GENERAL NEWS.

Dr. Samuel Patterson Stafford, who has been appointed the government physician at the Yakima Indian agency, in the state of Washington, is one of the best known colored physicians of St. Louis.

Smallpox continues to spread in Barbadoes at an alarming rate. A week ago the total number of cases reached 1200. The other islands are observing the most strict quarantine against Barbadoes.

Nearly every member of congress keeps a scrapbook, and for the time covered. Senator Beveridge's is the largest of the lot. The Indiana man already has two volumes of 250 pages each with three newspaper columns to the page.

It is not generally known that the shah of Persia has four sons now in Europe receiving their education. They are mild and inoffensive, with hardly enough spirit between them to declare an opinion, such is their fear of their royal parent.

A fraudulent use of cancelled revenue stamps, amounting to \$400,000, has been uncovered in the port of New York. The stamps were washed and used the second time by clerks and officials, who sold the new stamps supplied them by the government.

The coroner's jury in the case of Mrs. Nannie G. Baird, who died suddenly October 15, at Boulder, Col., returned a verdict charging that her death was due to poison administered by her husband, Dr. Rudolph Baird, or by someone with his knowledge. Dr. Baird is one of the most prominent physicians at Boulder.

Four quarts of milk daily or thereabouts, for 20 years, has been the sole diet of Thomas F. Laubach, of Hazelton, Pa. Two decades ago Mr. Laubach, being then 51 years old, was in very bad health, and his physicians gave up his case. Then he decided to doctor himself and has done so ever since, absolutely confining his diet to milk. Now he is one of the healthiest and soundest men in town.

Manual Thurman, a saloonkeeper, shot and killed N. J. Cooley and his son-in-law, Will Whitfield, at Dayton, Tenn., Friday. Cooley made a dying statement to the effect that Cooley and Whitfield were at Cooley's home, when Thurman entered a room occupied by Cooley's daughter. Whitfield followed Thurman into the room and grabbed him. Cooley then entered the room and Thurman opened fire. Thurman surrendered.

V. E. FINCH ARRESTED

FOUND IN SEATTLE BY SHERIFF TAYLOR.

Loss Oman, the Young Man Who Was With Him When the Checks Were Cashied, Also Found.

V. E. Finch, the young Pendleton forger, was arrested in Seattle Sunday afternoon by Sheriff Taylor. In company with Finch was Loss Aman, the young man who was with Finch when the checks were cashied and who went away with him and had remained with him since his sudden departure.

Sheriff Taylor has been close on the trail of Finch ever since a week ago Monday when the forgery was found out. He spent all of last week running down possible clues and rumors of where he might be, but to no avail for several days.

The last of the week he went to Seattle, being satisfied that the young man was in that city. Sunday afternoon he found Finch walking the streets and immediately took him in custody and will return with him tomorrow.

Finch will have to face the very serious charge of forgery as it was he who did all of the buying of drinks and passing of the checks in payment, receiving several dollars in change each time. Oman was with him all evening, but no charge has yet been placed against him as it is not known whether or not he was accessory to the crime.

 "Very much," answered Mr. Cumrox. "For his compositions or for his performances?"

Deafness Cannot be Cured
 Hall's Family Pills are the best. Local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; also cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

LIVELY SCHOOL ELECTION.

Vote Largest Recorded, Being Over 1200—Many Ladies Voted.

Walla Walla, Nov. 3.—In a lively school election in this city Saturday, W. R. Critfield and A. H. Gardner, members of the school board, were re-elected over W. P. Winans and W. E. Russell by a splendid majority. The vote was the largest recorded in this district in many years, being over 1200. Many ladies voted and took an active interest in the contest.

The fight was largely brought about by the change in name of the Paine school, which was rebuilt last summer. The board of education renamed the building "Lincoln" school, and the friends of the name Paine took umbrage. A petition was circulated asking that the old name be restored, and the prayer was refused. Then an effort was made to displace the directors, whose term expires this year, but the people refused to accept the candidates put forward.

The lateness of the passengers is because of the strike among the machinists in the shops along the line of the Union Pacific between Omaha and Ogden. It is stated by those in a position to know that unless this strike is settled and a full force of men are put to work the trouble will get worse all the time and travel will be very much aggravated this winter. The locomotives are all out of repair because of no one to keep them up and it is said if a full force of men were put to work at once it would take three months to get things in shape to again make schedule time. If the strike continues until the storms of fall and winter set in trains will be very much later than they are running now, as they frequently run late during the winter when conditions are all favorable except the weather.
