NOT A RELIEF BUT A CURE

Helena, Mont., Oct. 4, 1902.
Dr. C. A. Perrin,
Helena, Mont.
I wish to thank you for my relief. I was suffering agonies from piles and was taking morphine to relieve me, when, on the advice of a friend, I procured a bottle of your Ferrin Pile Specific and took a tablespoonful at night and another in the morning. At half past 12, noon, my wife gave me another tablespoonful, when my pain all stopped. In two days I was able to attend my regular business entirely relieved. It was simply wonderful.
Truly yours,
Julius Meyhoefer, Furrler,
Helena.

PERRIN'S PILE SPECIFIC

UMATILLA HISTORY

(Concluded.)

Wheat has been the life, the main-spring, the backbone of this wonderful country. Panics may come and go, business institutions may fail, misfortunes may befall other enterprises, but the wheat crop never fails. In over 30 years there has not been a failure in this section of Umatilla county. The poorest producing years finds this section of the country yielding 25 and 30 bushels of wheat to the acre and the prosperous years find it producing as high as 50 and 70 bushels to the acre.

Shipments.

There are two extensive wheat buyers at Weston. The Pacific Coast Elevator Co., is represented by R. Jamieson, who has been buying wheat for a number of years. The company has a warehouse 40x200 and for the past four years Mr. Jamieson has handled an average of 72,000 bushels of wheat annually for his company.

J. H. Price is the agent for Kerr, Gifford & Co., at this place. They have been established at Weston for a number of years. They own a warehouse 200x40 feet and handle about 50,000 bushels of wheat annually. This company also owns a warehouse at Downing, near this place, 50x100 feet and handles at that point about 35,000 bushels of grain annually.

Flouring Mills.

The Weston Flouring Mills, F. L. Blair, manager, is one of her largest business institutions. The plant cost about \$13,000 and has a capacity of 50 to 60 barrels of flour a day. It was established about four years ago and has been running on full capacity during the seasons since that time.

Weston Brick.

H. B. Nelson, the famous Eastern Oregon brickmaker has his plant at this place. He has been in the business for 23 years and he supplies a trade for more than a hundred miles in every direction. Large shipments are made to Walla Walla, Pomeroy, Heppner, and Pendleton draws her entire supply from this point. One day last week two carloads were shipped, one to Lone, Oregon, and the other to Pomeroy, Washington, each being in opposite directions and nearly a hundred miles away. Mr. Nelson estimates that he handles at least four million brick annually, and owing to a scarcity of hands the past year it has been difficult to supply the demand for his brick.

The soil is particularly adapted to making brick. At first glance the average brickmaker would pronounce it unfit for the purpose, but after the test is made he finds that it has few equals as a material for brickmaking. It has the appearance of being too sandy, but sand has to be mixed with it, and while in a wet state, rain does it no harm. Rain that would ruin the average material does not affect this material, which is a pale clay.

An average of 40 to 50 men are employed on the yard and it takes about \$40 worth of wood a day to run the yard. This results in a large weekly pay roll in Weston which adds materially to the wealth of the place and increases its value as a business point.

Mr. Nelson will take a trip to the East at an early date and examine machinery and apparatus and buy such as he thinks will work best in this country and will increase the capacity and facilities of his yard, making it one of the best in the Pacific Northwest.

BUILDING IN ATHENA.

Good Dressers Wear Good Clothes =

Not necessarily expensive, as the reason of the unvarying success of the big store has been its desire, purpose and intent to sell only such merchandise as could be called trade builders in the true sense. A trade builder is an item of merit. The merit of an article depends upon the prices asked for it. As we buy only from the recognized leaders of American manufactures, we remove to the utmost limit, all thought of inferiority, and are in a position to claim first class value. Therefore when you buy at the big store you get the best, are satisfied while using it and pleased to call again. We are pleased to see you return.

Jacobs' addition to residence, \$300. It is estimated that other improvements not herein enumerated have been made to the value of at least \$1200.

Luck in Thirteen.

By sending 13 miles, Wm. Spirey of Walton Furnace, Vt., got a box of Bucklen's Arnica Salve, that wholly cured a horrible fever sore on his leg. Nothing else could. Positively cures bruises, felons, ulcers, eruptions, boils, burns, corns and piles. Only 25c. Guaranteed by Tallman & Co. druggists.

What to do in cases of accidents, before the physician arrives, is told in a compact little volume "Accidents, Illnesses and Emergencies" issued by the medical department of the Mutual Life Insurance company of New York. This book is sent on request to those who address the home office of the company, Nassau, Cedar, William and Liberty streets, New York City.

The book makes suggestions about diet, ventilation, disinfectants, drainage, and gives hints on first aid to the injured and the general care of health.

THIS IS OLD DOCTOR KESSLER

One of the World's Greatest Specialists, Who Has Kept Hundreds From an Early Grave or the Insane Asylum.

Now, look here, young man, don't be so careless. Don't put off any longer; have your case attended to today, for your looks tell on you. You may conclude to get married some day, and to live happy you must be a man rugged and strong physically and mentally. So many divorce cases we hear of, if an investigation was made, would disclose the fact that physical and nervous weakness of the husband causes the wife to finally hate him. Women love a manly man, just as much as men love beautifully developed, healthy, red-cheeked women. Blistches and pimples show something wrong. All kinds of diseases are cured by this old doctor. It is not necessary to go to see him; in a few diseases where surgery is required or cancers, old ulcers and such it is better to see him, but all weakness and private conditions can be cured at home. He has a perfect system of home treatment; he always answers your letters in a plain envelope and keeps every case a profound secret. Pay no attention to the little books you find on streets, but trust yourself to an old doctor who has been curing cases like yours for over a quarter of a century in this city. Always inclose 10 2-cent stamps when writing for consultation, and send small bottle of urine if possible. Address.
