THE FOREST FIRES.

(Concluded.)

aged. Particularly does this apply to northeastern slopes, where the force of the wind was greatest.

Recapitulation of Losses.

Farm property, exclusive of timber	$ 315,000
Schoolhouses and churches	35,000
Bridges	7,000
Sawmills and and manufactured forest products	149,000
Timber	2,449,000
Total	$2,955,000

In addition to the fires in Multnomah and Clackamas counties there were also severe forest fires in Tillamook, Benton, Lane, Marion and Clatsop counties. The damage by these fires to timber and other property is estimated at $955,000, making a total of $3,910,000 lost in Oregon.

While there is some government land and much that is owned by the state in the burned region, these heavy losses fall chiefly upon small private owners.

Causes of the Fires.

A singular chain of circumstances combined to make the fires so destructive.

Not only was the summer very dry, but the two preceding summers were wet in May and June, thus interfering with the burning of slashings and allowing an unusual amount of debris to accumulate. In the early part of September the wind blew from the east most of the time. An east wind after it gets west of the Cascades, is ready to absorb almost any quantity of moisture, so that the forest was soon in the condition of tinder. The most direct cause was carelessness. This is shown distinctly by the fact that practically no damage was done in the Cascade forest reserve, which is patrolled by forest rangers. In many instances the fires smouldered for considerable periods without attracting attention, and this in the face of the fact that the past season has been one particularly favorable to forest fires.

Many blazes started from the unextinguished camp fires of berry pickers or hunters; others resulted from careless burning of slashings; one was known to have originated from locomotive sparks. With the exception of this case, reasonable precaution on the part of individuals would have prevented the loss of millions of dollars.

In the opinion of Mr. Cox, after tracing many of the fires to the origin, the most of them could have been extinguished before they became serious. The lesson taught is had there been an efficient system of forest patrol in these localities it is doubtful if any very serious fires would have occurred.

A Startling Surprise.

Very few could believe in looking at A. T. Hoadley, a healthy, robust blacksmith, of Tilden, Ind., that for ten years he suffered such tortures from rheumatism as few could endure and live. But a wonderful change followed his taking Electric Bitters. Two bottles wholly cured me," he writes, "and I have not felt a twinge in over a year." They regulate the kidneys, purify the blood and cure rheumatism, neuralgia, nervousness, improve digestion and give perfect health. Try them. Only 50 cents at Tallmann & Co's. drug store.

HE HAS FAITH.

C. M. Pierce Is Still Adding to His Investments Here.

C. M. Pierce recently purchased another quarter section of timber land two miles this side of the toll gate on Weston Mountain. This gives him a section in one body, part of which is covered with good timber, says the Weston Leader of November 30.

This is only one of Mr. Pierce's numerous investments in this locality. As is well known, he has invested largely in Weston town property and built several houses, and he is now turning his attention to country realty.

Mr. Pierce resided at Weston six years while cashier of the local bank, and afterward made his home in Southern California. He has traveled extensively in the state of Washington, and while absent has always been a careful student of business conditions. Upon returning to Weston to live in future he does so with a strong faith that he voices tersely as follows:

"I regard Oregon as about the best part of the universe, Umatilla county as the best part of Oregon, and Weston as the best part of Umatilla county."

"I hear your son is reading law." No, sir. It's a mistake. My son is sitting in the back office with his feet on a desk, smoking cigarettes."—Chicago Record-Herald.
