NEW HITCHING RACK

CITY FOLLOWS SUGGESTION OF EAST OREGONIAN

Places Now Being Fixed Along Railroad Street for the Accommodation of the Farmers.

Hitching racks are now being placed along Railroad street east of Main street and in the lot back of the East Oregonian building, for the accommodation of the farmers coming to town. This is something that is not being done any too soon. The need for more hitching room has been felt in Pendleton for several years.

The city provides a lot on Cottonwood street for hitching horses, but this is not large enough to hold one-fifth of the animals in town on Saturdays and busy days and recognizing this fact, the East Oregonian suggested the provisions for more room to accommodate the farmers coming to the city to do their trading. This suggestion has been taken up by the city officials and the new racks are the result. It was pointed out by the East Oregonian that the streets were left standing full of horses hitched to wheat racks during the wheat hauling season, and this state of affairs should not exist. The providing of several vacant lots for this purpose was advocated.

TURKEYS IN DEMAND.

Are 12½ Cents Per Pound in Walla Walla—Wanted for Shipment to the Sound.

Walla Walla, Nov. 18.—With Thanksgiving over a week in the future the demand for turkeys is stronger than it has ever been in this section, and men are scouring the country in bugles endeavoring to purchase the birds wherever found. The price offered is 12½ cents per pound, live weight, the top of the market in Eastern Washington. The demand comes from the Sound country and Montana points, where dealers are urging the shipment immediately of thousands of the birds at most any price asked. Hundreds of turkeys have been purchased and are being kept in feeding pens awaiting shipment, as soon as enough can be gathered together to make shipments by fast freight. The birds will be sent out alive in most cases. It is anticipated that several hundred will be needed in this city to supply the local demand.

INDIAN EDUCATION A SUCCESS.

Kansas Graduates Are Generally Making New Records.

Superintendent Peairs, of Haskell Indian Institute, in Kansas, in his annual report, says that although at times the results of the work of education among the Indians do not satisfy the onlookers, to those who are in the work and therefore have opportunities to observe the gradual development of individuals, there is more and more of encouragement and satisfaction.

As proof of the permanent good results of training the Indians, the report says that of 35 graduates previous to the class of 1902, at least 77 are at work earning their own living, and in many instances aiding needy parents for supporting in a respectable way a little family of their own. Of the 41 graduates of the class of 1902, it is stated there is not one but is qualified to make a record equal to earlier graduates. The under-graduates are also making excellent records. The fact, however, that the percentage of successes among under-graduates is cited as a strong argument in favor of the continuation of thorough educational work.

There is a constantly increasing demand from among the Indian population of the country for enrollment at this and other schools.

OREGON PIONEER

WALKED THROUGH PENDLETON FIFTY-TWO YEARS AGO.

Old Academy at Umpqua, Where Binger Hermann Went to School.

J. B. Grubb, mail carrier on the Holdman rural mail route, was in the city today and in conversation with an East Oregonian representative, said the patrons of the route did not fully appreciate its benefits in some respects. The law requires patrons to place their mail in a position where it can be reached from the vehicle or conveyance of the carrier, and in some instances this is not being done. Mr. Grubb is an Oregon pioneer of 1850, having passed through Pendleton that year, when a boy 3 years of age. Speaking of the intervening years from 1850 to 1902, Mr. Grubb said:

"There were nothing but Indians in Umatilla county at that time. Pendleton was not in existence. My father went to Polk county in 1850, and the next spring went to Douglas county, near Wilbur Station. That is one of the historic spots in Oregon. It was named from 'Father' Wilbur, as he was called, a Methodist missionary, sent out from New York state. He built the old Umpqua Academy at Wilbur, a pioneer school from which many of the prominent pioneer men and women of the state received their education, among this number being Binger Hermann. 'Father' Wilbur hauled the logs and built the Taylor street church in Portland, Or., about the year 1849.

"It seems incredible that half a century has slipped past since I walked in the trail that ran across the present site of Pendleton."

Funeral of Mr. Waters.
