## IN POLICE COURT

**BUSINESS GOOD IN JUDGE FITZ GERALD'S LINE.**

**Drunks Fined and Go to Jail—Women Bound Over—Myerhoffer Pays Fine and Goes Free.**

Yesterday was a busy day in police court. The first cases on the docket were two drunks. They were fined \$5 and \$10 and costs, respectively, and as neither one had the cash, they will serve time in jail.

The next case disposed of was that of Marguerite Allen vs. Helen McAvoy. This was first made a charge of assault and battery with intent to kill. The plaintiff asked to have defendant bound over to keep the peace. This case occupied the attention of the court until late in the afternoon, when Judge Fitz Gerald announced that he would bind both defendant and plaintiff over to the circuit court in the sum of \$150 each.

The women are residents of Cottonwood street. Bonds were furnished by both parties.

The next case heard was that of Finch and Omens, the forgers. As stated elsewhere, they were bound over to the circuit court.

The closing case for the day was that of J. Myerhoffer, the Shoshone barber, who made threats against his wife and displayed a revolver. He was taken into court on the charge of carrying concealed weapons, only as his wife would not appear against him on the charge of attempting to kill. He pleaded guilty to the charge and was fined \$40 and costs, amounting in all to \$47.50, which he paid.

### MINE OWNERS ELATED.

**Four Pendletonians Offered \$80,000 to Bond Their Claims in Greenhorn.**

Frank D. Pratt, George Darveau, John Siebert and Henry Kopitki, are much elated over an offer for the Carbonate group of gold mines in the Greenhorn country. The Tempest Smelting Company, of Spokane, has offered to bond the Carbonate group at \$80,000, but up to the present time no deal has been closed.

These gentlemen have owned these gold ledges for ten or 12 years and have spent several thousand dollars in developing them. They have a 28-foot ledge or high grade ore which they are sure will net them each a snug little fortune. Whether or not they will decide to bond the mine at this price has not been settled. The carbonate group is situated in the famous Greenhorn mining district in Grant county and the ore is said to be easily obtained.

### Public Auction.

On Friday, the 14th day of November, 1902, I will be at the ranch known as the Charles Craig place, about one mile from Pilot Rock, where I will sell at private sale or public auction all of the personal property belonging to the estate of Charles A. Craig, deceased, consisting of:

78 head of cattle (cows, steers, bulls, yearlings and calves).  
11 head of horses (mares, geldings and colts).

1 Studebaker wagon, nearly new.  
1 McCormack mower.  
5000 shingles.  
1 set Concord harness, nearly new  
500 cedar posts.  
Lot of carpenter's tools.  
Lot of chickens.

Also a large number of farm and household utensils, too numerous to mention.

Sale to commence at 10 o'clock in the forenoon. At the same time I will lease the place known as the Craig ranch, to June 1, 1903.

CHARLES B. WADE,  
Administrator.

Terms cash.

### Large Eagle Mounted.

Captain Samuel White has caused to be mounted and exhibited at his office a monstrous American eagle which he killed in the Wallowa country last summer. The bird is a handsome specimen of the race and measures seven feet six inches from tip to tip. It is one of the largest seen in the state in years. The mounting is an excellent example of the taxidermist's art.—Baker City Herald.

### Luck in Thirteen.

By sending 13 miles, Wm. Spirey of Walton Furnace, Vt., got a box of Bucklen's Arnica Salve, that wholly cured a horrible fever sore on his leg. Nothing else could. Positively cures bruises, felons, ulcers, eruptions, boils, burns, corns and piles. Only 25c. Guaranteed by Tallman & Co., druggists.

### Hauls Gold and Silver.

A locomotive on the Virginia City & Truckee Railway, running from Reno to Virginia City, Nev., is said to have hauled more gold and silver bullion than any other engine in the United States. The engine has been in almost constant service since 1875. Of the millions of dollars that have come from the Comstock lode by rail, this engine has hauled the greatest part. It is said to be gaudy and old-fashioned in its construction. All the trimmings are brightly polished and the driving wheels are painted a deep red.

### NEW RECORD IN VOTING.

**All Over Walla Walla County the Independent Voting Was Enormous—One Ticket in 20 Was Straight.**

Walla Walla, Nov. 6.—The results of the election held Tuesday are startling in some respects, and new records in voting have been made. All over Walla Walla county the independent voting was enormous, and scarcely a straight ticket in a score was the rule. Both democrats and republicans scratched, but the republicans are said to have excelled in this particular. The vote was light, about five-sixths of the full registration in most precincts, less in others. White majorities were generally small a peculiar exception was found in the office of sheriff. The republican nominee received a majority of about 13,000, while the nominee for auditor was defeated by over 300, making a switch of over 1600 votes in a total of less than 3,500. The sheriff was the only man who received a considerable majority while the constable was elected by one vote.

The result is very favorable to Levi Ankeny's candidacy for the senate, the legislative contest giving him three solid votes from his home county. A senator is pledged to Mr. Ankeny, he having held over, and a democratic senator also held over. The friends of Mr. Ankeny feel satisfied with the general result, in the face of the bitter fight waged against the ticket.

The politics of the county in the past has been republican, and at this time every office is filled with republicans. But two exceptions will be noted next year.

### WALLA WALLA.

**Ice and Frost—New Warehouse Being Constructed—Telegraph Lines Being Put Underground.**

Walla Walla, Nov. 6.—Severe frosts have occurred the past two nights, ice forming on water to a thickness of a quarter of an inch. The air has been very cold and damp, making the evenings rather disagreeable, something unusual at this season.

The work of construction on the new warehouse for the Inland Empire Produce Company has begun and a force of men and teams is busily engaged in excavation at the corner of Boyer avenue, on the railroad. A building 50x100 feet will be constructed at once, and the firm expects to occupy it by January 1.

A large force of men are engaged in the work of digging trenches along the main streets of the city, preparatory to laying conduits for the telephone wires. Three paper tubes, each to hold 800 wires are to be laid all over the business district, and the hundreds of wires will be placed underground in a short time. The work is being done in connection with the construction of a new exchange building on Alder street.

The bank of Richards, Mo., was blown up early Wednesday morning and looted of \$1589. Afterwards the robbers went to Fort Scott, Kan., on a handcar, ate breakfast at a restaurant and paid for the meal with a smoked half dollar taken from the bank.

The steamer Shinano brings news that anti-foreign placards are scattered all over Chengtu, and the boxer disturbances are now rife throughout the province. The report that their female leader, Kwan Ying, or "Goddess of Mercy," was captured in the battle fought outside the walls of Chengtu, is untrue.

## HE USES SMOKE

**TO KEEP THE FROST FROM INJURING BERRIES.**

**Mr. Walden, of Milton, Tells How He Manages to Get Two Crops of Strawberries.**

Two crops of strawberries in one season from the same vines creates quite a little comment in this part of the country, but the assertion that two full crops and a small third crop of these delicious berries will grow in Umatilla county during one season is almost unbelievable. Nevertheless, this is said to be true. J. E. Walden, who has about three acres of strawberries on his place near Milton, vouches for the story. He was in town a few days ago with a load of the second crop and he told how he managed to get the second crop and keep the frost from nipping his berries before they ripen.

Mr. Walden says that when it gets cool in the fall of the year and there is a likelihood of it frosting during the night, he hauls straw and piles it in little heaps around the patch, and about dark sets fire to the straw. He claims that the smoke from this straw, which smolders all night, keeps off the frost and in this way his berries are saved. It is a well-known fact that it does not frost, no matter how cold, when it is cloudy, and from this Mr. Walden claims to have originated the idea of saving his berries with smoke.

Mr. Walden says that he secured two full crops of berries from his vines and in some instances vines bore three crops, the berries maturing the third time as well as the first. He sells his last picking for \$4 a crate, and has several crates to ship today.
