

W B

Erect Form

The long hip form is the original long hip corset. It has set the mode in corset styles. The long hip gives that deep graceful dip, rounds off the hips into graceful curves, takes all strain from the abdomen and chest and places it upon the hips and back muscles. Absolutely hygienic. The only corset for the new style skirts.

Form 989 \$1.00. Erect Form 990 \$1.00
Form 973 \$1.25. Erect Form 992 \$1.50

There are numerous other models of the W B Corsets of which you will also find at our store. A complete assortment of styles and sizes.

THE RUSH FOR LAND

MANY HOMESEEKERS
BESIEGE LAND OFFICE.

Umatilla County Settlers Enter Sixty-
Four Hundred Acres—Coal Entries,
a New Feature.

The busiest month for the La Grande land office for some time has just closed, with the October rush. Extra help has been repeatedly employed to meet the demands made upon the office. Ordinarily the "humdrum" life in a land office is equal to the monotony of the county jail, but such was not the case during October. Homeseekers from almost every state in the Union have besieged the plats and maps. The timber cruiser, the coal expert, the oil fiend and the forest reserve enthusiast have poured their delicious stories into the ears of the officials and patient clerks. One of the new features of October was the coal land entries. That is the opening chapter in a long story for Oregon. Mining claims and timber land entries have monopolized the record. The timber belts in the Blue and Powder River Mountains are staked for miles to circumference. The summer just closed has actually been a season of exploration in Eastern Oregon. Tracts of timber lands have been traversed which have never been thoroughly explored before. Following is the official record for October:

Timber and stone applications, 110. Original homestead entries, 131, calling for 19,886 acres. Final homestead proofs 16, calling for 1475 acres. Desert land entries, 2. Applications for patents for mineral land, 10. Original mineral application, 1. Application for isolated tracts, 10. Cash receipts issued, 150, amounting to \$49,075, calling for 17,710 acres. Applications for coal land, 12. Umatilla land sales, 40, amounting to \$3996, and calling for 6448 acres.

UNION PRINTERS OUT.

Pendleton Tribune to Make the Office Non-Union—Organizer Will Investigate.

The Pendleton Tribune has paid off the union printers working in that office and an effort is being made to get non-union printers in their places. Trouble arose last week between the printers and their employers when the union foreman was displaced by a printer who hitherto has not belonged to a union. Another non-union printer was placed in the office at the same time and the secretary of the union was requested to give them permits to work, which he did. At a special meeting of the union yesterday, these permits were revoked for just and lawful reasons. This morning the proprietors of the Tribune notified the union printers of that office that they would continue to employ these two printers without permits. At the same time they paid off all the union printers and are now endeavoring to get scab printers in their places.

G. W. Howell, of Portland, district organizer of the International Typographical Union, will be here tomorrow and will endeavor to settle the difficulties with the Tribune.

Reform in English Prison System.

London, Nov. 8.—In England's four great convict prisons of Dartmoor, Portland, Parkhurst, and Borstal, young convicts are in future to be treated as a class apart, and every possible means will be employed to keep them from associating with older criminals. They will be officially known as "juvenile adults," the term applying to those who at the time of conviction are 21 years of age or under. The scheme is already in force at Dartmoor, where schoolmasters are employed in teaching the youths. An ex-army officer trains them in physical culture, and they are instructed in carpentry to aid them in earning a living when liberated. Another advance step in prison reform has been made by the abolition of okum picking by female prisoners. In its place, needlework has been adopted, and it will in future be the task of the women convicts to make their own garments and also those of the male prisoners.

A Correction.

I desire to state that the report that V. E. Finch stole a calf from me is a mistake. He had an order for a calf from my place, and the wrong calf was turned over to him by my wife. PETER WEST.

Gaston Released.

Ed Gaston, charged with assault on Mrs. Jackson last week, was released this morning because of the non-appearance of the prosecuting witness.

Notice.

All persons knowing themselves indebted to me must settle by October 10th or their accounts and notes will be placed in the hand of an attorney with instructions to collect. E. L. SMITH.

Fat Veal.

Plenty of nice fat veal at Farmers' Meat Market. C. Platzoeder.

Results of a Temperance Lecture.

Two maiden sisters of mature years had been to a temperance lecture. To demonstrate the disastrous effect of alcohol upon life, the lecturer had poured a portion of whisky into a glass which contained water and a mass of lively animalcules of different unsightly shapes and sizes. The result of the mixture was that the shoals of the ugly-looking fishes were soon bereft of life and were seen floating helplessly in the water. On the way home, when nearing a saloon, one sister remarked to the other: "Mary, will you go in and get some whisky?" "Some whisky!" astonishingly remarked the other. "Yes, dear, for I really can never again drink water with all those horrible things floating about. I would rather drink them dead than alive."

The fourth annual convention of the Eastern division of the Oregon State Teachers' Association, will be held at La Grande November 4, 5 and 6.
