VALUABLE ASSISTANCE.
"How many gallons of milk do you get a day?"
"Fifty."
"Gee! You must have a good pump."

WAS THE NESTOR OF THE IRON TRADE.

John Fritz Will be Banqueted by the
Captains of Invention and Industry
at the Waldorf-Astoria Tonight.

New York, Oct. 31.—The Waldorf-
Astoria banquet hall will be the scene
tonight of the most notable banquet
that has taken place in this city since
the affair in honor of Prince Henry.
Captains of invention and industry,
the central figures of finance allied
with the iron trade and the leading
members of the engineering profession
in this country and Europe will gather
about the board to celebrate the 80th
birthday of John Fritz, ironmaster and
inventor of Bethlehem, Pa. The ban-
quet will also signalize the success-
ful founding of the John Fritz gold
medal for achievement in the indus-
trial sciences, the medal to be award-
ed annually by a committee of the
American Institute of Mining Engi-
neers and the American Institute of
Electrical Engineers.

At the banquet the speakers select-
ed will respond not only for each
branch of the engineering and me-
chanical arts, but for the army and
navy and allied interests.

John Fritz is the nestor of the iron
trade in this country. He began life
as a blacksmith in 1838, and in his
long career has been identified with
almost every important step in the
process of making iron and steel,
which has resulted in an increase in
the American product of a million
tons in 1838 to 16,000,000 in 1901.
The crowning effort of his life was the
conception, the designing and erec-
tion of the great forge and armor
plate plant of the Bethlehem Steel
Company, of which he was the chief
engineer and superintendent from
1860 to 1895.

Mr. Fritz, physically vigorous and
active of mind, still continues his in-
vestigations in his little office in
Bethlehem, where he can be found
daily with his assistants. He works
early and late, and is even as in-
dustrious as in his early life, when he
spent from 18 to 24 hours a day among
the forges of the Bethlehem works.
He is a striking example of the typi-
cal American, born of poor parents,
who were solid, substantial and God-
fearing. With only a district school
education, gained in the middle part
of Pennsylvania, he started life with
the stimulus and opportunity that
American citizenship gives, and at-
tained a position in the steel industry
that is recognized by the whole world.
He is probably the only man now liv-
ing of the small group that introduced
into the United States the Bessemer
steel process. A great economical
revolution was thereby effected from
which has flowed the tremendous de-
velopment seen today in steel manu-
facture in the United States. The
leading men in the industry today are
the pupils of John Fritz.

In 1893 the British Iron and Steel
Institute gave Mr. Fritz the Bessemer
gold medal, which is about the high-
est distinction a steelmaker can re-
ceive. Charles Hewitt, who laid his
career at the Trenton Iron Works,
and made a vast fortune for himself
and his brother, Abram S. Hewitt, is
the only other American who has been
so honored.

National Beagle Trials.

New York, Nov. 3.—The members
of the National Beagle Club of Amer-
ica have assembled at Mineola, L. I.,
for their thirteenth annual field trials.
It is said to be the largest assembly
of the kind ever held. In addition to
the large representation of New Eng-
land and the East the states of Louisi-
ana, Illinois, Ohio and Iowa are well
represented. The chief event on the
week's program is the contest for the
National Challenge Cup, for packs of
four, and which must be won four
times in succession before it becomes
the property of the winner.

Japanese Emperor's Birthday.

Washington, D. C., Nov. 3.—There
was an extra bullseye flag displayed
over the home of the Japanese lega-
tion today in celebration of the birth-
day of the mikado, who was born Nov.
3, 1852. This evening Mr. Kogoro
Takahira, the Japanese minister, will
further observe the anniversary by
giving an elaborate dinner, to which
have been invited all of the members
of the diplomatic corps and several
representatives of the department of
state.

Capital Quiet on Eve of Election.

Washington, D. C., Nov. 3.—The ap-
proach of the election day has
brought on Washington a Sunday
quiet. The departments have been
emptying themselves of voters for
several days and this morning in all
the big government buildings the
forces were reduced to the lowest
minimum possible. The government
service is not allowed to suffer be-
cause of this exodus of voters, as the
heads of the departments have been
preparing for the lack of workers by
getting the routine work well in hand
and in such condition that a reduced
number of employes can handle it. In
several cases where public business
prevented employes from leaving
their places in the departments, pairs
have been arranged with men of op-
posite party. President Roosevelt will
cast his vote at Oyster Bay and Sec-
retaries Shaw, Hitchcock and other
members of the cabinet likewise have
journeyed home to cast their ballots.
Of all the government bureaus the
largest quota of voters left the gov-
ernment printing office. There are
3000 men in that office and a consid-
erable portion of them asked for leave
of absence. Most of them are demo-
crats. The civil service laws have
extended so much in recent years
that the exodus of government em-
ployees to the different states hardly
will improve the chances of either
party. Nearly all of the government
places in which the salary per annum
is less than \$3,000 are now covered
by the civil service laws, and in most
of the departments both parties are
about equally represented.

Kitchener Opens Gordon College.

London, Nov. 3.—Official advices
from Khartoum tell of the formal
opening there today of Gordon Col-
lege, for which plans have been mak-
ing for a number of years past. Vis-
count Kitchener, to whom more than
to anyone else the success of the un-
dertaking is due, was the central fig-
ure in the inaugural ceremonies and
among the other participants were
leading representatives of the Egyp-
tian government. Though far removed
from what are usually considered the
centers of learning and civilization
in modern Egypt, Gordon college at
Khartoum is designed to rank among
the foremost educational institutions
of that country. The institution is to
be conducted on progressive lines and
the teachings will embrace the indus-
trial sciences as well as the more
common branches of learning. Religi-
ous dogma will not be embraced in
the curriculum and the college will
be open to Mohammedans, Jews, As-
syrians and all other races to be
found in Egypt.

Court Street

REAL ESTATE

The following have been listed with
me:
320 acres, stock or dairy ranch,
well fenced; never-falling springs,
creek; timber for lumber and wood;
now cuts 125 tons hay, worth \$8.50 on
place; large hay barn; comfortable
house; machinery and 100 tons hay
goes with the place; good summer
range and good land to take joins; 2
miles to postoffice and store. Price
\$4,000.

A half-way house and 200 acres,
new \$1200 house; large barn and
sheds; running water; fruit; has
pasture and hay land. The business
paid \$240 last month. Price, \$3,000.

175 acres, three miles from town;
30 acres bottom—now irrigated; five
acres choice garden land; balance in
pasture and grain, north slope; spring
and creek; a valuable property, only
\$2,350.

360 acres, stock and grain farm, 5
miles from town; 35 acres bottom;
75 acres summer fallow in grain; hay
brought \$1350 this year; good spring;
a fertile farm, with machinery for
\$4,500.

I have some desirable town prop-
erty:
House and 7 lots, with nice orchard
and garden; shade trees; cellar, barn
for horses; rich, moist soil; \$2,100.
