A Boston firm, Fowie, Hibbard & Co., report that about 75 to 100 cars of California beans reach Boston annually, the small white being the principal variety required.

Chrysanthemums and football hair are now in full bloom, unmistakable evidence that the melancholy days have come, the maddest of the year, when wild-eyed players clash and knock their systems out of gear, when girls sit on the bleaching boards and kisses to them fling and think that busted snoots are just too sweet for anything!—Denver Post.

# A FOOTBALL GAME

HIGH SCHOOL AGAINST WESTON NORMAL SCHOOL.

The First Game of the Season Tomorrow—Local Team in Good Shape—The Line-up.

The football enthusiasts of Pendleton will have a chance to witness the first game of the season here Saturday afternoon. The Pendleton high school and Eastern Oregon State Normal team from Weston, will compete for honors on the Alta street gridiron.

This game, being the first of the season, is attracting considerable attention. The local boys have not had a chance to try their skill this year before, but they will know the game when they go into it Saturday. They have been using all their spare time in practicing and are said to be in first-class trim for the fray. While the local team is lighter than its opponents, it is thought they will outplay the visitors because the boys have had better coaching. The boys composing the team will not weigh with the normal team, as an average of 140 is as high as the locals will reach, while the normal team average 150 to the man. The local team has two new men, Pinkham and Scott. All of the other players have had one or more seasons' practice. The tackles are said to be very strong and the backfield is fast. So, should the normal team win Saturday's game it will know it has been playing football at the end of the game.

In speaking of the normal team, President Martindale, who was at the Pendleton hotel last night, said:

"We have a good, strong team. The boys are light, but we expect to put up a good fight Saturday. We will put up a clean game and do not approve of any rough football at all."

The line-up of the local team is: Scott, center; Pinkham, Means, Cronin, guards; Baker and Arnspieger, tackles; Guy Wyrick and Hawys, ends; Hartman and McCarty, half backs; Williams, full back; Will Wyrick, quarter back.

Saturday is to be the first game, although it will not be any means the last one. A week from Saturday the high school team will play on the local grounds against the La Grande high school team. It is said that La Grande has one of the strongest high school teams in the country.

### WESTON NEWS.

130 Students Enrolled in Normal—Has a Building Boom—Personal Items.

Weston, Or., Nov. 7.—(Special.)—School in the Eastern Oregon State Normal was never progressing smoother in the history of the institution. In the normal proper there are about 130 enrolled where the total enrollment for last year was only 111. This shows an increase of 19 over last year and the faculty expect that several more students will be added before the year ends. The increase in enrollment is partly due to the fact that the new building is occupied this season which makes it much more convenient than heretofore. It is also claimed that President Martindale has increased the enrollment of young men by encouraging athletic sports. This is something which has been left entirely in the background in the past history of the institution, but as President Martindale is an athlete himself, and has followed this work for years, he has started the interest in the normal and that is said to be responsible for the large number of boys in the school. There are as many young men enrolled as young women, which is something unusual for a normal school. Usually the majority of students are young women who are fitting themselves for teachers and the young men are greatly in the minority.

The Weston brickyard has had an unusually successful run this season. The demand has been far above the supply, however, as Mr. Nelson ships his products to towns for many miles around. His principal markets are

Pendleton and Walla Walla, although much brick goes from here to Dayton, Pomeroy, Heppner and many other smaller places along the line. Mr. Nelson expects to leave in a few days for the East to inspect some pressed brick machines which he intends to install next season.

The building boom in Weston makes it very lively in the working man's realm. No business houses are under course of construction, but more new dwellings have been built this fall and are under contemplation than ever before in the history of the state normal town.

Weston is to have another physician. Dr. House, of Pendleton, has made arrangements to leave his practice and come to this city. He will succeed Dr. J. A. Best, who has concluded to leave here and cast his lot in California. Dr. House will be here within a few weeks.

G. A. R. McGrew has purchased the Worthington place in this city, paying \$2500 therefor.

Phil Beathe and H. Hessel, two of Weston's prominent citizens, visited the county seat Thursday. They say Pendleton is a lively place, but the streets are a disgrace to the town on account of mud.
