UMATILLA HISTORY

(Concluded.)

acre. He has sold large shipments of fruits and vegetables and still has his cellar filled to overflowing with the choicest varieties. The second crop of strawberries is now on and the grape vines are loaded down with grapes. Mr. Freudig also has a certificate from the Pan-American exposition showing that apples sent from his orchard to that place ranked high up in the fruit line.

Gritty Boys.

Many interesting features are pointed out at this place. An old dilapidated gate is explained as having been knocked out of "joint" in early days by one of the Stillman boys, who was chasing a coyote on horseback, and at such a velocity that he could not take up in time to avoid a collision with the gate. Many other things were told that indicate that the pioneers were not far ahead of their sons when it came to combating with the rugged side of life.

Mastering Pests.

In former years the codlin moth did a great deal of damage to fruit, but the modern fruit raiser has about mastered this insect. Those who spray regularly claim that the remedy is effective and that as soon as all the fruit raisers adopt the plan and follow it up systematically the codlin moth and other pests to fruit will soon be things of the past.

It is stated that on account of the pests the tree that bore the prize apple was condemned and cut down several years ago.

MILTON NEWS.

Personal Notes — Old Fashioned Thanksgiving Exercises at District No. 9—Surveying Freewater Flat.

Milton, Nov. 24.—Hick Malone is visiting friends in Portland.

J. L. Vinson, Mrs. J. E. McQuary and Miss Cassie Henderson, who have been on the sick list for the past few days, are reported much better at this writing.

Rev. C. R. Howard, of Dayton, Wash., visited Professor W. C. Howard and wife at the college the latter part of last week.

William Nichols sold one of his farms last week to the Harder brothers, for \$10,000.

C. P. Strain, the new assessor-elect, will move to Pendleton this week.

Rev. D. C. Sanderson will preach the Thanksgiving sermon in the Columbia College hall.

W. A. Clark and wife, from below Freewater, left last week to visit relatives and friends in Missouri. They

will be gone until some time in January.

E. J. Metcalf, of Portland, a nephew of A. M. Elam, who came here last fall for the benefit of his health, returned home last week much improved.

Mr. and Mrs. Robert Frazier have rented their farm to William Hopson and moved to town.

The pupils and patrons of district No. 9, above town, where W. S. Mayberry is teaching will have a short Thanksgiving exercise and an old-fashioned Thanksgiving supper on Thanksgiving evening.

Miss Thomasson, the most popular girl in Milton, received the lamp, and Mr. Worthington received the "baby" which was a pig, at the homeliest man, at the Electric Doctors' show Saturday night.

Mr. and Mrs. Charles Cole, who have been in the upholstering business here for the past four months, have accepted a position with a furniture firm in Spokane and left for that place last Friday.

Dr. Thomas reports births at the following places: Mr. and Mrs. Bridgewater, the 17th inst, a 11-pound boy; Mr. and Mrs. A. Ferguson, same date, a son; Mr. and Mrs. Amos Richardson, 20th, a son; Mr. and Mrs. John Loner, 18th, a girl; Mr. and Mrs. N. Le Coron, 18th, a boy.

Arrangements have been made within the past week for a lecture course here this winter. T. G. Salt is the local manager. The proceeds go to the school.

On the strength of taking the portion of Milton lying north of the schoolhouse, into the Freewater corporation, the surveyors spent three days last week in running lines prior to drawing maps and plats of the addition. Everybody seems confident that all of the rocky flat now belonging to Milton, will soon be known as Freewater flat.
