physicians—some specialists; have twice been in a hospital for treatment. My case has been regarded as a hopeless one, and they knew not what the trouble was. Heart was bad; stomach all out of order; tired out; severe pains in all parts of the body; sinking spells, and nearly every ailment a woman could have. I took many a bottle of 'patent medicines' without effect. I began taking Dr. Pierce's Favorite Prescription, and ten months afterward I gave birth to a ten-pound boy. All physicians had stated as a fact that I never could bear a child. Both the baby and myself were strong, and I got along splendidly—thanks to your medicine."

The Common Sense Medical Adviser, 1000 large pages, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

Nasal CATARRH
In its stages there should be eliminated. Ely's Cream Balm cleanses, soothes and breaks the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Drugists or by mail; Trial Size, 10 cents by mail. ELY BROTHERS, 54 Warren Street, New York.

A STRONG, VIGOROUS MAN

Is Liable to Break Down—Pe-ru-na is Sure to Restore.

ALDERMAN FRANK DUNN

Hon. Frank Dunn, Alderman Twenty-Fourth District, writes from 232 East Fifty-Eighth Street, New York City: The Peruna Medicine Co., Columbus, O.

Gentlemen: "There is no remedy for a broken-down system that I know of which will so effectually restore health as Peruna."

"Whenever I am overworked or suffer from the consequences of a cold a few doses of Peruna builds me up again more quickly than anything I ever tried. I find it especially valuable for catarrh. Three bottles cured me three years ago of catarrh of the stomach and I have never had the least symptoms of it since."

Very truly,
FRANK DUNN, Alderman 24th Dist., N. Y. City.

A TONIC is a medicine that goes to some part of the system where the tonic most needed in the system where catarrh is so prevalent, a tonic that operates on the membranes.

Peruna is a tonic to the membranes of the whole body. It goes to the capillary circulation and stimulates these delicate membranes.

Peruna is a specific in its action upon the mucous membrane of the stomach that strikes at the root of the trouble. It gives the minute blood vessels and the nerve fibres. Catarrh exists where Peruna is used. Peruna seeks out catarrh in the den parts of the body.

Paul Landrum writing from Ga., says:

"In January last I began your Peruna and Manalin for termed organic heart trouble. The time I could scarcely walk. I was of business without stopping. On arrival felt completely restored. Had severe pains in my heart. Peruna I began to improve and feel that I am a sound man after fourteen hours a day without feeling."—Paul Landrum.

A. M. Ikerd, an employee of & Q. R. R., West Burlington, Ia.

"I had catarrh of the stomach small intestines for a number of years. I went to a number of doctors with no relief. Finally one of my friends sent me to Chicago and I was cured. They said they could do for me, that I had cancer of the stomach and there was no cure. I was the same, for my breath was so awful. I could hardly stand it so offensive. I could not eat without great misery, and I grew worse."

"Finally I got one of your bottles. I concluded I would try Peruna. God, I found a relief and a cure of my dreadful disease. I took the Peruna and two of Manalin, and feel like a new man. There is better than Peruna, and I keep it in my house all the time."—A. M. Ikerd.

If you do not derive prompt relief from the use of Peruna, write at once to Dr. Hartman, full statement of your case and be pleased to give you his advice gratis.

Address Dr. Hartman, President The Hartman Sanitarium, Ohio.

For **POULTRY and STOCK SUPPLIES** —CALL ON— **Colesworthy** —AT THE— **CHOP MILL** 127 and 129 East Alta Street

Come To Us
For your lumber and building material of all descriptions and you will save money and get first-class stock. We can supply you with
Doors, Windows,
Screen doors and windows, building paper, lime, cement, brick and sand.
We make a specialty of wood gutters for barns and dwellings.

Lumber,
Lumber,
Lumber,
All kinds for all purposes.
Sash, Doors and
Planing of all descriptions to order.
Don't place your Building Material until consulted us.
Pendleton Planing Lumber Yard.
ROBERT FORSTER, Proprietor.

IN THE LIGHT
of our experience in carriage and business wagon selling, we do not hesitate to say that we have fairly well learned the needs of our customers—present and prospective. Look as long as you like, test as long as you please, you'll find our output to be all right this day, the next day, every day.
Our Wignons hacks are just the things, well made, good looking, easy to ride in and strong. We have tops for all kinds of buggies and cushions and dashes for hacks. Get our prices on wagons, buggies, hacks, carts, gasoline engines, plows and saw mills.
