About a year ago it was rumored that Mrs Maybrick would be included among those receiving clemency from the king at the time of the latter's coro nation. The coronation passed, how ever, without any new developments in the case. No such proclamation of pardon was forthcoming and hope was quite abandoned by those who had been anxiously expecting that his majesty would extend royal clemency to a considerable number of prisoners and restore them to freedom and civil The announcement just made that in India, in connection with the approaching coronation ceremonies at the great Durbar, the viceroy would release a large number of prisoners has re-awakened public expectation here that the king will be graciously pleased to extend his consideration in a similar manner, It is learned from the person already referred to that by John Mitchell, who is sup-such an act of clemency is in con-by the Industrialist faction. templation, but if carried out it will dustrialists want a merger of extend only to minor offenders. ### GEN. MILES' REPORT

Urges More Attention to the Coast Defenses Particlarity On the Pacific.

DOES NOT MENTION

THE NEW CANTLEN LAW.

Advices the Division of Appropriations for Improvements Between Department in Proportion to Number of Troops in Each,

Washington, Nov. 6.—The annual report of General Miles was made public today, It is remarkable for the absence of any discussion on the subjects which it was thought he would

handle with considerable length. He was reported to have said most emphatically before he left San Francisco that he was in favor of the canteen law, but the report does not men-tion that law. It does, however, give a lengthy argument urging more atlarly on the Pacific and greater care of existing fortifications.

Commending on the report of General Hughes, commanding the department of California, who called the at-tention of this need, General Miles "These remarks of the department commander simply illustrate the urgent and imperative necessity of having buildings promptly con-structed to shelter the garrions when the engineers shall have completed the fortifications and the ordinance department has supplied guns for

these expensive coast defenses." He then reviews the conditions of the department of the Columbia where he urges large improvements. Advises the division of appropriations troops in each.
