Deafness Cannot Be Cured

Deafness Cannot Be Cured
by local applications as they cannot reach
the diseased portion of the ear. There is
only one way to cure deafness, and that
is by constitutional remedies. Deafness is
caused by an inflamed condition of the
mucus lining of the Eustachian. Tube.
When this tube is inflamed you have a
rumbling sound or imperfect hearing, and
when it is entirely closed, Deafness is the
result and unless the inflammation can be
taken out and this tube restored to its
normal condition, hearing will be destroyed forever; nine cases out of ten are
caused by Catarrh, which is nothing but
an inflamed condition of the mucus surface.

an inflamed condition of the muces face.
