## CORNER IN WHEAT

ARMOUR THREATENS LARGEST WHEAT DEAL ON RECORD.

Controls Ten Million Bushels Now—San Francisco Prices Highest in History of Country.

The following telegram was received this afternoon from Chicago regarding a large May wheat corner, which is being engineered by Armour, the head of the world-famous Armour Meat Packing Company:

"A May wheat deal is now being engineered by Armour, which promises to be the greatest corner in this cereal since the great Leiter corner of 1896. Armour now holds 10,000,000 bushels, and has full control of the market. December wheat is quoted at 72¢ @ 72½ cents."

The above will be looked upon by those who have not yet disposed of their grain as being the forerunner of a big raise over present prices of wheat and will tend to make them hold onto their crops. It is claimed by those in touch with the wheat world here that it will not effect the local market to any great extent. The reason given by Pendleton buyers for this assertion is that Pacific Coast prices are far above the Chicago and New York prices. San Francisco wheat is quoted today at \$1.35 per cental for shipping, which is the highest notch wheat has reached in this market for years, and is higher than any other quotations in the United States. San Francisco never led the world's markets before. The reason for this is because of the heavy local demand for milling wheat and the demand from the Argentine Republic where crops were a failure.

It is stated, however, by local dealers, that the Armour corner may advance the price of flour but it will have to raise the price of wheat in the Chicago market considerably before it will be equal to the coast markets, as they now are. For this reason it is thought the above deal will hardly be felt here.

The local market remains at 59 cents with no buyers or sellers in the field. Wheat has remained at this figure for more than two weeks, which is the longest time it has remained at a standstill since the opening of the present year's markets. Dealers are not anxious to buy for some reason, and farmers, who have not yet sold, refuse to take 59 cents but are waiting for a further advance.

Water was turned into the new town fountain yesterday and it worked like a charm. While the total cost of the fountain and laying of pipes is nearly \$1000, cost of maintaining the fountain in future will be nominal as the town owns the spring from which the fountain is fed and the work is all done in a substantial manner.

Dr. J. A. Best the present mayor of Weston, and who has been practicing medicine here for the past five years, will leave Monday for California to look out a new location. He expects to be gone about ten days after which he will return to Weston and remain until the first of the year.

### Building Contract.

Louis Monerastelli has returned from Walla Walla, where he secured the contract for furnishing the stone

### SQUAW WORK.

Woodco, the Umatilla Indian, Does Not Like to Work in Jail.

Woodco, the Umatilla Indian doing a short sentence in the county jail for "hooking" a couple of pairs of trousers from McKean's a few days ago, is sad these days. Instead of having a squaw to do his work, he has to do it himself and does not like it. Janitor Valle had him out today scrubbing floors and washing windows around the court house and though he worked very well under the eagle eye of the janitor, when asked how he liked it, he gave a grunt and muttered, "No likee. Squaw work." Woodco is liable to get another sentence if a charge filed against him today, sticks. At the time he traded the pants for a cheap watch at a local pawn broker's place of business he incidentally "hooked" two other watches that happened to be convenient. The pawnbroker discovered his loss some time afterward and it is said the police found the missing watches neatly stored away in Woodco's blankets.—Stateman.

### Looking For Counterfeiters.

The secret service in endeavoring to locate the headquarters of a gang of counterfeiters who have been making and circulating spurious half dollars and quarters in some of our large eastern cities. When caught they will be given the full extent of the law, the same as should be done with the unscrupulous dealer who puts up an imitation article and sells it for the genuine Hostetter's Stomach Bitters, claiming it is "just as good." Don't believe him. His medicine has not the record of cures back of it that the genuine Bitters has. Insist on having the genuine with our Private Stamp over the neck of the bottle. It will positively cure nausea, headache, heartburn, indigestion, dyspepsia and malaria. Try it and be convinced.

### Fish for Japan.

S. Matsuyon, a wholesale fish merchant of Tokyo, Japan, who is on the Sound purchasing supplies, states that the Japanese demand for fish is greater than the supply at the present time. Fish is as staple in Japan as meat is in this country, and a great market has developed there for Pacific Coast cured salmon products, of which more could be used if available.

## BUSINESS OUTLOOK

MERCHANTS ANTICIPATE HEAVY CHRISTMAS TRADE.

Money is Plentiful and Easy and the Farmers of Umatilla Are Unusually Prosperous.

Although it is yet more than a month until Christmas, the business houses of Pendleton are preparing for the holiday trade. For the past several years times have been good in Umatilla county and especially in Pendleton and each year has seen an increased holiday trade.

Already the displays indicate the gaiety of the holiday season. Windows are brilliant with new flashes of color and new beauties of design. The shelves are being replenished, the counters tastefully rearranged, and the very atmosphere of trade brings to mind the Thanksgiving turkey and the Christmas stocking. Farmers are locating the choice luxuries, vying with each other in the selection of delightful attractions for the home, and the fall and winter trade promises even now to excel that enjoyed for many years. The long line of teams standing in rank at the hitching posts, the continual stream of travel on all roads leading to town, indicate a prosperity that is substantial and permanent. The country trade of Pendleton is constantly increasing. New sections of this and adjoining counties are represented every day in heavy sales in our establishments. Larger stocks of holiday goods have been purchased this fall than ever before in this city. The increasing business demands it and from present indications present orders will fall short of actual demands.

### No Apprehension Felt.
